An Alphabet of History Crown

The #1 New York Times bestseller The phenomenal true story of

the black female mathematicians at NASA whose calculations helped fuel some of America's greatest achievements in space. Soon to be a major motion picture starring Taraji P. Henson, Octavia Spencer, Janelle Monae, Kirsten Dunst, and Kevin Costner. Before John Glenn orbited the earth, or Neil Armstrong walked on the moon, a group of dedicated female mathematicians known as "human computers" used pencils, slide rules and adding machines to calculate the numbers that would launch rockets, and astronauts, into space. Among these problem-solvers were a group of exceptionally talented African American women, some of the brightest minds of their generation. Originally relegated to teaching math in the South's segregated public schools, they were called into service during the labor shortages of World War II, when America's aeronautics industry was in dire need of anyone who had the right stuff. Suddenly, these overlooked math whizzes had a shot at jobs worthy of their skills, and they answered Uncle Sam's call, moving to Hampton, Virginia and the fascinating, high-energy world of the Langley Memorial Aeronautical Laboratory. Even as Virginia's Jim Crow laws required them to be segregated from their white counterparts, the women of Langley's all-black "West Computing" group helped America achieve one of the things it desired most: a decisive victory over the Soviet Union in the Cold War, and complete domination of the heavens. Starting in World War II and moving through to the Cold War, the Civil Rights Movement and the Space Race, *Hidden Figures* follows the interwoven accounts of Dorothy Vaughan, Mary Jackson, Katherine Johnson and Christine Darden, four African American women who participated in some of NASA's greatest successes. It

chronicles their careers over nearly three decades they faced challenges, forged alliances and used their intellect to change their own lives, and their country's future.

Too many of us miss out on opportunities in life because we lack self-confidence. Whether it's public speaking, taking on a leadership role, or asking someone for a date, there are situations in which we just don't feel equipped to handle the challenges we face. Russ Harris offers a surprising solution to low self-confidence, shyness, and insecurity: Rather than trying to "get over" our fears, he says, the secret is to form a new and wiser relationship with them. Paradoxically, it's only when we stop struggling against our fearfulness that we begin to find lasting freedom from it. Drawing on the techniques of Acceptance and Commitment Therapy (ACT), a cutting-edge form of cognitive-behavioral therapy, *The Confidence Gap* explains how to:

- Free yourself from common misconceptions about what confidence is and how to build it
- Transform your relationship with fear and anxiety
- Clarify your core values and use them as your inspiration and motivation
- Use mindfulness to effectively handle negative thoughts and feelings.

Memphis gave birth to music that changed the world — Memphis Mayhem is a fascinating history of how music and culture collided to change the state of music forever “David Less has captured the essence of the Memphis music experience on these pages in no uncertain terms. There's truly no place like Memphis and this is the story of why that is. HAVE MERCY!” — Billy F Gibbons, ZZ Top Memphis Mayhem weaves the tale of the racial collision that led to a cultural, sociological, and musical revolution. David Less constructs a fascinating narrative of the city that has produced a startling array of talent, including Elvis Presley, B.B. King, Al Green, Otis Redding, Sister Rosetta Tharpe, Justin Timberlake, and so many more. Beginning with the 1870s yellow fever epidemics that created racial imbalance as wealthy whites fled the city, David Less moves from W.C. Handy's codification of blues in 1909 to the mid-century advent of interracial musical acts like Booker T. & the M.G.'s, the birth of punk, and finally to the growth of a music tourism industry. Memphis Mayhem explores the city's entire musical ecosystem, which includes studios, high school band instructors, clubs, record companies, family bands, pressing plants, instrument factories, and retail record outlets. Lively and comprehensive, this is a provocative story of finding common ground through music and creating a sound that would change the world.

Own Your Morning. Elevate Your Life. Hachette Books
Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from

Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
