HINTON SIMS

IB Chemistry Wadsworth Publishing Company Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This workbook is specifically for the IB Chemistry syllabus, for examination from 2016. The Chemistry for the IB Diploma Workbook contains straightforward chapters that build learning in a gradual way, first outlining key terms and then providing students with plenty of practice questions to apply their knowledge. Each chapter concludes with exam-style

questions. This structured approach reinforces learning and actively builds students' confidence using key scientific skills - handling data, evaluating information and problem solving. This helps empower students to become confident and independent learners. Answers to all of the questions are on the CD-ROM.

Standard Level Hodder Education

For the IB Diploma
Springer

This book has been specifically designed to support the student of the IB Diploma Programme in Theory of Knowledge. It

will stimulate students to think about learning and knowledge from their own and from others' perspectives in a way that crosses disciplines and cultures. It will encourage reflection, discussion, critical thinking, and awareness of the ways in which knowledge is constructed, and will lead students to recognize the implications of knowledge for issues of global concern. The book is rooted in classroom experience and provides class activities and supporting material for the whole of the TOK course.
