The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement.

For the IB diploma OUP Oxford

The International Baccalaureate (IB) is a respected qualification gaining increasing currency around the world, and which has been adopted by a wide variety of schools, both public and private. In the UK, growing dissatisfaction with the A-level system has led to an intense debate about alternative qualifications, and in many schools IB courses have been introduced alongside conventional A-level courses. This practical introduction to the IB takes a balanced look at the pros and cons and features a wealth of advice from those actually involved in teaching and implementing it in schools. Providing

comparative material on how IB courses differ from A-levels and a subject-by-subject account of best practice in teaching the IB, this book offers a rich source of practical advice for teachers, school leaders or managers involved in teaching or implementing the IB programmes.

Geography for the IB MYP 4&5: by Concept OUP Oxford

This Study Guide supports the new syllabus for 2009 and includes all options. Written by two Senior IB examiners, it contains all the information required for the course, presented in a concise, accessible format. The book exactly matches the structure of the new course and includes material for both Standard and Higher level. The entirely new topic, globalization, global interactions is given extra emphasis. Questions and full mark schemes are provided along with advice on internal and external assessment. The Study Guide may be used by teachers or to support the students' learning outside the classroom. It is also suitable for students and teachers whose first language is not English. New edition available now - ISBN 978-0-19-838915-6

This comprehensive and accessible book is designed for use by students following the Theory of Knowledge course in the International Baccalaureate (IB) Diploma Programme. The book is also useful for students following other critical thinking courses. The fundamental question in Theory of Knowledge is How do you know? In exploring this question, the author encourages critical thinking across a range of subject areas and helps students to ask relevant questions, use language with care and precision, support ideas with evidence, argue coherently and make sound judgements.

Global Interactions : Study and

Revision Guide OUP Oxford

This textbook and CD have been written for the University of Cambridge International Examinations course for International A and AS Level Geography (9696). The book covers the core syllabus and all the human and physical geography options. There is a CD includes interactive tests (one for each chapter in the book), Revision checklists, a section on Study Skills and a Glossary. Advice is given on the examination and on assessment. The text book has a strong emphasis on geographical skills, including advice on fieldwork. There is also a geographical skills section which includes maps from around the world, and covers cartographic and statistical skills. There is an international focus throughout, and the examples and case studies are taken from around the world.
