Manual Fifth Edition ...The most repeated
concept in this manual (and other works
by Dr. Ingham) is that any brewer used
must keep the actively aerated compost
tea at an oxygen level of 6ppm (or higher
throughout the brewing process) to
produce (good) aerobic compost tea
(same oxygen level applies for compost
piles). One seeming contradiction that she
discusses is the reality that various (and
poor) quality starters ...The compost tea
brewing manual: Amazon.co.uk: Ingham
...The simplest definition of compost tea is:
A brewed, water extract of compost.
Properly made compost must be used, so
that the compost tea needs no further
pathogen reduction. Compost tea
production is therefore, a "cold brewing"
process, allowing growth of the organisms
extracted from the compost.The Compost
