English has been spoken in Ireland for over 800 years, making Irish English the oldest variety of the language outside Britain. This 2007 book traces the development of English in Ireland, both north and south, from the late Middle Ages to the present day. Drawing on authentic data ranging from medieval literature to authentic contemporary examples, it reveals how Irish English arose, how it has developed, and how it continues to change. A variety of central issues are considered in detail, such as the nature of language contact and the shift from Irish to English, the sociolinguistically motivated changes in present-day Dublin English, the special features of Ulster Scots, and the transportation of Irish English to overseas locations as diverse as Canada, the United States, and Australia. Presenting a comprehensive survey of Irish English at all levels of linguistics, this book will be invaluable to historical linguists, sociolinguists, syntacticians and phonologists alike.

A History of Irish Working-Class Writing provides a wide-ranging and authoritative chronicle of the writing of Irish working-class experience. Ground-breaking in scholarship and comprehensive in scope, it is a major intervention in Irish Studies scholarship, charting representations of Irish working-class life from eighteenth-century rhymes and songs to the novels, plays and poetry of working-class experience in contemporary Ireland. There are few narrative accounts of Irish radicalism, and even fewer that engage 'history from below'. This book provides original insights in these relatively untilled fields. Exploring workers' experiences in various literary forms, from early to late capitalism, the twenty-two chapters make this book an authoritative and substantial contribution to Irish studies and English literary studies generally.

Ireland in crisis OUP Oxford

From the authors of This Is Happiness and Her Name Is Rose, a memoir of life in rural Ireland and a meditation on the power, beauty, and importance of the natural world. 35 years ago, when they were in their twenties, Niall Williams and Christine Breen made the impulsive decision to leave their lives in New York City and move to Christine's ancestral home in the town of Kiltumper in rural Ireland. In the decades that followed, the pair dedicated themselves to writing, gardening, and living a life that followed the rhythms of the earth. In 2019, with Christine in the final stages of recovery from cancer and the land itself threatened by the arrival of turbines just one farm over, Niall and Christine decided to document a year of living in their garden and in their small corner of a rapidly changing world. Proceeding month-by-month through the year, and with beautiful seasonal illustrations, this is the story of a garden in all its many splendors and a couple who have made their life observing its wonders.

Spain and the Irish Mission, 1609-1707 examines Spanish confessional policy in 17th-century Ireland. Cristina Bravo Lozano provides an innovative perspective on Spanish-Irish relations during a crucial period for Early Modern European history. Key historical actors and events are brought to the fore in her account of the missionary networks created around the Irish Catholic exile in the Iberian Peninsula. She presents a comprehensive study of this form of royal patronage, the changes and challenges Irish Catholicism had to face after the peace of London (1604) and the role that Irish missionaries played in preserving its place within the framework of Anglo-Spanish relations.

The Making of Ireland by James Lydon provides an accessible history of Ireland from the earliest times. James Lydon recounts, in colourful detail, the waves of settlers, missionaries and invaders which have come to Ireland since pre-history and offers a long perspective on Irish history right up to the present time. This comprehensive survey includes discussion of the arrival of St. Patrick in the fifth century and Henry II in the twelfth, as well as that of numerous soldiers, traders and craftsmen through the ages. The author explores how these settlers have shaped the political and cultural climate of Ireland today. James Lydon charts the changing racial mix of Ireland through the ages which shaped the Irish nation. The author also follows Ireland's long and troubled entanglement with England from its beginning many centuries ago. The Making of Ireland offers a complete history in one volume. Through a predominantly political narrative, James Lydon provides a coherent and readable introduction to this vital complex history.

Ireland's English Pale, 1470-1550 - the Making of a Tudor Region Cambridge University Press

This volume offers fresh perspectives on the political, military, religious, social, cultural, intellectual, economic, and environmental history of early modern Ireland and situates these discussions in global and comparative contexts. The opening chapters focus on 'Politics' and 'Religion and War' and offer a chronological narrative, informed by the re-interpretation of new archives. The remaining chapters are more thematic, with chapters on 'Society', 'Culture', and 'Economy and Environment', and often respond to wider methodologies and historiographical debates. Interdisciplinary cross-pollination - between, on the one hand, history and, on the other, disciplines like anthropology, archaeology, geography, computer science, literature and gender and environmental studies - informs many of the chapters. The volume offers a range of new departures by a generation of scholars who explain in a refreshing and accessible manner how and why people acted as they did in the transformative and tumultuous years between 1550 and 1730. This is the first study to systematically explore similarities, differences, and connections between the histories of American planters and Irish landlords. The book focuses primarily on the comparative and transnational investigation of an antebellum Mississippi planter named John A. Quitman (1799-1858) and a nineteenth-century Irish landlord named Robert Dillon, Lord Clonbrock (1807-93), examining their economic behaviors, ideologies, labor relations, and political histories. Locating Quitman and Clonbrock firmly within their wider local, national, and international contexts, American Planters and Irish Landlords in Comparative and Transnational Perspective argues that the two men were representative of specific but comparable manifestations of agrarian modernity, paternalism, and conservatism that became common among the landed elites who dominated economy, society, and politics in the antebellum American South and in nineteenth-century Ireland. It also demonstrates that American planters and Irish landlords were connected by myriad direct and indirect transnational links between their societies, including transatlantic intellectual cultures, mutual participation in global capitalism, and the mass migration of people from Ireland to the United States that occurred during the nineteenth century.

Roy Foster is one of the leaders of the iconoclastic generation of Irish historians. In this opinionated, entertaining book he examines how the Irish have written, understood, used, and misused their history over the past century. Foster argues that, over the centuries, Irish experience itself has been turned into story. He examines how and why the key moments of Ireland's past--the 1798 Rising, the Famine, the Celtic Revival, Easter 1916, the Troubles--have been worked into narratives, drawing on Ireland's powerful oral culture, on elements of myth, folklore, ghost stories and romance. The result of this constant reinterpretation is a shifting "Story of Ireland," complete with plot, drama, suspense, and revelation. Varied, surprising, and funny, the interlinked essays in The Irish Story examine the stories that people tell each other in Ireland and why. Foster provides an unsparing view of the way Irish history is manipulated for political ends and that Irish poverty and oppression is sentimentalized and packaged. He offers incisive readings of writers from Standish O'Grady to Trollope and Bowen; dissects the Irish government's commemoration of the

1798 uprising; and bitingly critiques the memoirs of Gerry Adams and Frank McCourt. Fittingly, as the acclaimed biographer of Yeats, Foster explores the poet's complex understanding of the Irish story--"the mystery play of devils and angels which we call our national history"--and warns of the dangers of turning Ireland into a historical theme park. The Irish Story will be hailed by some, attacked by others, but for all who care about Irish history and literature, it will be essential reading.

From the dark shadow of civil war to the pastel-painted towns of today, Making Ireland Irish provides a sweeping account of the evolution of the Irish tourist industry over the twentieth century. Drawing on an extensive array of previously untapped or underused sources, Eric G. E. Zuelow examines how a small group of tourism advocates, inspired by tourist development movements in countries such as France and Spain, worked tirelessly to convince their Irish compatriots that tourism was the secret to Ireland's success. Over time, tourism went from being a national joke to a national interest. Men and women from across Irish society joined in, eager to help shape their country and culture for visitors' eyes. The result was Ireland as it is depicted today, a land of blue skies, smiling faces, pastel towns, natural beauty, ancient history, and timeless traditions. With lucid prose and vivid detail, Zuelow explains how careful planning transformed Irish towns and villages from grey and unattractive to bright and inviting; sanitized Irish history to avoid offending Ireland's largest tourist market, the English; and supplanted traditional rural fairs revolving around muddy animals and featuring sexually suggestive ceremonies with new family-friendly festivals and events filling today's tourist calendar. By challenging existing notions that the Irish tourist product is either timeless or the consequence of colonialism, Zuelow demonstrates that the development of tourist imagery and Irish national identity was not the result of a handful of elites or a postcolonial legacy, but rather the product of an extended discussion that ultimately involved a broad cross-section of society, both inside and outside Ireland. Tourism, he argues, played a vital role in "making Ireland Irish."

**British Interventions in Early Modern Ireland** Oxford University Press, USA

This is a book about Irish nationalism and how Irish nationalists developed their own conception of the Irish race. Bruce Nelson begins with an exploration of the discourse of race--from the nineteenth-century belief that "race is everything" to the more recent argument that there are no races. He focuses on how English observers constructed the "native" and Catholic Irish as uncivilized and savage, and on the racialization of the Irish in the nineteenth century, especially in Britain and the United States, where Irish immigrants were often portrayed in terms that had been applied mainly to enslaved Africans and their descendants. Most of the book focuses on how the Irish created their own identity--in the context of slavery and abolition, empire, and revolution.

Since the Irish were a dispersed people, this process unfolded not only in Ireland, but in the United States, Britain, Australia, South Africa, and other countries. Many nationalists were determined to repudiate anything that could interfere with the goal of building a united movement aimed at achieving full independence for Ireland. But others, including men and women who are at the heart of this study, believed that the Irish struggle must create a more inclusive sense of Irish nationhood and stand for freedom everywhere. Nelson pays close attention to this argument within Irish nationalism, and to the ways it resonated with nationalists worldwide, from India to the Caribbean.

[American Planters and Irish Landlords in Comparative and Transnational Perspective](#) Indiana University Press

This groundbreaking book provides the first comprehensive study of the re-making of Ireland's aristocracy during the seventeenth century. It is a study of the Irish peerage and its role in the establishment of English control over Ireland. Jane Ohlmeyer's research in the archives of the era yields a major new understanding of the early modern British elite, and it describes with new accuracy the experiences of the Irish lords in a wider British and continental context. The book examines the resident peerage as an aggregate of 91 families, not simply 311 individuals, and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy. Tracking the impact of colonization, civil war, and other significant factors on the fortunes of the Irish peerage, Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite: making Ireland English. Jane Ohlmeyer is Erasmus Smith's Professor of Modern History and Vice-Provost for Global Relations at Trinity College, Dublin.

Family Fictions and World Making: Irish and Indian Women's Writing in the Contemporary Era is the first book-length comparative study of family novels from Ireland and India. On the one hand, despite an early as well as late colonial experience, Ireland is often viewed exclusively within a

metropolitan British and Europe-centered frame. India, on the other hand, once seen as a model of decolonization for the non-Western world, has witnessed a crisis of democracy in recent years. This book charts the idea of "world making" through the fraught itineraries of the Irish and the Indian family novel. The novels discussed in the book foreground kinship based on ideological rather than biological ties and recast the family as a nucleus of interests across national borders. The book considers the work of critically acclaimed women authors Anne Enright, Elizabeth Bowen, Mahasweta Devi, Jennifer Johnston, Kiran Desai and Molly Keane. These writers are explored as representative voices for the interwar years, the late-modern period, and the globalization era. They not only push back against the male nationalist idiom of the family but also successfully interrogate family fiction as a supposedly private genre. The broad timeframe of Family Fictions and World Making from the interwar period to the globalization era initiates a dialogue between the early and the current debates around core and periphery in postcolonial literature.

**The Cambridge History of Ireland: Volume 2, 1550-1730** U of Nebraska Press

The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day. Interspersing narrative with detailed analysis of key themes, the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience. The contributors are leading experts in their fields, and present their original interpretations in a fresh and accessible manner. New perspectives are offered on the politics, artistic culture, religious beliefs and practices, social organisation and economic activity that prevailed on the island in these centuries. At each turn the question is asked: to what extent were these developments unique to Ireland? The openness of Ireland to outside influences, and its capacity to influence the world beyond its shores, are recurring themes. Underpinning the book is a comparative, outward-looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe

The crisis that befell Ireland in the 1640s has always fascinated historians. This volume of essays presents cutting-edge research on various aspects of the Irish wars, notably regionalism, the nature of English interventions, popular politics and the problems of allegiance, authority and legitimacy in church and state. The chapters include studies of the earl of Cork in Munster, the earl of Clanricarde in Connacht and Lord Montgomery in Ulster, as well as the Confederate Catholic engagement with popular politics. The role of the marquess of Ormond, the Irish Parliament and the Church of Ireland are also examined in new ways, and the volume ends with a fresh look at the war of words between Oliver Cromwell and the Catholic Church. Ireland in crisis presents a very different view of the period that challenges existing assumptions. It will appeal to lecturers, students and the general reader.
