is different in
the Second
Edition is its
emphasis on

the importance of valuing adolescents' perspectives-- in an era of skyrocketing interest in improving literacy instruction at the middle and high school levels driven by externally mandated reforms and accountability measures. A central concern is the degree to which this new interest takes into account adolescents' personal, social, and cultural experiences in relation to

literacy learning. In this new edition of *Reconceptualizing the Literacies in Adolescents' Lives* students' voices and perspectives are featured front and center in every chapter. Particular attention is given throughout to multiple literacies-- especially how information and new communication technologies are changing learning from and with text. Nine of the 15 chapters are

new; all other chapters are thoroughly updated. The volume is structured around four main themes:
 * *Situating Adolescents' Literacies*--addressing how young people use favorite texts to perform their identities; how they counter school-based constructions of incompetence; and how they re/construct their literate identities in relation to certain kinds of gendered expectations, pedagogies, and cultural

resources; *	and are	instruction.

 —Roland S. Barth, Author, Lessons Learned "The book speaks to many audiences, including instructional coaches, PLC leaders, action researchers and group leaders, and university professors working with action researchers and PLCs."
 —Gail Ritchie, Coleader, Teacher Researcher Network Fairfax County

Public Schools, VA "A terrific resource for connecting teacher networks and action research to create powerful professional development opportunities. This book is a joy to read."

 Professional learning

communities (PLCs) and action research are popular and proven frameworks for professional development. While both can greatly improve teaching and learning, few resources have combined the two practices into one coherent approach. The Reflective Educator's Guide to Professional Development provides educators with strategies, activities, and tools to

develop inquiry-oriented PLCs. Nationally known school reform experts Nancy Fichtman Dana and Diane Yendol-Hoppey cover the ten essential elements of a healthy PLC, provide case studies of actual inquiry-based PLCs, and present lessons learned to help good coaches become great coaches. With this step-by-step guide, readers will be able to: Organize, assess, and

maintain high-functioning, inquiry-oriented PLCs Facilitate the development of study questions Establish the trust and collective commitment necessary for successful action research Enable PLC members to develop, analyze, and share research results Lead successful renewal and reform efforts By combining two powerful training practices, coaches, workshop

leaders, and staff developers can ensure continuous, robust school-based professional development.

Lies My Teacher Told Me John Wiley & Sons
Michael Bonner knew he wanted to be a teacher after his favorite college professor, Dr. Poulson, inspired him. The professor's passion and love for teaching prompted Michael to change his major and his life's direction. But nothing prepared Michael for the reality of a Title One school. Teaching is fun until a 7-year-old is assaulting you or you're dodging furniture being thrown at you. When

you mix the craziness of a classroom with a marriage that was about to implode, anyone might want to quit. Smiling on the outside while feeling dead on the inside took this dedicated teacher to the breaking point. Michael knew he must change what was inside him, in his approach to life, or nothing would change anywhere else. So Michael took matters into his own hands to make four key paradigm

shifts that helped him create a world of successful learning for his students and love within both the classroom and beyond. The result has been a transformation that's taken Michael far beyond the classroom as he inspires thousands across the country. Many agree teaching is an amazing profession but there's little discussion why so many teachers are leaving the profession. Get Up or Give

Up: How I Almost Gave Up on Teaching shines a light into the internal battles and decisions educators face daily, and how we must make a conscious decision either to give in—or push through. Touchstone Level 4 Workbook A Cambridge University Press Connect, Second Edition, is a fun, four-level, multi-skills American English course especially written and designed for

young adolescents. The comprehensive, interleaved Teacher's Edition 4 provides step-by-step instructions to present, practice, and review all new language for Student's Book 4. It also features the audio scripts, optional exercises, and informative notes.

Digital and Media Literacy

Simon and Schuster
In this thought-provoking book, Frank Smith explains how schools and educational authorities systematically obstruct the powerful inherent learning abilities of children,

creating handicaps that often persist through life. The author eloquently contrasts a false and fabricated "official theory" that learning is work (used to justify the external control of teachers and students through excessive regulation and massive testing) with a correct but officially suppressed "classic view" that learning is a social process that can occur

naturally and continually through collaborative activities. This book will be crucial reading in a time when national authorities continue to blame teachers and students for alleged failures in education. It will help educators and parents to combat sterile attitudes toward teaching and learning and prevent current practices from doing further harm.

To be successful, teachers of English in grades 6–12 need more than basic content knowledge and classroom management skills. They need a deep understanding of the goals and principles of teaching literature, writing, oral

discourse, and language in order to make sound instructional decisions. This engaging book explores the pedagogical foundations of the discipline and gives novice and future teachers specific guidance for creating effective, interesting learning experiences. The authors consider such questions as what makes a literary text worth studying, what students gain from literary analysis, how

to make writing meaningful, and how to weave listening and speaking into every class meeting. Professional learning and course use are facilitated by end-of-chapter reflection questions, text boxes, and appendices showcasing exemplary learning activities.
