Beyond the Chains of Illusion Simon and Schuster
 DIVDIVBestselling author Erich Fromm revisits Sigmund Freud’s work, ushering psychoanalysis into the modern age/divDIV In The Revision of Psychoanalysis, renowned psychoanalyst and social psychologist Erich Fromm applies his innovative, humanist approach to Freud’s often contradictory ideas. Fromm pays special attention to the fact that human beings’ main problem has been the way they are related to the outer world, to others, and to themselves. Human passions and their effects have to be explained differently than Freud did, and psychoanalysis must be revised to accommodate this—a fact Fromm explains in his typically brilliant way. The result is a comprehensive, updated look at psychoanalysis and humanistic thinking that is as relevant today as when it was first written./divDIV /divDIVThis ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author’s estate./div/div

Beyond the chains of illusion Rodopi

As Fromm points out, ours is “a life between having and being”—between mere having and healthy being, between destructiveness and creativity, between narcissism and productive self-understanding, between passivity and the joy of positive activity. The alternatives of having and being are basic orientations of our character and determine our behavior. The mostly unpublished and unknown texts featured in The Essential Fromm encapsulate Fromm’s views on the fulfilling life. To put down roots yet remain free is what the late Erich Fromm called the art of being. It is the secret of happiness.

May Man Prevail? Open Road Media

DIVDIVRenowned social psychologist Erich Fromm’s classic study of Freud’s most important—and controversial—ideas/divDIV Bestselling philosopher and psychoanalyst Erich Fromm contends that the principle behind Freud’s work—the wellspring from which psychoanalysis flows—boils down to one well-known belief: “And the truth shall set you free.” The healing power of truth is what Freud used to cure depression and anxiety, cutting through repression and rationalizations, and it provided the foundation for modern psychology./divDIV /divDIVFreud’s work, however, was not without its flaws. Though he pioneered many of the practices still in use today, Freud’s perspective was imperfect. In Greatness and Limitation of Freud’s Thought, Fromm deepens the understanding of Freud by highlighting not just his remarkable insights, but also his flaws, on topics ranging from dreams to sexuality. /divDIV /divDIVThis ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author’s estate./div/div

The Clinical Erich Fromm Continuum

An exploration of one of the most universal human obsessions charts the rise of longevity science from its alchemical beginnings to modern-day genetic interventions and enters the world of those whose lives are shaped by a belief in immortality.

To Have Or To Be? South End Press

National Book Award Finalist: “This man’s ideas may be the most influential, not to say controversial, of the second half of the twentieth century.”—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes’s still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. “Don’t be put off by the academic title of Julian Jaynes’s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor.”—The New York Times “When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis.”—John Updike, *The New Yorker* “He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior.”—*American Journal of Psychiatry*

For the Love of Life Bloomsbury Publishing

This is a book about freedom. Above all about the idea that there is often no greater obstacle to freedom than the assumption that it has already been attained. What prison, after all, could be more secure than that deemed to be “the world,” where boundaries of action and thought are assumed to define not the limits of the permissible, but the limits of the possible. In the past we have been prisoners of tyrants and dictators, and consequently have needed to win our freedom in very concrete, physical terms. We now need to free ourselves not from a slave ship or a concentration camp, but from many of the illusions fostered in our democratic society. “[A] wise and acute analysis of the way our minds are controlled, not in a totalitarian state, but in a ‘democratic’ one. Edwards also suggests how we can escape this control in a self-help book which, unlike other books of this genre, connects our inner world of alienation with the world outside.”—Howard Zinn “[A] treatise on what freedom truly means.... Burning All Illusions is an important philosophical and psychology text that should be on every political science curriculum reading list!”—Wisconsin Book Watch

Escape from Freedom Bloomsbury Publishing USA

Fromm examines the true paths--as opposed to false directions--that will lead us to self-knowledge and enlightenment and offers another way to self-

awareness and well-being, one based on psychoanalysis and self-awareness through meditation.

On Being Human Jason Aronson

Erich Fromm was a political activist, psychologist, psychoanalyst, philosopher, and one of the most important intellectuals of the twentieth century. Known for his theories of personality and political insight, Fromm dissected the sadomasochistic appeal of brutal dictators while also eloquently championing love—which, he insisted, was nothing if it did not involve joyful contact with others and humanity at large. Admired all over the world, Fromm continues to inspire with his message of universal brotherhood and quest for lasting peace. The first systematic study of Fromm’s influences and achievements, this biography revisits the thinker’s most important works, especially *Escape from Freedom* and *The Art of Loving*, which conveyed important and complex ideas to millions of readers. The volume recounts Fromm’s political activism as a founder and major funder of Amnesty International, the National Committee for a Sane Nuclear Policy, and other peace groups. Consulting rare archival materials across the globe, Lawrence J. Friedman reveals Fromm’s support for anti-Stalinist democratic movements in Central and Eastern Europe and his efforts to revitalize American democracy. For the first time, readers learn about Fromm’s direct contact with high officials in the American government on matters of war and peace while accessing a deeper understanding of his conceptual differences with Freud, his rapport with Neo-Freudians like Karen Horney and Harry Stack Sullivan, and his association with innovative artists, public intellectuals, and world leaders. Friedman elucidates Fromm’s key intellectual contributions, especially his innovative concept of social character, in which social institutions and practices shape the inner psyche, and he clarifies Fromm’s conception of love as an acquired skill. Taking full stock of the thinker’s historical and global accomplishments, Friedman portrays a man of immense authenticity and spirituality who made life in the twentieth century more humane than it might have been.

The Revision of Psychoanalysis Open Road Media

Mourning the loss of core illusions and coping with the impact of disillusionment are critical issues in psychotherapy. In this informative and readable book, Teitelbaum explores this therapeutic issue in depth from a developmental, theoretical, and clinical perspective and emphasizes its particular importance in the treatment of depressed and narcissistic patients.

Reign of Error Open Road Media

A study of Modernist utopias of the mind. This book examines the psychodynamic writings of Otto Gross, C G Jung, Wilhelm Reich and Erich Fromm. It argues, utopianism became increasingly important to the fundamental ambitions of all four thinkers, and places the 'utopian impulse' with the historical context of the early twentieth century.

Alchemists of Human Nature A&C Black

Publisher Description

The Lives of Erich Fromm Routledge

Fromm’s essential writings, some never before published, in a compact volume. Selections include: “Human Alienation,” “Origins of the Having Mode of Existence,” “To Have or to Be?,” and “Essentials of a Life Between Having and Being”.

Beyond the Chains of Illusion Bloomsbury Academic

First published in 1962 *Beyond the Chains of Illusion* is Fromm’s landmark book about Marx and Freud. Here he delivers original readings of these hugely influential thinkers and, in doing so, offers us new ways of understanding the individual and society. Perhaps even more revealing than these readings is the insight we get into Fromm’s own thought and the political and social contexts in which he formed his ideas. Including a foreword by Fromm’s Literary Executor, Rainer Funk, this is unique introduction to Marx and Freud and also to Fromm’s life and thought.

Politics in Theology Macmillan

This poignant philosophy about the human capacity for love in the face of tragedy from the New York Times–bestselling author is as relevant today as it was when it was first broadcast. Transcribed from a series of recorded conversations streamed over German public radio in 1970, the profound ideas and thoughts collected in this volume represent a lifetime of the renowned psychoanalyst and social philosopher’s explorations into human emotion and behavior throughout the twentieth century. Insightful and provocative, Erich Fromm meditates on the preoccupations that drive human action or inaction, interweaving related ideas from such profound thinkers as Sigmund Freud, Albert Camus, and Karl Marx. Here, Fromm recognizes the links between rising contemptuous boredom and overwhelming overabundance. He unravels the confusing mysteries of religious doctrines by examining the causes and motives behind our aggressive tendencies and revealing how dreams connect us all as a universal language. Fromm’s perspective offers a vivid portrait of our ever-evolving social history and the difficulty of experiencing personal growth in a world driven by “manufactured needs.” Despite all of modern life’s trials, *For the Love of Life* celebrates Fromm’s belief in the human spirit to rise above tragedy and trauma through the bonds of family, friendship, and the transcendent power of love. Includes a preface by Hans Jürgen Schultz.

The Dialectical Imagination Touchstone Books

The classic New York Times bestseller about the many forms of loss we experience throughout our lives, and the necessity of letting go. In *Necessary Losses*, Judith Viorst turns her considerable talents to a serious and far-reaching subject: how we grow and change through the losses that are a certain and necessary part of life. She argues persuasively that through the loss of our mothers’ protection, the loss of the impossible expectations we bring to relationships, the loss of our younger selves, and the loss of our loved ones through separation and death, we gain deeper perspective, true

maturity, and fuller wisdom about life. She has written a book that is both life-affirming and life-changing. Drawing on psychoanalysis, literature, and personal experience, *Necessary Losses* is a philosophy for understanding and accepting a universal human experience. "One of the most sensitive and comprehensive books about the human condition I have read in a long time." —Harold S. Kushner, author of *When Bad Things Happen to Good People* "Viorst has synthesized a vast amount of research into a very readable and generous whole." —The New York Times Book Review

Burning All Illusions John Wiley & Sons

In dieser intellektuellen Autobiographie beschreibt Erich Fromm eingangs, wie durch sein Erleben und die Folgen des Ersten Weltkriegs sein Interesse für jene, oft irrationalen Kräfte geweckt wurde, die unsere Gesellschaft durchdringen. In den Theorien von Sigmund Freud und Karl Marx fand Fromm Antworten, die er in seiner Sozialpsychologie zu einer Synthese verband. Am Ende steht Fromms Credo, sein analytisch-intensives Glaubensbekenntnis zum Humanismus, das noch heute so aktuell ist wie zur Zeit seiner Entstehung. „Ich glaube an die Vervollkommnungsfähigkeit des Menschen, aber ich bezweifle, dass der Mensch dieses Ziel erreicht, wenn er nicht bald erwacht.“ (Erich Fromm) „Jenseits der Illusionen“ nimmt eine Sonderstellung im Werk Erich Fromms ein. Nur hier gibt es einen autobiografischen Teil, und sein Credo am Ende des Buches erlaubt einen unvergleichlich tiefen Einblick in sein Denken und Fühlen. Wer ihn und seine Theorien kennenlernen und verstehen möchte, erfährt hier mehr als in jeder Biografie. Aus dem Inhalt: • Einige persönliche Vorbemerkungen • Der gemeinsame Boden der Theorien von Marx und Freud • Die Auffassung vom Menschen und seiner Natur • Die menschliche Evolution • Die menschliche Motivation • Das kranke Individuum und die kranke Gesellschaft • Der Begriff der seelischen Gesundheit • Individueller Charakter und Gesellschafts-Charakter • Das gesellschaftliche Unbewusste • Das weitere Schicksal der Theorien von Marx und Freud • Verwandte Ideen

Priceless Union Square & Co.

In publishing Marx's *Concept of Man* in 1961, Erich Fromm presented to the English-speaking world for the first time Karl Marx's then recently discovered Economic and Philosophical Manuscripts. Including the Manuscripts and many other philosophical writings by Marx as well as Fromm's own extended response, many of these writings have since become recognised as important works in their own right. Fromm stresses Marx's humanist philosophy and challenges both contemporary Western ignorance of Marx and Soviet corruptions of his work. Fromm's analysis of Marx's work and his dissemination of these neglected writings by Marx himself fundamentally altered the prevailing discourse about Marxism, revolutionising contemporary thought and providing a formative influence for the development of the New Left.

The Art of Loving Hill and Wang

Sadistic Aliens... ..Man is an endangered species. Is it the end of the world or the rebirth of a new one? In the year A.D. 3000, Earth is a dystopian

wasteland. The great cities stand crumbling as a brutal reminder of what we once were. When the Psychlos invaded, all the world's armies mustered little resistance against the advanced alien weapons. Now, the man animals serve one purpose. Do the Psychlos' bidding or face extinction. One man, Jonnie Goodboy Tyler, has a plan. They must learn about the Psychlos and their weapons. He needs the other humans to follow him. And that may not be enough. Can he outwit his Psychlo captor, Teri? The fate of the Galaxy lies on the Battlefield of Earth. Get it now. "Pulse-pounding mile-a-minute sci-fi action-adventure that does not stop. It is a masterpiece of popular adventure science fiction." —Brandon Sanderson "Battlefield Earth is like a 12-hour 'Indiana Jones' marathon. Non-stop and fast-paced. Every chapter has a big bang-up adventure." —Kevin J. Anderson (co-author of the *Dune Sagas*) "Over 1,000 pages of thrills, spills, vicious aliens and noble humans. I found Battlefield Earth un-put-downable." —Neil Gaiman
Karl Marx Harvard University Press

"Rainer Funk's edited book is immensely valuable because it presents Fromm's clinical ideas and clinical style through the voice of his supervisees, students, colleagues, and friends. Funk's book provides a timely and important addition to our understanding of Fromm. It fills a gap in the secondary literature by demonstrating the way in which Fromm was an especially skillful and talented clinician, in addition to being a writer of great renown. By offering first-hand accounts of their work with Fromm, the contributors help readers to grasp how the "clinical Erich Fromm" worked in his psychoanalytic practice and how he conceptualized clinical case material. In the process, Funk's book deepens our appreciation of Fromm as a thinker, clinician, and a human being. Most importantly, this book illustrates the wealth of Fromm's approach, and picks it up at the moment when psychoanalytic psychotherapy is confronting a challenge to its whole way of thinking and practicing. It reveals how Fromm's therapeutic approach, which emphasizes direct encounter with the patient and values the contextualization of experience, remains directly relevant for the changing culture of contemporary psychotherapy." "Roger Frie," Associate Professor, Simon Fraser University and Faculty, William Alanson White Institute

Marx's Concept of Man Open Road Media

DIVAn engulfing study of the turmoil and uncertainty that pervaded the early 1960s, when the world was preoccupied with the threat of a nuclear holocaust/divDIV/divDIV The early 1960s were a time of existential unease across the world. The constant threat of a nuclear bomb—and of mutually assured destruction—led to a palpable sense that nuclear holocaust could occur any day. It was in this Cold War environment that social psychologist Erich Fromm wrote *May Man Prevail?*/divDIV /divDIVBy analyzing the enemy stereotypes and mutual projections that were prevalent in the foreign policies of the Soviet Union and the United States, Fromm pointed to the anxieties on both sides and illustrates how paranoid thinking in the political realm can be extremely dangerous. With his excellent psychological analysis of the mindsets of the major players of the time, Fromm helped us overcome the Cold War's ideologies and fictions./divDIV /divDIVThis ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate./divDIV /divDIV/div
