Presents a clear and comprehensive introduction to the evolving discipline of global art studies This volume examines how art historians, critics, and artists revisit art from ancient times through to the early modern period as well as the ways in which contemporary objects are approached through the lens of global contact, exchange, networks, and trade routes. It assists students who actively seek to understand "global art history" and the discipline beyond the founding Western canons. The first section of *Art History in a Global Context: Methods, Themes and Approaches* explores how themes related to globalization are framing the creation, circulation, reception, and study of art today. The second section examines how curators, scholars, artists, and critics have challenged the Eurocentric canon through works of art, writings, exhibitions, biennials, large-scale conferences, and the formation of global networks. The third section is designed to help students look forward by exploring how art history in a global context is beginning to extend beyond the contemporary condition to understand the meaning, conditions, and impacts of exchange across borders and among artists in earlier periods. Presents a historiography of global art histories in academic, museological, and exhibition projects Written by a collection of authors from different linguistic, cultural, geographic, generational, and disciplinary

perspectives Aids students in understanding “global art history” and the discipline beyond the founding Western canons Provides a set of case studies to bring to life methodologies being employed in the field Features contributors from the program of the Getty Foundation and the College Art Association International Committee’s project Art History in a Global Context is an ideal choice for upper-level undergraduate and entry level graduate art students. "Like A Wrinkle in Time (Miranda's favorite book), When You Reach Me far surpasses the usual whodunit or sci-fi adventure to become an incandescent exploration of 'life, death, and the beauty of it all.'" —The Washington Post This Newbery Medal winner that has been called "smart and mesmerizing," (The New York Times) and "superb" (The Wall Street Journal) will appeal to readers of all types, especially those who are looking for a thought-provoking mystery with a mind-blowing twist. The notes tell her that she must write a letter—a true story, and that she can't share her mission with anyone. It would be easy to ignore the strange messages, except that whoever is leaving them has an uncanny ability to predict the future. If that is the case, then Miranda has a big problem—because the notes tell her that someone is going to die, and she might be too late to stop it. The Routledge Companion to Global Indigenous History presents exciting new innovations in the dynamic field of Indigenous global history while also outlining ethical, political, and practical research. Indigenous histories are not merely concerned with the past but have resonances for the politics of the present and future, ranging across vast geographical distances and deep time periods. The volume starts with an introduction that explores definitions of Indigenous peoples, followed by six thematic sections which each have a global spread: European uses of history and the positioning of Indigenous people as history's outsiders; their migrations and mobilities; colonial encounters; removals and diasporas; memory, identities, and narratives; deep histories and pathways towards future Indigenous histories that challenge the nature of the history discipline itself. This book illustrates the important role of Indigenous history and Indigenous knowledges for contemporary concerns, including climate change, spirituality and religious movements, gender negotiations, modernity and mobility, and the meaning of 'nation' and the 'global'. Reflecting the state of the art in Indigenous global history, the contributors suggest exciting new directions in the field, examine its many research challenges and show its resonances for a global politics of the present and future. This book is invaluable reading for students in both undergraduate and postgraduate Indigenous history courses.

Over the past two decades, the Chinese

conceptual artist, activist, and exile Ai Weiwei has created art that addresses complex and sensitive themes of political, ethical, and social urgency. His artworks, which call upon both Western and Chinese cultural traditions, are deeply engaged with the history of art, drawing particularly on conceptualism and minimalism. Informed by the readymade—central to the work of Marcel Duchamp and Andy Warhol—his work questions the status of the work of art itself, blurring the lines between art and non-art, invention and appropriation, structure and openness, even fiction and fact. From the start of his multifaceted career in the late 1970s, Ai has envisioned artistic practice as a deeply human, moral, and political endeavor. This volume—a hybrid between a scholarly study and an exhibition catalog—presents the artist's work in dialogue with theoretical texts by the Italian philosopher Giorgio Agamben and the German-Jewish philosopher Hannah Arendt alongside interpretive essays that illuminate the artist's work on human rights, his engagement with historical Chinese artifacts, and his critical consideration of the effects of globalization. The book includes a new essay on human rights by Ai Weiwei and an interview in which he discusses his artwork and activism. It also features installation photographs of the corresponding exhibition. By exploring Ai Weiwei's artistic practice in dialogue with philosophies, theories, and concepts that connect human life and political power, this publication offers new insights into one of the most important artists working today.

Introduction to Art Wendy Lamb Books
What is the effect of a nation? In this age of globalization, is it dead, dying, or only dormant? The essays in this groundbreaking volume use the arts in Mexico to move beyond the national and the global to look at the activity of a community continually re-creating itself within and beyond its own borders. Mexico is a particularly apt focus, partly because of the vitality of its culture, partly because of its changing political identity, and partly because of the impact of borders and borderlessness on its national character. The ten essays collected here look at a wide range of aesthetic productions -- especially literature and the visual arts -- that give context to how art and society interact. Steering a careful course between the nostalgia of nationalism and the insensitivity of globalism, these essays examine modernism and postmodernism in the Mexican setting. Individually, they explore the incorporation of historical

icons, of vanguardism, and of international influence. From Diego Rivera to Elena Garro, from the Tlateloco massacre to the Chiapas rebellion, from mass-market fiction to the film "Aliens," the contributors view the many sides of Mexican life as relevant to the creation of a constantly shifting national culture. Taken together, the essays look both backward and forward at the evolving effect of the Mexican nation.

Feminism's origins have often been framed around a limited cast of mostly white and educated foremothers, but the truth is that feminism has been and continues to be a global movement. For centuries, women from all walks of life have been mobilizing for gender justice. As the last decade has reminded even the most powerful women, there is nothing "post-feminist" about our world. And there is much to be learned from the passion and protests of the past. Historian Lucy Delap looks to the global past to give us a usable history of the movement against gender injustice—one that can help clarify questions of feminist strategy, priority and focus in the contemporary moment. Rooted in recent innovative histories, the book incorporates alternative starting points and new thinkers, challenging the presumed priority of European feminists and ranging across a global terrain of revolutions, religions, empires and anti-colonial struggles. In Feminisms, we find familiar stories—of suffrage, of solidarity,

of protest—yet there is no assumption that feminism looks the same in each place or time. Instead, Delap explores a central paradox: feminists have demanded inclusion but have persistently practiced their own exclusions. Some voices are heard and others are routinely muted. In amplifying the voices of figures at the grassroots level, Delap shows us how a rich relationship to the feminist past can help inform its future.

Thousands of years ago, Polynesian voyagers discovered and settled Nanumea atoll, a tiny cluster of coral islets in the middle of the Pacific Ocean. The community prospered, first evolving into a traditional culture finely tuned to the atolls limited environment and then weathering new changes imposed by missionaries, colonial officials, and Westernization itself. Now one of eight separate island communities comprising the modern Pacific nation of Tuvalu, Nanumea faces new challenges: rising sea levels, globalization, and massive social and economic changes. Using personal stories that evoke the difficulties and excitement of fieldwork, Keith and Anne Chambers draw on more than twenty-five years of ethnographic research in Nanumea to craft an engaging account of Nanumean culture and social organization. Readers will come to appreciate how the community's intense sharing obligations, service-oriented chieftainship, and a flexible system of extensive kinship reckoning define a lifestyle that differs fundamentally from modern Western society.

With a wealth of never-before-accessed materials--including unpublished letters and manuscripts; court, police, and psychiatric records; and new interviews--Heather Clark brings to life the brilliant daughter of Wellesley, Massachusetts who had poetic ambition from a very young age and was an accomplished, published writer of poems and stories even before she became a star English student at Smith College in the early 1950s.

Determined not to read Plath's work as if her every act, from childhood on, was a harbinger of her tragic fate, Clark evokes a culture in transition, in the shadow of the atom bomb and the Holocaust, as she explores Plath's world: her early relationships and determination not to become a conventional woman and wife; her conflicted ties to her well-meaning, widowed mother; her troubles at the hands of an unenlightened mental-health industry; her Cambridge years and thunderclap meeting with Ted Hughes, a marriage of true minds that would change the course of poetry in English; and much more. Clark's clear-eyed portraits of Hughes, his lover Assia Wevill, and other demonized players in the arena of Plath's suicide promotes a deeper understanding of her final days, with their outpouring of first-rate poems. Along with illuminating readings of the poems themselves, Clark's meticulous, compassionate research brings us closer than ever to the spirited woman and visionary artist who blazed a trail that still lights the way for women poets the world over.
