*Cambridge International AS and A Level Biology* BIOLOGY STUDENT WORKBOOKS  
This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.

**A Dictionary of Biology** Oxford University Press

Equip your students with the knowledge and skills to study for AQA A-level Psychology with clear, comprehensive

coverage, guidance on assessment objectives and updated practice questions that consolidate understanding, develop evaluative skills and ensure progression. This all-in-one textbook covers the Year 1 and Year 2 specifications. - Engage your students through extensive real-life contemporary research, including evaluation points at the end of each research section to develop their analytical skills. - Test knowledge and support exam preparation with updated practice questions, based on past assessments. - Ensure progression and encourage independent thinking with extension suggestions and activities. - Help your students understand the assessment objectives and develop their examination skills with assessment guidance throughout. - Ensure students learn and understand content for all the key topics with the clear, accessible style, written by Jean-Marc Lawton and Eleanor Willard. Please note: The following topics will not be included in the printed book but will be available to download online as part of your

purchase: addiction, cognition and development, eating behaviour. For the IB Diploma Crimson Publishing Fully revised and updated content matching the new Cambridge International Examinations Biology 9700 syllabus for first teaching in 2014 and first examination in 2016. The PDF ebook of the fourth edition of the AS and A Level Biology coursebook comprehensively covers all the knowledge and skills students need to acquire during this CIE course. Written by renowned and leading experts in Biology teaching, the ebook is easy to navigate with colour-coded sections and clear signposting throughout. Self assessment questions allow learners to track their progression through the course and exam-style questions at the end of every chapter provide opportunity for learners to prepare thoroughly for their examinations. Contemporary contexts and applications are discussed throughout enhancing the relevance and interest for learners.

*Aqa Chemistry as Level Student Book*  
Hodder Education

Written in a clear and accessible style, *Garden Practices and Their Science* guides gardeners in the practical arts of plant husbandry and in their understanding of its underpinning principles. The author, Professor Geoff Dixon, is an acknowledged and internationally respected horticulturist and microbiologist; he intertwines these arts and principles carefully, expertly leading readers from one to the other. Achieving the manipulation of plant life is described in eight full-colour, well-illustrated chapters covering the growing of potatoes, bulb onions, legumes, small-seeded vegetables, soft fruit, bulbs and herbaceous ornamentals in great detail. Environmental factors controlling the

successful husbandry of these crops is described in simple, non-technical language, increasing gardeners' enjoyment and competence. Gardeners are also informed of the tools and equipment they require and their safe use. Also provided are a series of simple, straightforward tests identifying the aerial and soil environments beneficial for plant growth using readily accessible domestic tools. Discussions of very straightforward techniques for vegetative propagation conclude this book. Each chapter ends with a list of the gardening knowledge that has been gained by readers. The structure of this book fulfils a longstanding need for descriptions of practical skills integrated with the corresponding biological reactions of plants. Emphasis is placed on gardeners' development of healthy soils, which encourage vigorous, active root systems capable of withstanding stresses—an aspect of gardening that rarely receives sufficient attention. Tailored for readers requiring clear and concise directions, this very practical book is an instruction manual directed at early-stage gardening learners. These include people of all ages and requirements such as new garden owners, allotment-holders, apprentices and students of basic levels in the Royal Horticultural Society's or City & Guilds qualifications, career changers, community gardeners and those needing applied biological knowledge for GCSE examinations.

**Garden Practices and Their Science**  
Macmillan International Higher Education Reinforce understanding of the two most popular options for A-level Paper 2: Topics in Sociology, including Families and Households, and Beliefs in Society. Packed full of clear topic summaries, knowledge check questions and sample

guidance and differentiated end-of-topic questions in this updated, all-in-one textbook for Years 1 and 2. Written for the AQA A-level Biology specification, this revised textbook will: - Provide support for all 12 required practicals with plenty of activities and data analysis guidance. - Develop understanding with engaging and contemporary examples to help you apply your knowledge, analyse data and evaluate findings. - Give detailed guidance on the mathematical skills needed with support throughout, examples of method and a dedicated 'Developing mathematical skills' chapter. - Offer regular opportunities to test understanding with 'Test yourself' questions, differentiated end-of-topic questions and 'Stretch and challenge' questions. - Support exam preparation with synoptic questions, revision tips and skills. - Develop understanding with free online access to 'Test yourself' answers, 'Practice' question answers and extended glossaries\*.

**AQA Psychology** Oxford University Press, USA

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources

provide focused review of all important concepts, tangibly strengthening assessment potential.

**Politics and Society in the UK and USA** Hodder Education

Why has the interlacing of gender issues and the family become a dominant strand of political discourse and policy development in the late twentieth century? Will the historical contradictions that have beset the relationship between the family and feminist aspirations continue through the new millennium? Is the 'new feminism' a resolution of these tensions or part of the 'anti-feminist backlash'? This study examines the continuing 'war over the family' in the USA and the UK in the context of major socio-economic and cultural changes that have fundamentally shifted the ground of traditional gender relations and redrawn the material and psychological conditions for family life in the next century.

**New 2015 A-Level Biology for AQA: Year 1 & AS Student Book with Online Edition** OUP Oxford

The AQA A Level Biology Revision Guide provides comprehensive, specification-matched content, packed with engaging revision and practice material to keep you focused. It also contains a wealth of exam-style questions to test your knowledge and skills to help you fully prepare for the exams.
