THE UNTOUCHABLES Tata
McGraw-Hill Education

Contributing to the
ongoing debates on
citizenship, this book
traces the Citizenship Act
of India, 1955 from its
inception, through the
various amendments in
1986, 2003, and 2005. It
includes detailed studies
of other significant laws
and judgments including
the Abducted Persons
(Recovery and
Rehabilitation) Act (1949),
and the Illegal Migrants
Determination by
Tribunals Act (1983) to
show how citizenship
unfolded among
differentially located
individuals, communities,
and groups. The book
argues that the
citizenship laws in India
show a steady movement
towards the affirmation of
citizenship's relationship
with blood-ties and

descent. The volume
identifies amendments in
the Citizenship Act as
transitions which are
framed by major historical
choices and decisions. It
examines the liminal
categories of citizenship
produced in the period
between the
commencement of the
Constitution and the
enactment of the
Citizenship Act, which
continue to make
citizenship fraught with
uncertainties and
exclusions. Through a
discussion of laws and
judgments, the work also
brings out the relationship
between citizenship and
migration in independent
India, in particular in the
wake of migration from
Bangladesh and distress
migration because of the
breakdown of rural
economies.

 A Social History of Indian Football covers the period 1850-2004. It considers soccer as a derivative sport, creatively and imaginatively adapted to suit modern Indian socio-cultural needs - designed to fulfil political imperatives and satisfy economic aspirations. The book is concerned with the appropriation, assimilation and subversion of sporting ideals in colonial and post-colonial India for nationalist needs. The book assesses the role of soccer in colonial Indian

life, to delineate the inter-relationship between those who patronised, promoted, played and viewed the game, to analyse the impact of the colonial context on the games evolution and development and shed light on the diverse nature of trusts with the sport across the country. Throughout this book, soccer is the lens that illuminates India's colonial and post-colonial encounter. This volume was previously published as a special issue of the journal Soccer and Society.

This book examines the development of the theory and practice of constitutionalism, defined as a political system in which the coercive power of the state is controlled through a pluralistic distribution of political power. It explores the main venues of constitutional practice in ancient Athens, Republican Rome, Renaissance Venice, the Dutch Republic, seventeenth-century England, and eighteenth-century America. From its beginning in Polybius' interpretation of the classical concept of mixed government, the author

traces the theory of constitutionalism through its late medieval appearance in the Conciliar Movement of church reform and in the Huguenot defense of minority rights. After noting its suppression with the emergence of the nation-state and the Bodinian doctrine of sovereignty, the author describes how constitutionalism was revived in the English conflict between king and Parliament in the early Stuart era, and how it has developed since then into the modern concept of constitutional democracy.

Roman law forms an important part of the intellectual background of many legal systems currently in force in continental Europe, Latin America and other parts of the world. This book traces the historical development of Roman law from the earliest period of Roman history up to and including Justinian's codification in the sixth century AD. It examines the nature of the sources of law, forms of legal procedure, the mechanisms by which legal judgments were put into effect, the development of legal science and the role of the jurists in shaping the law. The final chapter of the book outlines the history of Roman law during the Middle Ages and discusses the way in which Roman law furnished the basis of the civil law systems of continental Europe. The book combines the perspectives of legal history with those of social, political and economic history. Special attention is given to the political development of the Roman society and to the historical events and socio-economic factors that influenced the growth and progress of the law. Designed to provide a

general introduction to the history of Roman law, this book will appeal to law students whose course of studies includes Roman law, legal history and comparative law. It will also prove of value to students and scholars interested in ancient history and classics.

as well as featuring prominently in the global political arena, NGOs are under fire for being 'unaccountable'. But who do NGOs actually represent? Who should they be accountable to and how? This book provides the first comprehensive examination of the issues and politics of NGO accountability across all sectors and internationally. It offers an assessment of the key technical tools available including legal accountability, certification and donor-based accountability regimes, and questions whether these are appropriate and viable options or attempts to 'roll-back' NGOs to a more one-dimensional function as organizers of national and global charity. Input and case studies are provided from NGOs such as ActionAid, and from every part of the globe including China, Indonesia and Uganda. In the spirit of moving towards greater accountability the book looks in detail at innovations that have developed from within NGOs and offers new approaches and flexible frameworks that enable accountability to become a reality for all parties

worldwide.

"What the Communist Manifesto is to the capitalist world, Annihilation of Caste is to India." —Anand Teltumbde, author of *The Persistence of Caste*

B.R. Ambedkar's *Annihilation of Caste* is one of the most important, yet neglected, works of political writing from India. Written in 1936, it is an audacious denunciation of Hinduism and its caste system. Ambedkar – a figure like W.E.B. Du Bois – offers a scholarly critique of Hindu scriptures, scriptures that sanction a rigidly
