Teaching Reading in the Content Areas Solution Tree Press

As the amount of curriculum in today's classrooms expands and teaching time seems to shrink, teachers are looking for ways to integrate content area and writing instruction. In this revised and expanded edition of *Writing Across the Curriculum*, Shelley Peterson shows teachers how to weave writing and content area instruction together in their classrooms. The author provides practical and helpful ideas for classroom teachers and content-area specialists to easily incorporate writer's workshop while teaching in their subject area. New features in this second edition include: * internet websites that can be used to teach writing (e.g., wiki's, weblogs, and digital storytelling) * examples from grades 4-8 classrooms that show how science, social studies, health, and mathematics teachers can also be teachers of poetry, narrative, and non-narrative writing * new assessment scoring guides * information on working with struggling writers and supporting English Language Learners * graphic organizers, templates, and mini-lessons that engage students in learning

Teaching Writing in the Content Areas Routledge

Zemelman and Daniels offer detailed guidance for all aspects of teaching and using writing.

Subjects Matter Rowman & Littlefield

Save 15% when you buy 15 copies with the Subjects Matter, Second Edition book study bundle. "To help every kid fall in love with at least one field of knowledge, our students must encounter our fields' most galvanizing, tantalizing, and pivotal documents. This book is about making those encounters as compelling as we can make them." -Harvey "Smokey" Daniels and Steven Zemelman We are specialists to the bone-in science, math, social studies, art, music, business, and foreign language. But now, the Common Core and state standards require us to help our students better understand the distinctive texts in our subject areas. "Nobody's making us into reading teachers," write Smokey Daniels and Steve Zemelman, "but we must become teachers of disciplinary thinking through our students' reading." If this shift sounds like a tough one, *Subjects Matter, Second Edition* is your solution. Smokey and Steve, two of America's most popular educators, share exactly what you need to help students read your nonfiction content closely and strategically: 27 proven teaching strategies that help meet-and exceed-the standards how-to suggestions for engaging kids with content through wide, real-world reading a lively look at using "boring" textbooks motivating instruction that's powered by student collaboration specifics for helping struggling readers succeed. *Subjects Matter, Second Edition* enables deep, thoughtful learning for your students, while keeping the irreverent, inspiring heart that's made the first edition indispensable. You'll discover fresh and re-energized lessons, completely updated research, and vibrant vignettes from new colleagues and old friends who have as much passion for their subjects as you do. "We'll be using methods particular to our fields as well as engaging reading materials that help students understand and remember our content better," write Smokey and Steve. "We can realize that vision of the light going on in kids' heads and maybe fill them with enthusiasm about the amazing subject matter that we have to offer. Sound good? Let's get to work." Read a sample chapter from *Subjects Matter, Second Edition*.

Mini-lessons for Literature Circles Corwin Press

With this book, the authors support content-area and language arts teachers alike by pairing more than 75 short, kid-tested reproducible nonfiction texts with 33 simple, ready-to-go lessons that deepen comprehension and support effective collaboration.--[book cover]

Write, Think, Learn Routledge

Today's teachers need to prepare students for a world that places increasingly higher literacy demands on its citizens. In this timely book, the authors explore content-area literacy and instruction in English, music, science, mathematics, social studies, visual arts, technology, and theatre. Each of the chapters has been written by teacher educators who are experts in their discipline. Their key recommendations reflect the aims and instructional frameworks unique to content-area learning. This resource focuses on how literacy specialists and content-area educators can combine their talents to teach all readers and writers in the middle and secondary school classroom. The text features vignettes from classroom practice with visuals to demonstrate, for example, how we read a painting or hear the discourse of a song.

Texts and Lessons for Content-Area Writing Corwin Press

Harvey Daniels' *Literature Circles* introduced tens of thousands of teachers to the power of student-led book discussions. Nancy Steineke's *Reading and Writing Together* showed how a teacher can nurture friendship and collaboration among young readers. Now, Daniels and Steineke team up to focus on one crucial element of the Literature Circle model; the short, teacher-directed lessons that begin, guide and follow-up every successful book club meeting. Mini-lessons are the secret to book clubs that click. Each of these forty-five short, focused, and practical lessons includes Nancy and Harvey's actual classroom language and is formatted to help busy teachers with point-by-point answers to the questions they most frequently ask. How can I: steer my students toward deeper comprehension? get kids interested in each others' ideas? make sure kids choose just-right books? help students schedule their reading and meeting time? deal with kids who don't do the reading? get kids to pay more attention to literary style and structure? help special education and ELL students to participate actively in book clubs? get kids to expand their repertoire of reading strategies? make sure groups are on-task when I'm not looking over their shoulder? introduce writing tools (including role sheets) that support student

discussion'. help shy or dominating members get the right amount of "airtime?" give grades for book clubs without ruining the fun? use scientific research to justify the classroom time I spend on literature circles? Each mini-lesson spells out everything from the time and materials needed to word-by-word instructions for students. The authors even warn "what could go wrong," helping teachers to avoid predictable management problems. With abundant student examples, reproducible forms, photographs of kids in action, and recommended reading lists, *Mini-lessons for Literature Circles* helps you deepen student book discussions, create lifelong readers, and build a respectful classroom community.

Literacy for Learning Portage & Main Press

Literacy for Learning: A Handbook of Teaching Strategies for Middle and High School Teachers is a collection of proven, effective teaching strategies to promote content area literacy and help teachers incorporate literacy learning as a means of improving learning in all subject areas. The book presents a concise overview of content area literacy research and a rationale for teachers in all subject areas. Those who teach, or are about to teach, middle and high school students, will find a variety of engaging strategies for improving student comprehension and retention of content material. Numerous examples of how the strategies can be used across the curriculum are included. 122 strategies in all are included, plus tips and suggestions for their use. This valuable, handy, and easy-to-use resource contains strategies for teaching reading, writing, and vocabulary. Each section contains numerous strategies for use across the curriculum. An additional section focuses on ways to incorporate technology and multi-media resources into teaching to promote learning. Each strategy presented includes learning objectives, Common Core State Standards connections, a concise overview, and simple, easy-to-follow instructions for implementing the strategies. Teachers can pick up this book and immediately begin using the strategies in their own classrooms. With the implementation of Common Core State Standards, it will become more important than ever for every teacher to be a literacy teacher. This book should find widespread acceptance as a handy tool to help all teachers achieve this goal.

Real Reading, Real Writing Rowman & Littlefield

Recognizing that the themes of American education have changed dramatically, Steven Zemelman, Harvey Daniels, and Arthur Hyde reconvened, and their new edition provides fresh, inspiring examples of state-of-the-art teaching methods in action.

Discusses the premises that guide the teaching of reading in content areas, the vast array of reading strategies available, and how to use this information to impact all learners.

Content Area Literacy Strategies That Work Corwin Press

Lively, practical, and irreverent, *Subjects Matter* points the way to activities and materials that energize content and engage students across all subject areas.

Literacy for Learning Heinemann Educational Books

Why you need a writing revolution in your classroom and how to lead it *The Writing Revolution (TWR)* provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as *The Hochman Method*, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, *The Writing Revolution* can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities *The Writing Revolution* is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Differentiated Instructional Strategies for Writing in the Content Areas John Wiley & Sons

Nancy moves students through a series of lessons that refine their skills while deepening their interests in reading, writing, and listening to the opinions of others.

Coaching Writing in Content Areas Allyn & Bacon
