About the Author-----I am a former teacher and an experienced writer and presenter of Pub Quizzes. Over the years, my quizzes have evolved into a tried and tested winning formula. I have decided to share this formula with others, creating quality materials so you can focus on delivering an outstanding quiz.-----This book contains 10 complete weekly quizzes with literally EVERYTHING required, including Picture Rounds, Questions, Music Rounds and Survey Said Games. It is formatted in close to A4 size to allow photocopying or scanning, to distribute copies to your quizzers where required.Perfect for the budding or experienced Quizmasters alike. Not just a list of questions and answers, the skill of question selection and difficulty level has all been done for you.-----

-----Each quiz contains a picture round, 30 questions of increasing difficulty, an additional tie-breaker, if required, a bonus option to link to 10 music round questions on Spotify and a 'Family Fortunes' type Survey Said sheet for use during the break of your quiz. I've even provided the blank answer sheet for your quizzers to write on!! hope my knowledge and expertise can revitalise your quizzes, whether they are for a one off event, or regular use. If you are presenting a quiz I understand how meticulously researched, well phrased questions and answers can help the cause.The answers to the questions are purposely included directly below the corresponding question, as this makes things much easier when reading out the answers to your quiz.A typical example of the quiz structure contained in this book is below.-----

-----Picture Round: 10-12 questions in each, on most occasions the answers to these should be written on the blank 50 question answer sheet. Teams can compete this to get them settled as they arrive.-----Questions 10 - 20: Easier questions designed to give your teams some confidence and even raise some laughs.Questions 21 - 30: Medium difficulty questions, some of these may include a multiple choice element.-----Questions 31 - 40: Music Round: I have added a direct link to my Spotify playlist with 10 songs for each music round

and within your answer sheet, the name of the artist and song (I offer half a point for the artist and half a point for the name of the song.)-----

-----Questions 41 - 45: Harder questions which teams will find much more challenging.-----Questions 46 - 50: 'The Wipeout Round' or 'Double or Quits'. It is suggested that in this section, you inform teams that each question is worth 2 points, however if one question is answered incorrectly the team 'wipes-out' and scores no points for the round, questions can however be missed out with no penalty (just receiving no points for that particular question.)-----'Our Survey Said': A little like 'Family Fortunes' it's always a good idea to give these out if you have a break to keep customers busy. Alternatively you can use them as part of your quiz if your wish. We asked 100 people in the UK to name something in 5 different categories. For each of these categories, can you give the 5 most popular answers they came up with?

INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.” Hans Rosling, February 2017.

The emphasis on corporate universities has been a driving force in moving companies beyond a restricted approach to training, to a central vision for learning within the organization. However, there have been failures and many corporate universities have struggled to bring a business rigour to learning or to align their development with the key business and financial drivers of the organization. It is time for the Corporate University to demonstrate how business rigour, handled deftly and with strong and perceptive leadership, can revolutionize learning both inside and outside the organization. The Handbook of Corporate University Development is an important catalyst towards this process.It draws on experience from around the world, to provide anyone responsible for strategy and learning at senior levels in government, education and business with a picture of current best practice.

No experience in mindfulness is necessary to guide your students in these engaging activities. The powerful benefits of mindfulness strengthen children's ability to focus, regulate emotions, feel more compassion to themselves and to others and reframe negative thoughts.
