Organizational Behavior, Global Edition Koenemann
 This book is intended as a tribute to the baroque horses of Spain and Portugal. For centuries impressive Andalusian stallions have enchanted human beings and held them spellbound. They exude a beautiful compact elegance and a royal aura. Whether in harness, under the saddle or running wild and free - their magnificence is unique and infinite. These horses were considered an important status symbol and even used to be weighed in terms of gold. Their legacy is immortal and is passed down throughout the generations in the bloodlines of the Pura Raza Española.The horses of the Puro Sangre Lusitano from Portugal, with their unique character and noble appearance, are of the same origin as their Spanish relatives. At the beginning of the 18th century the Sun King João V. celebrated the heyday of equestrianism at his court in Lisbon. Lusitanos were much prized and sought after by all the European royal courts. They exude a very special charisma, are extremely impressive and truly magnificent.

Instruments and Markets Prentice Hall
 Hitt's engaging book will help managers understand the linkage between managing behavior effectively and the organisation's ability to formulate and implement its strategy. It emphasises the relationship between management effectiveness and company performance. A case study on Whole Foods is integrated throughout the chapters and covers all major organisational behavior topics. It also underscores how people are important assets to organisations, and how application of their knowledge and skills is necessary for organisations to accomplish their goals. Managers will gain the skills to make a strategic impact within their organisations.

Understanding and Managing Life at Work Dartmouth Publishing Company
 Since its first publication over twenty years ago, Images of Organization has become a classic in the canon of management literature. The book is based on a very simple premise—that all theories of organization and management are based on implicit images or metaphors that stretch our imagination in a way that can create powerful insights, but at the risk of distortion. Gareth Morgan provides a rich and comprehensive resource for exploring the complexity of modern organizations internationally, translating leading-edge theory into leading-edge practice.

An Applied Perspective John Wiley & Sons
 Organizational Behavior Prentice Hall
chevaux Ibériques Pearson Education India
 Fundamentals of Organizational Behavior: An Applied Perspective, Second Edition examines the behavior of people in organizations. Topics covered range from political maneuvering in organizations (office politics) to the stresses facing people in managerial and professional positions. A conceptual framework for organizational behavior is presented, along with numerous case illustrations and examples from live organizational settings. This monograph consists of 14 chapters and opens with an introduction to organizational behavior and how it is influenced by principles of human behavior. The three main subareas or schools of management thought are discussed, together with the difference between knowledge work and non-knowledge work; how research and theory contribute to an understanding of organizational behavior; and the distinction between structure and process. The following chapters explore how the meaning of work relates to work motivation, as well as the link between work motivation and job performance; behavioral aspects of decision making; stresses in managerial and professional life; and political maneuvering in organizations. Small group behavior, leadership styles, and interpersonal communications are also considered, along with intergroup conflict and organizational effectiveness. This book will be of interest to students, managers, and staff specialists, as well as behavioral scientists and management theorists.

Fundamentals of Management South-Western Pub

The Core Tata McGraw-Hill Education
 Practical skills. Relevant theory. Purposeful application. Kinicki/Williams 8e, Management: A Practical Introduction empowers students to develop the management skills necessary in everyday life through the practical and relevant application of theory. Developed to help students read and learn management with a purpose, this new edition engage students through current examples, imaginative writing and resources that work. The eighth edition of Management: A Practical Introduction--a concepts book for the introductory course in management--uses a wealth of instructor feedback to identify which features from prior editions worked best and which should be improved and expanded. By blending Angelo Kinicki's scholarship, teaching, and management-consulting experience with Brian Williams' writing and publishing background, we have again created a research-based yet highly readable, practical, and motivational text.

UNDERSTANDING BUSINESS McGraw-Hill Education

This is a collection of articles exploring the issue of power in relation to organizations. It asserts that any attempt to understand the large literature on power must extend beyond the confines of organization and management theory. The argument underlying the volume is that broad exploration is essential because management studies of power have been for the most part, severely constrained, tending to view power from a functionalist perspective. In so doing issues of how power becomes embedded in existing organizational structures, cultures, practices, rules and regulations have been ignored.

Business Cengage Learning

M: Management by Bateman/Snell is the fastest growing Principles of Management textbook on the market. Bateman/Snell is written from the ground up to be brief, lean, and flexible enough to enable you to cover just the topics you want at the level of depth you want, while still maintaining the integrity of the content.
