Pop music surrounds us - in our cars,
over supermarket speakers, even when
we are laid out at the dentist - but how
often do we really hear what's playing?
Switched on Pop is the book based on
the eponymous podcast that has been
hailed by NPR, Rolling Stone, The
Guardian, and Entertainment Weekly for
its witty and accessible analysis of Top
40 hits. Through close studies of sixteen
modern classics, musicologist Nate Sloan
and songwriter Charlie Harding shift pop

from the background to the foreground,
illuminating the essential musical
concepts behind two decades of chart-
topping songs. In 1939, Aaron Copland
published *What to Listen for in Music*,
the bestseller that made classical music
approachable for generations of
listeners. Eighty years later, Nate and
Charlie update Copland's idea for a new
audience and repertoire: 21st century
pop, from Britney to Beyoncé, Outkast to
Kendrick Lamar. Despite the importance
of pop music in contemporary culture,
most discourse only revolves around
lyrics and celebrity. *Switched on Pop*
gives readers the tools they need to
interpret our modern soundtrack. Each
chapter investigates a different song and
artist, revealing musical insights such as
how a single melodic motif follows Taylor

Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to "shake it like a Polaroid picture," or Luis Fonsi and Daddy Yankee create harmonic ambiguity in "Despacito" that mirrors the patterns of global migration. Replete with engaging discussions and eye-catching illustrations, *Switched on Pop* brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-

opening in *Switched on Pop*.

 In Pop Music and Hip Ennui: A Sonic
 Fiction of Capitalist Realism, Macon Holt
 provides the imaginative and analytical
 resources to think with contemporary
 pop music to investigate the

ambivalences of contemporary culture and the potentials in it for change. Drawing on Kodwo Eshun's practice of Sonic Fiction and Mark Fisher's analytical framework of capitalist realism, Holt explores the multiplicities contained in contemporary pop from sensation to abstraction and from the personal to the political. Pop Music and Hip Ennui unravels the assumptions embedded in the cultural and critical analysis of popular music. In doing so, it provides new ways to understand the experience of listening to pop music and living in the sonic atmosphere it produces. This book neither excuses pop's oppressive tendencies nor dismisses the pleasures of its sensations.

Pop Music in America Hal Leonard Corporation

COLLECTION OF 30 OF THE BEST SONGS IN HISTORY TO PLAY WITH THE BATTERY.A4 size. 108 pages.
