What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his

sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments.

Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ...

A venerable tiger, old and toothless now, looks back over his life from cubhood and early days roaming wild in the Indian jungle. Trapped into a miserable circus career as 'Raja the magnificent', he is then sold into films (co-starring with a beefy Tarzan in a leopard skin) until, finding the human world too brutish and bewildering, he makes a dramatic bid for freedom. R.K. Narayan's story combines Hindu mysticism with ripe Malgudi comedy,

viewing human absurdities through the eyes of a wild animal and revealing how, quite unexpectedly, Raja finds sweet companionship and peace.

This unique book provides a comprehensive picture of the vivid kaleidoscope of traditional medicine in Asia presented by 34 eminent authors from 15 countries belonging to the different systems like Ayurveda and Chinese Traditional Medicine. Important emerging areas such as harmonization of the traditional systems with modern medicine and the growing role of these systems in the health care structure of countries are also dealt with. Legislation and regulation of these

systems and practitioners, an area of growing concern, the need for good preclinical toxicology studies and scientific clinical evaluation of the products and medicinal plants used for therapy are exhaustingly dealt with. The vital issue of protection of traditional systems of medicine and patenting of medicinal plants is discussed in detail. The book is replete with suggestions, and ideas aimed at making traditional systems more effectively, and more widely used for health care. The book also covers the prevailing situation regarding the use and other aspects of traditional medicine in the 10 Member countries of the South-East Asia Region of the

World Health Organization.

Sixteenth in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2019* measures aspects of regulation affecting 10 areas of everyday business activity: - Starting a business - Dealing with construction permits - Getting electricity - Registering property - Getting credit - Protecting minority investors - Paying taxes - Trading across borders - Enforcing contracts - Resolving insolvency
These areas are included in the distance to frontier score and ease of doing business ranking. *Doing*

Business also measures features of labor market regulation, which is not included in these two measures. This edition also presents the findings of the pilot indicator entitled 'Contracting with the Government,' which aims at benchmarking the efficiency, quality and transparency of public procurement systems worldwide. The report updates all indicators as of May 1, 2018, ranks economies on their overall 'ease of doing business', and analyzes reforms to business regulation -- identifying which economies are strengthening their business environment the most. *Doing Business* illustrates how reforms in business regulations are being used to

analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. Almost 140 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground.

In *Going to Extremes* writer, presenter and Oxford geography don Nick Middleton visits Oymyakon in Siberia, where the average winter temperature is -47 degrees and 40% of the population have lost their fingers to frostbite while changing the car wheel. Next he travels to Arica Chile where there have been fourteen consecutive years without a drop of rain and so fog is people's only source of water. Going from the driest to the wettest, he visits Mawsynram in India which annually competes for the title with its neighbour

Cherrapunji. However, Nick discovers even here, that during the dry season, there is water shortage and one entrepreneur has started selling it bottled. Finally his journey takes him to Dalol in Ethiopia known as the 'hell hole of creation' where the temperature remains at 94 degrees year round. Here Nick will join miners who work all day with no shade, limited water and no protective clothing. The book and series consider how and why people lives in these harsh environments. How does Nick's body react to these contrasting extremes? He looks at the geographical and meteorological conditions. He meets local characters and discovers the history of

these settlements to find out how they ever became populated. He looks at the way both the population, and the flora and fauna, have adapted physically to the climate, and also considers the psychological impact of living under such conditions.

Chan & Company "Why has the valley of Kashmir, famed for its beauty and tranquillity, become a major flashpoint, threatening the stability of a region of great strategic importance and challenging the integrity of the Indian state? This book examines the Kashmir conflict in its historical context, from the period when the valley was an independent

kingdom right up to the struggles of the present day. Located on the borders of China, Central Asia and the Sub-Continent, the insurgency in the valley has also created serious tensions between India and Pakistan. Drawing upon research in India and Pakistan, as well as historical sources, this book traces the origins of the state in the 19th century and the controversial "sale" by the British of the predominantly Muslim valley to a Hindu Maharaja in 1846. Through an exploration of the implications for Kashmir of independence in 1947, it gives a critical account of why, for Kashmir, self-determination may seem a more attractive option than affiliation

to a larger multi-racial whole."--Bloomsbury Publishing.

Though left uncompleted, "Kubla Khan" is one of the most famous examples of Romantic era poetry. In it, Samuel Coleridge provides a stunning and detailed example of the power of the poet's imagination through his whimsical description of Xanadu, the capital city of Kublai Khan's empire. Samuel Coleridge penned "Kubla Khan" after waking up from an opium-induced dream in which he

experienced and imagined the realities of the great Mongol ruler's capital city. Coleridge began writing what he remembered of his dream immediately upon waking from it, and intended to write two to three hundred lines. However, Coleridge was interrupted soon after and, his memory of the dream dimming, was ultimately unable to complete the poem. A stunning facsimile of the 1919 first edition of William Butler Yeats's *The Wild Swans at Coole*: an elegant volume showcasing these poems as they would have first been read and a complement to facsimile editions *The Winding Stair* and *The Tower*. Published in 1919 during W.B. Yeats's "middle stage" and composed of poems written during World War I, *The Wild Swans at Coole* is contemplative and elegiac. This collection captures Yeats at a time when he was looking back on his life, coming to terms with the realities of modern

war, reflecting on lost love, and defining his place in the world as a poet. It features forty poems, among them "The Fisherman," "In Memory of Major Robert Gregory," "The Wild Swans at Coole," and "On Being Asked for a War Poem." This facsimile of the original 1919 edition presents the reader with the work in its original form, with handsome old fashioned type, how readers and Yeats

himself would have seen it in the early twentieth century. A great gift book and collector's item, *The Wild Swans at Coole* also includes an Introduction and notes by esteemed Yeats scholar George Bornstein.
