Cambridge Grammar for CAE and Proficiency provides complete coverage of the grammar needed for both CAE and Proficiency with plenty of exam practice at the same time. Grammar is presented in a listening context giving students the

chance to hear it being used in realistic situations and making it easier to remember. It includes the full range of exam tasks from the Reading, Writing and Listening papers and shows how grammar knowledge is tested in each of these. Informed by the Cambridge Learner Corpus, grammar is presented in genuine contexts and the book covers the errors students really make.

A Self-Study Reference and Practice Book for Advanced Learners of English Cambridge University Press
Dear English students, teachers and interested party, this book you hold in your hand is very valuable to learn and teach English grammar with a system of clear definitions and in a logical way. I found out that in different grammar books and also different teachers from English schools are used different descriptions for the same meaning. When I was an English language student in Cambridge (UK), 2017, the English grammar was confused for me, because I'm a logical thinker and I will learn with a system, but I couldn't find a logical system to learn the English grammar. The most problem was that I found different descriptions for the same

meaning in different grammar books. As example in some grammar books is written Simple Past and in others Past Simple, but it is still the same. But also continuous and progressive is the same. Another difficult point was the English Tenses, because I couldn't find a table with all Tenses so I don't know how many they has. Also here was the problem that for the same Tense I found different descriptions. As example the Past continuous is the same as Past progressive. Another problem was that also different teachers used different descriptions for the same Tense. In some cases they described and explained the Past progressive and other teachers call them Past continuous although it is the same. Completely confused was that this Past progressive in some grammar book is called Past continuous too. This book offers you to learn grammar in a short time, because it is logical and it is a summary of different sources. Don't waste your time anymore to research in different books to find out what's the meaning, definitions and descriptions is. This book solving a lot of problems which students have and it is in a compact form. With this

book you save money and time. Sincerely
M.A. Jaun
