New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

Little Soldiers Simon and Schuster

This book describes the living-room artifacts, clothing styles, and intellectual proclivities of American classes from top to bottom.

Sometimes I Act Crazy Crossway

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein

Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Closing of the American Mind FEB Editor/CEI

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Monstrous Make-Up Manual Harper Collins

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Sexing the Body Basic Books

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Hit Man Simon and Schuster

New York Times Book Review Editor's Choice; Real Simple Best of the Month; Library Journal Editors' Pick In the spirit of *Battle Hymn of the Tiger Mother*, *Bringing up Bébé*, and *The Smartest Kids in the World*, a hard-hitting exploration of China's widely acclaimed yet insular education system that raises important questions for the future of American parenting and education When students in Shanghai rose to the top of international rankings in 2009, Americans feared that they were being "out-educated" by the rising super power. An American journalist of Chinese descent raising a young family in Shanghai, Lenora Chu

noticed how well-behaved Chinese children were compared to her boisterous toddler. How did the Chinese create their academic super-achievers? Would their little boy benefit from Chinese school? Chu and her husband decided to enroll three-year-old Rainer in China's state-run public school system. The results were positive—her son quickly settled down, became fluent in Mandarin, and enjoyed his friends—but she also began to notice troubling new behaviors. Wondering what was happening behind closed classroom doors, she embarked on an exploratory journey, interviewing Chinese parents, teachers, and education professors, and following students at all stages of their education. What she discovered is a military-like education system driven by high-stakes testing, with teachers posting rankings in public, using bribes to reward students who comply, and shaming to isolate those who do not. At the same time, she uncovered a years-long desire by government to alleviate its students' crushing academic burden and make education friendlier for all. The more she learns, the more she wonders: Are Chinese children—and her son—paying too high a price for their obedience and the promise of future academic prowess? Is there a way to appropriate the excellence of the system but dispense with the bad? What, if anything, could Westerners learn from China's education journey? Chu's eye-opening investigation challenges our assumptions and asks us to consider the true value and purpose of education.

Too Much and Never Enough John Wiley & Sons

The brilliant, controversial, bestselling critique of American culture that "hits with the approximate force and effect of electroshock therapy" (The New York Times)—now featuring a new afterword by Andrew Ferguson in a twenty-fifth anniversary edition. In 1987, eminent political philosopher Allan Bloom published *The Closing of the American Mind*, an appraisal of contemporary America that "hits with the approximate force and effect of electroshock therapy" (The New York Times) and has not only been vindicated, but has also become more urgent today. In clear, spirited prose, Bloom argues that the social and political crises of contemporary America are part of a larger intellectual crisis: the result of a dangerous narrowing of curiosity and exploration by the university elites. Now, in this twenty-fifth anniversary edition, acclaimed author and journalist Andrew Ferguson contributes a new essay that describes why Bloom's argument caused such a furor at publication and why our culture so deeply resists its truths today.

Character Makeup Impressions

The rivalry of Jane Jacobs and Robert Moses, a struggle for the soul of a city, is one of the most dramatic and consequential in modern American history. To a young Jane Jacobs, Greenwich Village, with its winding cobblestone streets and diverse makeup, was everything a city neighborhood should be. But consummate power broker Robert Moses, the father of many of New York's most monumental development projects, thought neighborhoods like Greenwich Village were badly in need of "urban renewal." Standing up against government plans for the city, Jacobs marshaled popular support and political power against Moses, whether to block traffic through her beloved Washington Square Park or to prevent the construction of the Lower Manhattan Expressway, an elevated superhighway that would have destroyed centuries-old streetscapes and displaced thousands of families. By confronting Moses and his vision, Jacobs forever changed the way Americans understood the city. Her story reminds us of the power we have as individuals to confront and defy reckless authority.

The Cultural Cold War بيلومانيا للنشر والتوزيع

The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women

have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of "the flawless beauty."

The Language Instinct Bloomsbury Publishing

After you have read *The Spirits' Book*, you will no longer have any reason to fear death. *The Spirits' Book* will provide you with the answers to nearly all the questions you may have with regards to the origin, nature and destiny of each and every soul on earth – and those of other worlds as well. It also addresses the issues of God, creation, moral laws and the nature of spirits and their relationships with humans. The book contains answers that were dictated to mediums by highly evolved spirits who love God. *The Spirits' Book* is the initial landmark publication of a Doctrine that has made a profound impact on the thought and view of life of a considerable portion of humankind since the first French edition was published in 1857.

Many feminists grapple with the problem of hyper-incarceration in the United States, and yet commentators on gender crime continue to assert that criminal law is not tough enough. This punitive impulse, prominent legal scholar Aya Gruber argues, is dangerous and counterproductive. In their quest to secure women's protection from domestic violence and rape, American feminists have become soldiers in the war on crime by emphasizing white female victimhood, expanding the power of police and prosecutors, touting the problem-solving power of incarceration, and diverting resources toward law enforcement and away from marginalized communities. Deploying vivid cases and unflinching analysis, *The Feminist War on Crime* documents the failure of the state to combat sexual and domestic violence through law and punishment. Zero-tolerance anti-violence law and policy tend to make women less safe and more fragile. Mandatory arrests, no-drop prosecutions, forced separation, and incarceration embroil poor women of color in a criminal justice system that is historically hostile to them. This carceral approach exacerbates social inequalities by diverting more power and resources toward a fundamentally flawed criminal justice system, further harming victims, perpetrators, and communities alike. In order to reverse this troubling course, Gruber contends that we must abandon the conventional feminist wisdom, fight violence against women without reinforcing the American prison state, and use criminalization as a technique of last—not first—resort.

My Secrets of Beauty Createspace Independent Publishing Platform

Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of

possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

Paper Towns Adobe Press

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

Out Of Control Kogan Page Publishers

Why does a lawful creature with an Intelligence score of 17 spend its time lurking alone in dungeons? Shouldn't it be out conquering the world? This sourcebook, the seventh in the Complete Guide series, looks at beholders with a critical eye. It expands the ranks of beholder variants, gives their culture depth, and describes the nefarious beholder cults that spring up among humanoid races. A guide for the d20 gaming system.

The New Evil Random House

Out of Control chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

The Origin of Consciousness in the Breakdown of the Bicameral Mind Farrar, Straus and Giroux

Are you a witless cretin with no reason to live? Would you like to know more about every piece of knowledge ever? Do you have cash? Then congratulations, because just in time for the death of the print industry as we know it comes the final book ever published, and the only one you will ever need: *The Onion's* compendium of all things known. Replete with an astonishing assemblage of facts, illustrations, maps, charts, threats, blood, and additional fees to edify even the most simple-minded book-buyer, *The Onion Book of Known Knowledge* is packed with valuable information -- such as the life stages of an Aunt; places to kill one's self in Utica, New York; and the dimensions of a female bucket, or "pail." With hundreds of entries for all 27 letters

of the alphabet, *The Onion Book of Known Knowledge* must be purchased immediately to avoid the sting of eternal ignorance.

The Poisonwood Bible Harper Collins

Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich "Beer-hall putsch" was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blue-print for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

The Monstrous Make-Up Manual Little, Brown

IQ tests are routinely encountered in recruitment for various industries, including for jobs in the government, armed forces, and education as well as industry and commerce. Competition is fierce and employers are determined to cut the weak from the strong so it is essential for candidates to be prepared. *Ultimate IQ Tests* is the biggest book of IQ practice tests available. Written and compiled by experts in IQ testing and brain puzzles, it contains 1000 practice questions organized into 25 tests, with a simple guide to assessing individual performance. With a brand new test in this edition, designed to be more challenging than the others so you can track progress, this is the best one-stop resource to mind puzzles. Working through the questions will help you to improve your vocabulary and develop powers of calculation and logical reasoning. From the best-selling *Ultimate* series, *Ultimate IQ Tests* is an invaluable resource if you have to take an IQ test, but it's also great fun if you like to stretch your mind for your own entertainment - and boost your brain power. About the *Ultimate* series... The *Ultimate* series contains practical advice on essential job search skills to give you the best chance of getting the job you want. Taking you from your job search to completing an interview, it includes guidance on CV or résumé and cover letter writing, practice questions for passing aptitude, psychometric and other employment tests, and reliable advice for interviewing.
