
Jurnal Ilmiah Komputer Dan Informatika Komputa

If you ally craving such a referred **Jurnal Ilmiah Komputer Dan Informatika Komputa** book that will give you worth, acquire the totally best seller from us currently from several preferred authors. If you desire to humorous books, lots of novels, tale, jokes, and more fictions collections are afterward launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all book collections Jurnal Ilmiah Komputer Dan Informatika Komputa that we will extremely offer. It is not regarding the costs. Its approximately what you compulsion currently. This Jurnal Ilmiah Komputer Dan Informatika Komputa, as one of the most operational sellers here will enormously be along with the best options to review.

JONATHAN WALLS

Proceedings of Seventh

book. Welcome to the 7th Indonesian Conference, focused on the theme of "SDGs Transformation through the Creative Economy: Encouraging Innovation and Sustainability." This edition aims to explore the intersection between the Sustainable Development Goals (SDGs) and the creative economy, emphasizing the importance of fostering innovation and sustainability. The conference provides a platform for academics, researchers, policymakers, industry professionals, and stakeholders to gather and exchange knowledge, ideas, and experiences regarding the transformative power of the creative

economy in achieving the SDGs. By examining the dynamic relationship between creativity, innovation, and sustainable development, this edition aims to generate valuable insights and practical solutions to address the pressing global challenges we face today. Throughout this conference, participants will have the opportunity to delve into various topics related to the creative economy and its potential to contribute to the SDGs. We will explore how creative industries can drive economic growth, promote social inclusivity, preserve cultural heritage, and protect the environment. Moreover, we will investigate innovative

approaches, best practices, and emerging trends that can enhance the creative economy's impact on sustainable development. By gathering experts and practitioners from diverse fields, we aim to foster interdisciplinary dialogue and collaboration, ultimately inspiring new ideas, strategies, and policies that can foster a more sustainable and inclusive future. Together, we can harness the power of the creative economy to propel transformative change, aligning our efforts with the global agenda of achieving the SDGs. We extend our heartfelt appreciation to all participants, sponsors, and

organizers for their commitment to advancing the discourse on the creative economy and sustainable development. Let us embark on this journey of exploration, innovation, and collaboration, as we work towards a better and more sustainable future for all.

Sistem Teknologi Informasi Kreatif

This book introduces and presents the newest up-to-date methods, approaches and technologies on how to detect child cyberbullying on social media as well as monitor kids E-learning, monitor games designed and social media activities for kids. On a daily basis, children are exposed to harmful content online. There

have been many attempts to resolve this issue by conducting methods based on rating and ranking as well as reviewing comments to show the relevancy of these videos to children; unfortunately, there still remains a lack of supervision on videos dedicated to kids. This book also introduces a new algorithm for content analysis against harmful information for kids. Furthermore, it establishes the goal to track useful information of kids and institutes detection of kid's textual aggression through methods of machine and deep learning and natural language processing for a safer space for children on social media and online and to combat

problems, such as lack of supervision, cyberbullying, kid's exposure to harmful content. This book is beneficial to postgraduate students and researchers' concerns on recent methods and approaches to kids' cybersecurity. *Digital Transformation, Strategic Resilience, Cyber Security and Risk Management* Zahira Media Publisher The 4th International Conference on Vocational Education and Technology is an international forum specially designed by the Faculty of Engineering and Vocational, Universitas Pendidikan Ganesha to bring together academics, researchers and professionals to present their ideas and

experiences in a scientific event. IConVET 2021 welcomes paper submissions for innovative work from researchers from diverse backgrounds including students, teachers, researchers, practitioners and the general public in Education, Vocational and Technology. The IConVET-2021 theme is "Digital Transformation on TVET in The New Normal Era". This 4th International Conference on Vocational and Technology is attended by participants from more than 29 different university and institute, who represent Two different countries, namely Indonesia and France. Therefore, on behalf of the committee and the Research Institute of

Universitas Pendidikan Ganesha. The success of the IConVET-2021 is due to the support of many people i.e. steering committee members, program committee members, organizing committee members, authors, presenters, participants, keynote speakers, student committee, and people in other various roles. We would like to thank them all.

This is an open access book. The 3rd Universitas Lampung International Conference on Social Sciences (ULICoSS) 2022 (ULICoSS) 2022 is an international conference organized by the Institute for Research and Community Services,

Universitas Lampung, Indonesia. The event took place on 6th - 7th September 2022 in Bandar Lampung City, on the Indonesian island of Sumatra. This event will adopt a hybrid working model, combining an in-person event with an online meeting via Zoom. Attendees and presenters are expected to interact in this way, using technology to connect to global networks. As has been widely stated in the literature, a number of reports and papers have examined the pandemic's negative effects, with the majority of work to date focusing on COVID-19's negative impact on psychological well-being. Thus, social adjustment is required for resilience in order

to adapt to and change in the face of adversity. In other words, it is clear that social adjustment, which includes the specific behaviors and abilities that people use to deal with daily problems and adapt to changing circumstances, is critical for global resilience today. As such, this international conference, which will feature five invited keynote speakers from the Czech Republic, Hungary, Indonesia, and Japan is intended to serve as a forum for the dissemination of specific alternative and significant breakthroughs in rapid social adjustments for global resilience, with an emphasis on global society, social welfare and development, and innovative communication, among

other topics. Therefore, we invite scholars, academics, researchers, experts, practitioners, and university students to participate and share perspectives, experiences, and research findings by submitting papers on a variety of topics relevant to the conference's theme and scope. All abstracts and papers submitted for consideration will undergo a double-blind peer review process to ensure their quality, relevance, and originality.

Conference on Advances in Computer Vision and Artificial Intelligence Technologies (ACVAIT 2022) is a biennial conference organized by Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (MS) India, during August 1-2, 2022. ACVAIT 2022, is dedicated towards advances in the theme areas of Computer Vision, Image Processing, Pattern Recognition, Artificial Intelligence, Machine Learning, Human Computer Interactions, Biomedical Image Processing, Geospatial Technology, Hyperspectral image processing and allied technologies but not limited to. ACVAIT

2022, invites young and/or advanced researchers contributing in the theme area of the conference and also provide them platform for discussing their scientific contributions / research findings with the domain experts, exchange ideas with them and foster closer collaboration between members from the top universities / Higher Education Institutes (HEI). ACVAIT 2022, inviting domain specific work from research scholars, academician, machine learning & AI scientist, industry experts to contribute their scientific contribution in the following areas but not limited to. • Shape representation • Biometrics: face matching, iris recognition, footprint

verification and many more. • Statistical, Structural and syntactic pattern recognition • Brain Computer Interface and Human Computer Interactions • Feature extraction and reduction • Biomedical Image Processing • Color and texture analysis • Speech analysis and understanding • Image segmentation • Speaker verification & Synthesis • Image compression, coding and encryption • Clustering and classification • Object recognition, scene understanding and video analytics • Machine learning algorithms • Image matching (pattern matching) • Extreme learning machine • Content based image retrieval and indexing •

Lanskap produktif
perkotaan
mengembangkan
lanskap perkotaan
dengan
mengoptimalkan fungsi
produktif tanaman
(terutama tanaman
yang dapat
dimakan/edible plant
dan memenuhi fungsi
kebutuhan hidup

manusia lainnya secara
ekologi, sosial, dan
ekonomi), dan layanan
ekosistem kota dengan
membentuk ruang
hijau sehingga kota
dapat menjadi tempat
tinggal yang nyaman,
sehat, dan indah.
Komponen biotik
ekosistem: manusia,
tanaman, dan satwa,
dapat menjadikan kota
sebagai habitat dalam
keselarasan
keanekaragaman
hayati (biodiversity)
dengan lingkungan
abiotiknya. Kajian
lanskap produktif
perkotaan dalam buku
ini mengaitkan kajian
penghijauan dan
pekarangan perkotaan,
konservasi,
perencanaan
lingkungan, dan
kapasitas masyarakat
untuk
mengembangkan
ekosistem kota menuju
kota ekologis.

Pembahasan objek lanskap, makna produktif, dan aspek-aspek perkotaan diulas serta dikaji mendalam dari berbagai perspektif, baik berdasarkan pengalaman dan bidang keahlian penulis. Mulai dari pemahaman awal, teori dan penelitian terkait, hubungan dan keterkaitan lanskap - ekosistem - ekologi, eksplorasi ide - konsep dan desain serta penyajian hasil penelitian. Buku ini merupakan kumpulan tulisan dari tim peneliti "Pengembangan Lanskap Produktif Perkotaan untuk Kota Yogyakarta" dari Universitas Gadjah Mada. Kota Yogyakarta sebagai kota pendidikan dan destinasi wisata utama di Indonesia sangat

relevan menjadi lokasi penelitian. Tim peneliti sendiri berasal dari beberapa latar pendidikan, yaitu Budidaya Pertanian (Lanskap, Hortikultura), Konservasi (Pariwisata Alam, Kehutanan), Arsitektur (Permukiman Ekologis), dan Sosial Ekonomi Pertanian (Penyuluhan dan Komunikasi Pertanian). Secara komprehensif, bacaan ini sangat menarik dan dapat menjadi tambahan pengetahuan berkualitas untuk semua kalangan dari berbagai bidang ilmu. European Alliance for Innovation

This book is the proceeding of the International Conference on Sustainable Engineering Development and Technological Innovation (ICSEDTI 2022) that was successfully held on 11-13 October 2022 using an hybrid

platform. The conference is themed “Sustainable empowerment of innovative solutions through the development of integrated scientific researches to enhance the advanced technological world”, which represents our belief of how the sustainability is essential in our approach to solve problems through technological innovation. A total of 56 papers were submitted and presented within the sessions of the conference. The papers’ topics revolve around Informatics Technology, Electrical Technology, Marine Technology, Manufacturing System and Technology, Mechanical

Engineering, And also Information Industry and Management. In addition to the technical paper presentations, there were also five keynote speeches featured, and eight plenary talks were delivered. Two of the keynote speeches were delivered in person by Professor Selo from Universitas Gajah Mada, Indonesia, and Professor Goib Wiranto from the National Research and Innovation Agency, Indonesia. The rest of the keynote speeches were delivered online by Professor Yvon Kermarrec from IMT Atlantique, France; Professor Ian Gibson from University of Twente, Netherlands; and Dr. Ilham Akbar Habibie from The Association of Indonesian Engineer,

Indonesia. It was a great pleasure to work with the technical program committee led by Mr. Hilfi Pardi, who have completed the imperative process of peer-review on the technical papers submitted in this conference. We are also very fortunate to have on our side the excellent organizing committee team of the Faculty of Engineering of UMRAH who work very hard to organize and support the conference. Finally, our appreciation to all the authors who have participated in this conference with their amazing achievements and enthusiasm. We firmly believe that ICSEDTI is a suitable platform for researchers, engineers, and developers who are concerned with

sustainability in engineering and technological development. We hope in the coming years ICSEDTI will be better in terms of the organization of the conference, the quantity and the quality of the researches submitted, and most importantly the impact on the sustainability of technological innovation.

Artificial Intelligence Application in Networks and Systems Penerbit NEM

This is an open access book. Wael B. Hallaq, a renowned sharia scholar, has called sharia an 'episteme' that suffered a 'structural death' following the dawn of modernity in the nineteenth and early twentieth centuries

(Hallaq 2009, 15–16). Yet, its resurgent is remarkable across a number of jurisdictional fault-lines: from Muslim-majority nations in Middle East and Southeast Asia to Muslim-minority societies in Western Europe and North America. Across these jurisdictions, the relationship between sharia and state law is central. It includes sharia-state encounters, notably in the form of (state) Islamic law, in the field of family law, which is often asserted as the ‘core’ or ‘last stronghold’ of sharia (Moors 2003, 2; Coulson 1969, 115–6), and other substantive areas of law, such as Islamic economics and Islamic philanthropy and also jinayah

(Islamic penal law). Regardless of their differences in their own specific context, these areas somehow manage to secure an importance place in the modern days. It involves different loci of authority to interpret, legislate, and enforce sharia, or parts of it that not only flourish but also being challenged around the Muslim world. Equally important are implications of the increasingly unsettled authority of apparently agreed-upon substance of sharia. To contribute on these issues, we would like to invite scholars from diverse discipline including law, anthropology, and Islamic studies, working in both Muslim-majority and Muslim-minority contexts, to present

their works in our International Seminar on Sharia, Law, and Muslim Society (ISSLaMS). *Kids Cybersecurity Using Computational Intelligence Techniques* Zahira Media Publisher This is an open access book. The International Conference on Educational Technology and Management (ICEMT) is held to bring together academics, researchers, teachers, educational entrepreneurs, practitioners, and policy makers. They are responsible for implementing educational technology by leveraging resources through education management to create and enable ecosystem capabilities and access to education. The

Covid-19 pandemic teaches that aspects of information and communication technology in education management are full of limitations. Inevitably, educational users have moved dramatically to online channels. Students and teachers are accustomed to learning from home. There are opportunities, as well as challenges. Although the pandemic isn't over yet, future updates are needed. Reinforcement of the Halal Industry for Global Integration Revival European Alliance for Innovation This book gathers selected high-quality research papers presented at the Seventh International Congress on Information and

Communication Technology, held at Brunel University, London, on February 21-24, 2022. It discusses emerging topics pertaining to information and communication technology (ICT) for managerial applications, e-governance, e-agriculture, e-education and computing technologies, the Internet of Things (IoT) and e-mining. Written by respected experts and researchers working on ICT, the book offers a valuable asset for young researchers involved in advanced studies. The work is presented in four volumes.

Buku ini juga akan memberikan informasi secara lengkap mengenai perangkat lunak yang dapat digunakan untuk mengorganisir sumber sitasi dan pustaka

dengan baik, selain itu pembaca juga diberikan kajian lengkap bagaimana cara menggunakan perangkat lunak dalam membuat sitasi dan daftar pustaka secara mudah.

Proceedings of the International Conference on Educational Management and Technology (ICEMT

2022) Penerbit Widina Buku ini berisi mengenai tutorial membuat prototipe prediksi ketinggian air (PKA) untuk pendeteksi banjir peringatan dini berbasis IoT. Prototipe ini berfungsi untuk mendeteksi ketinggian air pada saat datangnya banjir. Ketika sensor membaca ketinggian pada level awas banjir atau air mencapai ketinggian maksimum

akan adanya notifikasi melalui telegram. Selain adanya notifikasi kita dapat memonitoring ketinggian air melalui aplikasi berbasis android.. Pada buku ini dijelaskan juga komponen-komponen yang akan digunakan, software yang digunakan dan bahasa pemrograman yang digunakan. Kemudian sebelum merakit sebuah prototipe adanya penjelasan mengenai perakitan agar dapat mudah dipahami dan sebelum masuk ke proses memprogram adanya contoh memprogram yang paling dasar agar pembaca bisa lebih paham pada tahapan selanjutnya.

Proceedings of the First International Conference on Advances in Computer Vision and Artificial Intelligence Technologies (ACVAIT 2022) NIRWANA NUSANTARA
Buku ini terdiri atas sebelas bab yang memberikan panduan bagi siapa pun yang tertarik menjawab curiositasnya secara ilmiah. Pada beberapa bab diberikan subbab untuk proses penajaman curiositas pembaca. Media gambar yang informatif juga diberikan agar pembaca memiliki pemahaman yang mendalam atas aspek yang dibahas secara mudah. Bab pertama, kedua, dan ketiga memberikan penjelasan kepada pembaca mengenai

dokumen ilmiah, penulisan dokumen ilmiah, kategori penelitian teknologi informasi (TI), metodologi penelitian TI dengan pendekatan positivisme dan interpretatif, serta konsep penelitian secara utuh. Bab keempat, kelima, dan keenam membahas bagaimana merumuskan permasalahan yang baik dalam sebuah penelitian domain TI, berbagai metode penelitian TI, serta perbandingan beberapa metode penelitian. Bab ketujuh, kedelapan, dan kesembilan menjabarkan berbagai skala pengukuran yang dapat digunakan dalam kajian TI, klasifikasi dari teknik sampling, validitas dan reliabilitas instrumen,

proses akuisisi data pada penelitian TI, serta berbagai analisis statistik. Bab kesepuluh dan kesebelas membahas panduan mengenai berbagai teknik sitasi dan referensi dari berbagai sumber serta berbagai teknik penulisan publikasi ilmiah berkualitas sebagai sarana komunikasi antara peneliti dan dunia luar.

Springer Nature

Buku ini saya bagi menjadi empat bagian, pada bagian pertama saya membahas

mengenai pengantar dari publikasi ilmiah, apa itu SINTA?; bagian kedua membahas mengenai motivasi mengapa melakukan publikasi. Pada bagian selanjutnya, alasan apa yang mendorong untuk tidak publikasi. Dan pada bagian akhir, barulah saya membahas mengenai 9 jurus sakti tersebut. 9 Jurus Tersebut yaitu :

Jurus 1: Jurnal yang tepat
Jurus 2: Pilih ruang lingkup dan fokus jurnal
Jurus 3: Panduan penulisan
Jurus 4: Cek tingkat plagiarisme artikel ilmiah
Jurus 5: Daftar Pustaka yang terupdate
Jurus 6: Software Reference Manager
Jurus 7: Sitasi paper jurnal atau reviewer
Jurus 8: Kirim artikel
Jurus 9: Ikuti hasil review
