### Music Publishers' International ISMN Directory Penguin

REF This is a multi-title review. The titles include: 'Cyndi's List (880 pg)', 'Instant Information on the Internet (117 pg)', and 'Instant Information on the Internet (86 pg)' - Although Internet directories such as Howells's wildly popular site, ([www.cyndislist.com](http://www.cyndislist.com)), offer well-organized access to genealogy sites online, many researchers still want to plan searches with a book in hand. Now Howells (Netting Your Ancestors) has created a print version, with some exceptions, of her web site. Including over 100 categories and over 40,000 links (most with brief annotations), this book has something for nearly any genealogy-related topic that comes to mind. Schaefer's 'Instant Information' series offers pared-down compilations of basic information search sites. Her book on the United States categorizes web sites by state and includes vital records information sites, prominent research libraries and societies, indexes and databases, and general information sites. In the British Isles book, Schaefer discusses British counties and expands

her lists to include major sites for churches and the Celtic language as well as a place-name index. All three books provide easy access to useful genealogy sites. While Howells strives for exhaustive coverage of genealogy links, Schaefer offers very general site lists. Though Howells's book comes with a solid price tag, the purchase of each new (and planned) title in Schaefer's series would quickly rack up the same price or more. Still, for those who want only a brief, focused guide, Schaefer's books are an economical alternative. Elaine M. Kuhn, Allen Cty. P.L., Fort Wayne, IN-

Contrary to theories of single person authorship, America's Corporate Art argues that the corporate studio is the author of Hollywood motion pictures, both during the classical era of the studio system and beyond, when studios became players in global dramas staged by massive entertainment conglomerates. Hollywood movies are examples of a commodity that, until the digital age, was rare: a self-advertising artifact that markets the studio's brand in the very act of consumption. The book covers the history of corporate authorship through the antithetical visions of two of the most dominant Hollywood studios, Warner Bros. and MGM. During the classical era, these studios promoted their brands as competing social visions in strategically significant pictures such as MGM's *Singin' in the Rain* and Warner's *The Fountainhead*. Christensen follows the studios' divergent fates as MGM declined into a valuable and portable logo, while Warner Bros. employed *Batman*, *JFK*, and *You've Got Mail* to seal deals that made it the biggest entertainment corporation in the world. The book concludes with an analysis of the Disney-Pixar merger and the first two *Toy Story* movies in light of the recent judicial extension of constitutional rights of the corporate person.
