A DOCTOR IN the Dutch East Indies torn between his medical duty to help and his own mixed emotions; a middle-aged maidservant whose devotion to her master leads her to commit a terrible act; a hotel waiter whose love for an unapproachable aristocratic beauty culminates in an almost lyrical death and a prisoner-of-war longing to be home again in Russia. In these four stories, Stefan Zweig shows his

gift for the acute analysis of emotional dilemmas. His four tragic and moving cameos of the human condition are played out against cosmopolitan and colonial backgrounds in the first half of the twentieth century.

Shortlisted for the Saltire Society Non Fiction Book of the Year Award Almost every adult and child is familiar with his Treasure Island, but few know that Robert Louis Stevenson lived out his last years on an equally remote island, which was squabbled over by colonial powers much as Captain Flint's treasure was contested by the mongrel crew of the Hispaniola. In 1890 Stevenson settled in Upolu, an island in Samoa, after two years sailing round the South Pacific. He was given a Samoan name and became a fierce critic of the interference of Germany, Britain and the U.S.A. in Samoan affairs - a stance that earned him Oscar Wilde's sneers, and brought him into conflict with the Colonial Office, who regarded him as a menace and even threatened him with expulsion from the island. Joseph Farrell's pioneering

study of Stevenson's twilight years stands apart from previous biographies by giving as much weight to the Samoa and the Samoans - their culture, their manners, their history - as to the life and work of the man himself. For it is only by examining the full complexity of Samoa and the political situation it faced as the nineteenth century gave way to the twentieth, that Stevenson's lasting and generous contribution to its cause can be appreciated.

The Orient Under the Caliphs Routledge
Von Kremer sC ulturgeaehichte des Orients will be welcome to all English-knowing lovers of Islamic history and culture. Von Kremer still stands unsurpassed. He has had no competitors; he alone occupies the field. His researches patient, laborious, thorough have illumined every aspect of Muslim life. He is the most trustworthy interpreter of the social, political, economic, literary, and legal problems of Islam. The volume before us opens with an account of the death of the Prophet, and the trouble that arose over the question of succession. Paction fought faction. Heavy banks of cloud loomed up menacingly on the

political horizon of Arabia. The spirit of tribal faction theretofore checked and kept in restraint asserted itself; and, in its very infancy, Islam was threatened with division, disunion, ruin and disruption. Omar saw the danger, and felt the need of prompt and vigorous action. He did as a practical and sagacious statesman would do. He settled the question of succession at a stroke ;and with that the clouds rolled away, and the danger which had confronted Islam was at once averted. -- From <https://www.amazon.co.uk> (Sep. 21, 2016).

Material Culture and Cultural Identity: A Study of Greek and Roman Coins from Dora Springer

Using a multidisciplinary approach, this book describes the biochemical mechanisms associated with dysregulation of proteases and the resulting pathophysiological consequences. It highlights the role and regulation of different types of proteases as well as their synthetic and endogenous inhibitors. The role of proteases was initially thought to be limited to general metabolic digestion. However, we now know that the role of protein breakdown is much more complex, and proteases have multiple functions: they are coupled to turnover and can affect protein composition, function and synthesis. In addition to eliminating abnormal proteins, breakdown has many modulatory functions, including activating and inactivating enzymes, modulating membrane function, altering receptor channel properties, affecting transcription and cell cycles and forming active peptides. The ubiquity of proteases in nature makes them an important target

for drug development. This in-depth, comprehensive is a valuable resource for researchers involved in identifying new targets for drug development. With its multidisciplinary scope, it bridges the gap between fundamental and translational research in the biomedical and pharmaceutical industries, making it thought-provoking reading for scientists in the field.

Suicide: Phenomenology and Neurobiology Eye Books (US&CA)

This volume of al-Ṭabarī's History covers nearly a quarter of a century, and after covering the very brief caliphate of al-Hādī, concentrates on that of Hārūn al-Rashīd. During these years, the caliphate was in a state of balance with its external foes; the great enemy, Christian Byzantium, was regarded with respect by the Muslims, and the two great powers of the Near East treated each other essentially as equals, while the Caucasian

and Central Asian frontiers were held against pressure from the Turkish peoples of Inner Eurasia. The main stresses were internal, including Shī'ite risings on behalf of the excluded house of 'Alī, and revolts by the radical equalitarian Khārijites; but none of these was serious enough to affect the basic stability of the caliphate. Hārūn ar-Rashīd's caliphate has acquired in the West, under the influence of a misleading picture from the Arabian Nights, a glowing image as a golden age of Islamic culture and letters stemming from the Caliph's patronage of the exponents of these arts and sciences. In light of the picture of the Caliph which emerges from al-Ṭabarī's pages, however, this image seems to be distinctly exaggerated. Al-Rashīd himself does not exhibit any notable signs of administrative competence, military leadership or intellectual interests beyond those which convention demanded of a ruler. For much of his reign, he left the business of government to the capable viziers of the Barmakīd family--the account of whose spectacular fall from power forms one of the most dramatic features of al-Ṭabarī's narratives here--and his decision to divide the Islamic empire after

his death between his sons was to lead subsequently to a disastrous civil war. Nevertheless, al-Ṭabarī's story is full of interesting sidelights on the lives of those involved in the court circle of the time and on the motivations which impelled medieval Muslims to seek precarious careers there. A discounted price is available when purchasing the entire 39-volume History of al-Ṭabarī set. Contact SUNY Press for more information.
