College Writing Skills with Readings 10e highlights the importance of writing with a purpose by focusing on four bases of writing, unity, support, coherence, and sentence skills. The four bases provide students with clear guidance on how to organize their thoughts, structure their main idea into a thesis, provide supporting evidence to their claim, and revise and edit their work into a

well thought-out essay. College Writing Skills with Readings personalizes and grounds students' writing experience by placing all of its reading, writing, and essay examples within three key realms - personal, academic, and workplace (PAW) - to emphasize the importance of writing in every facet of life.

Now in its 10th edition, English Skills with Readings emphasizes

personalized learning to address student deficits in grammar and mechanics. Throughout the book, students are exposed to examples of writing that reflect the three key realms of their lives - personal, academic, and workplace. Seeing these different types of writing helps students understand the critical way in which writing will have an impact on the many facets of their lives. English Skills with Readings continues to encourage new writers to see writing as a skill that

can be learned and a process that must be explored. The four skills, or bases, for effective writing are as follows:

- Unity: Discover a clearly stated point, or topic sentence, and make sure that all other information in the paragraph or essay supports that point.
- Support: Support the points with specific evidence, and plenty of it.
- Coherence: Organize and connect supporting evidence so that paragraphs and essays transition smoothly from one bit of supporting

information to the next.

- Sentence skills: Revise and edit so that sentences are error-free for clearer and more effective communication. The four bases are essential to effective writing, whether it be a narrative paragraph, a cover letter for a job application, or an essay assignment. The new edition also includes a new and updated focus on information literacy, working with sources and writing research papers, making this a powerful and flexible text for students and instructors

alike.

Clear Thinking and Writing will do exactly what its title says--help students focus their thinking and improve their writing.

Students will learn that the most important things to do as a thinker and writer are to: 1) Make a clear point, and 2) Provide solid support for the point.

Too many writing books lose sight of the forest for the trees. Clear Thinking

and Writing presents in a nutshell what students need to do to become better thinkers and writers: make a point and then support it with appropriate, well-organized specific evidence. It gets to the heart of the matter and presents clear thinking and writing as skills that students can learn--
