Washington describes the political, religious, and social conditions of early-eighteenth-century Germany, and the musical and cultural influences that helped to shape Bach and his work. Particular attention is given to changing attitudes toward the composer over the last hundred years, reflected in the contrasting styles of performance illustrated on the three CDs, which juxtapose superb historic performances by Schweitzer, Lan-dowska, and Casals with fine modern versions in the authentic manner.
Singing Dragon Discoveries from the Fortepiano uncovers eighteenth-century performance practices and philosophical beliefs, enabling modern performers to craft an authentic, historically influenced style. Using a variety of primary sources and scholarly interpretations, noted keyboard pedagogue Donna Gunn offers a guide on Classical Era piano performance practice that is at once accurate to the scholarship and accessible to the performer. Gunn surveys and explains eighteenth-century music notational language, and from this develops tools that get at the heart of the otherwise enigmatic sound aesthetic of the era. Through over 100 music examples, Gunn provides specific answers to performance questions regarding period influences on the modern piano, including technique, dynamics, articulation, rhythm, ornamentation, and pedaling. A Companion Website houses recordings of three versions for each music example that demonstrate different interpretations and deliveries. Gunn encourages the reader to study the sources, listen carefully, and experiment with the past in the present. Remarkably researched and engagingly written, Discoveries from the Fortepiano is an indispensable aid to any pianist who seeks both an academically and artistically sound approach to performing in the Classical Era style.		<i>Discovering Classical Music: Bach</i> Alfred Publishing Company Excerpt from J. S. Bach, Vol. 2 Chorales with independent orchestral accompaniment are found in the cantatas of the first Leipzig period, but not in those belonging to the period of the Christmas Oratorio. There are so many other things in this work that remind us of the earlier ones, that if the date were not so thoroughly vouched for we should be tempted to believe it had been written ten years previously. This is a unique characteristic of Bach the years have no effect on the artist in him. At fifty he can write as youthful music as at twenty-five.
