Romeo and Juliet never had to worry about being skinned alive. Sydney Skeller's father is spitting bullets over her reluctance to join the family business as a shifter hunter. The last thing Daddy needs to know is why—she yearns for a lover who's man enough for a relationship but animal enough to give her the wild ride of her dreams. After a treadmill mishap lands her in a tangled heap with Jason Cannon, she wonders if she's finally found her beast, er, man. One session in bed and one bite later, she's sure. Now if only she can keep her father from mounting Jason's head on a wall...Jason is all man on the surface, but wolf shifter down to the bone. He's more than ready to stop "playing the pack" and find his one true mate, and Sydney of the luscious curves is the woman of his dreams. Finding out that she comes from a family sworn to eradicate his kind isn't a deal-breaker. But her outrageous plan for him to masquerade as the wolf in hunter's clothing, right under her father's very

nose, could be asking more than he ever expected to give. Warning: Readers, be aware of stranger side effects. These side effects may include but aren't limited to the following: biting strangers, asking furry strangers to bite you, purposely falling off treadmills to collide with handsome strangers, enjoying hot sex with wild strangers, and baying at the moon to meet other moon-influenced strangers. If you notice any of these side effects, contact the author immediately. You may be the heroine of her next book!

**Tasty Fall Cooking** Clarkson Potter  
This collection, which won the 2015 Costa Poetry Award, is an exhibition of the Dundee-born poet's stunningly accomplished adoption of the sonnet's ancient structure This collection from Don Paterson, his first since the Forward Prize-winning *Rain* in 2009, is a series of forty luminous sonnets. Some take a traditional form, while others experiment with the reader's conception of the sonnet, but they all share the lyrical intelligence and musical gift that has made Paterson one of our most celebrated poets.

Addressed to friends and enemies, the living and the dead, children, musicians, poets, and dogs, these poems are as ambitious in their scope and tonal range as in the breadth of their concerns. Here, voices call home from the blackout and the airlock, the storm cave and the *s*ance, the coal shed, the war, the highway, the forest, and the sea. These are voices frustrated by distance and darkness, which ring with the "sound that fades up from the hiss, / like a glass some random downdraught had set ringing, / now full of its only note, its lonely call." In 40 Sonnets, Paterson returns to some of his central themes—contradiction and strangeness, tension and transformation, the dream world, and the divided self—in some of the most powerful and formally assured poems of his career.

In *Rules for Reformers*, Douglas Wilson poaches the political craft of radical progressives and applies it to Christian efforts in the current culture war. The result is a spicy blend of combat manual and cultural manifesto. *Rules for Reformers* is a little bit proclamation of

grace, a little bit Art of War, and a little bit analysis of past embarrassments and current cowardice, all mixed together with a bunch of advanced knife-fighting

techniques. As motivating as it is provocative, Rules for Reformers is just plain good to read. Thanks to Saul Alinsky's Rules for Radicals: A Practical

Primer for Realistic Radicals--a book well-beloved by Barack Obama, Hillary Clinton, and many others--for much of the shrewd advice, and for none of the worldview.
