Management Accounting 2nd edition has been revised in response to changes in the global business environment. Unbridled access to information, intense competition and ongoing challenges in the corporate world have meant that cost accounting has become an increasingly important tool for managers and accountants alike. Most textbooks focus on content knowledge and then expect students to 'magically' demonstrate skills such as decision-making and critical thinking. As many students fail to recognise the assumptions, limitations, behavioural implications and qualitative factors that influence managerial decision-making, this text will better prepare students for professional success by bridging the gaps between knowledge, skills and abilities. The textbook is written in a style that is accessible to students and includes chapter scene setters, realistic illustrative examples, self-study problems and unique problem material structured to encourage students to think about accounting problems and problem-solving more complexly.

Managerial Accounting for Managers, 3rd edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution. Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 3e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting, along with access to an online version of Managerial Accounting for Managers 3e, so that students can easily refer back to the text for review and guidance.
