First Steps for Math Olympians: Using the American Mathematics Competitions Harvard University Press

CBS Radio commentator Charles Osgood shares his witty and wise observations on modern life, presenting more than one hundred essays on topics ranging from psychopaths and politicians to earthquakes, potholes, and credit cards.

Cities in Science Fiction and What We Might Learn from Them Guilford Publications

“Slow violence” from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

Imagining Urban Futures Island Press

John Wayne Cheever keeps his obsession with serial killers in check by a set of rigid rules that he lives by, hoping to the prevent himself from committing murder, but when a body turns up at a laundromat, must confront a danger outside himself.

See You on the Radio Idaho Geological Survey

In 1988, forest fires raged in Yellowstone National Park, destroying more than a million acres. As the nation watched the land around Old Faithful burn, a longstanding conflict over fire management reached a fever pitch. Should the U.S. Park and Forest Services suppress fires immediately or allow some to run their natural course? When should firefighters be sent to battle the flames and at what cost? In *Scorched Earth*, Barker, an environmental reporter who was on the ground and in the smoke during the 1988 fires, shows us that many of today's arguments over fire and the nature of public land began to take shape soon after the Civil War. As Barker explains, how the government responded to early fires in Yellowstone and to private investors in the region led ultimately to the protection of 600 million acres of public lands in the United States. Barker uses his considerable narrative talents to bring to life a fascinating, but often neglected, piece of American history. *Scorched Earth* lays a new foundation for examining current fire and environmental policies in America and the world. Our story begins when the West was yet to be won, with a colorful cast of characters: a civil war general and his soldiers, America's first investment banker, railroad men, naturalists, and fire-fighters-all of whom left their mark on Yellowstone. As the truth behind the creation of America's first national park is revealed, we discover the remarkable role the U.S. Army played in protecting Yellowstone and shaping public lands in the West. And we see the developing efforts of conservation's great figures as they struggled to preserve our heritage. With vivid descriptions of the famous fires that have raged in Yellowstone, the heroes who have tried to protect it, and the strategies that evolved as a result, Barker draws us into the very heart of a debate over our attempts to control nature and people. This entertaining and timely book challenges the traditional views both of those who arrogantly seek full control of nature and those who naively believe we can leave it unaltered. And it demonstrates how much of our broader environmental history was shaped in the lands of Yellowstone.

"Oh, Ranger!" A Book about the National Parks Scholastic Inc.

Hit and Run tells the improbable and often hilarious story of how two Hollywood film packagers went on a campaign to reinvent themselves as studio executives -- at Sony's expense. Veteran reporters Nancy Griffin and Kim Masters chronicle the rise of Jon Peters, a former hairdresser, seventh-grade dropout, and juvenile delinquent, and his soulless soul mate, Peter Guber -- and all the sex, drugs, and fistfights along the way. It is the story of the ultimate Hollywood con job and the standard by which every subsequent business blunder has been measured. *Hit and Run* delivers rock-solid business reporting liberally laced with inside gossip and outrageous scandal -- plus a new afterword bringing us up to date on the latest fallout from the Guber-Peters legacy.

Autobiography of a Yogi Walter de Gruyter

New York Times Bestseller | Pulitzer Prize Finalist "Ms. Russell is one in a million. . . . A suspensefully, deeply haunted book."--The New York Times Thirteen-year-old Ava Bigtree has lived her entire life at Swamplandia!, her family's island home and gator-wrestling theme park in the Florida Everglades. But when illness fells Ava's mother, the park's indomitable headliner, the family is plunged into chaos; her father withdraws, her sister falls in love with a spooky character known as the Dredgeman, and her brilliant big brother, Kiwi, defects to a rival park called The World of Darkness. As Ava sets out on a mission through the magical swamps to save them all, we are drawn into a lush and bravely imagined debut that takes us to the shimmering edge of reality.

How the Fires of Yellowstone Changed America John Wiley & Sons

Super Bowl champion and literacy crusader Malcolm Mitchell presents the story of a magician who reveals an awe-inspiring treasure from his bag of tricks -- books that make every kid's dream come true! This is not your typical afternoon at the library -- a magician invites kids to reach into his hat to pull out whatever they find when they dig down deep. Soon -- poof! -- each child comes away with something better than they could've imagined -- a book that helps them become whatever they want to be, and makes their dreams come true through pages and words, and the adventures that follow. But each child can't help but wonder, What's really making the magic happen? "Malcolm Mitchell is changing the world through the power of

reading." -- Dav Pilkey, bestselling creator of the Dog Man and Captain Underpants series "The Magician's Hat will cast its spell on you!" -- Jeff Kinney, bestselling author of the Diary of a Wimpy Kid series

Birds of Yellowstone National Park Springer Nature

Carl Abbott, who has taught urban studies and urban planning in five decades, brings together urban studies and literary studies to examine how fictional cities in work by authors as different as E. M. Forster, Isaac Asimov, Kim Stanley Robinson, and China Miéville might help us to envision an urban future that is viable and resilient. *Imagining Urban Futures* is a remarkable treatise on what is best and strongest in urban theory and practice today, as refracted and intensely imagined in science fiction. As the human population grows, we can envision an increasingly urban society. Shifting weather patterns, rising sea levels, reduced access to resources, and a host of other issues will radically impact urban environments, while technology holds out the dream of cities beyond Earth. Abbott delivers a compelling critical discussion of science fiction cities found in literary works, television programs, and films of many eras from Metropolis to Blade Runner and Soylent Green to The Hunger Games, among many others.

A Snapshot of Women of the U.S. Geological Survey in STEM and Related Careers St. Martin's Press

Part I of each volume will feature 5-7 major review chapters, including 2-3 long chapters reviewing topics of major concern to the American Jewish community written by top experts on each topic, review chapters on "National Affairs" and "Jewish Communal Affairs" and articles on the Jewish population of the United States and the World Jewish Population. Future major review chapters will include such topics as Jewish Education in America, American Jewish Philanthropy, Israel/Diaspora Relations, American Jewish Demography, American Jewish History, LGBT Issues in American Jewry, American Jews and National Elections, Orthodox Judaism in the US, Conservative Judaism in the US, Reform Judaism in the US, Jewish Involvement in the Labor Movement, Perspectives in American Jewish Sociology, Recent Trends in American Judaism, Impact of Feminism on American Jewish Life, American Jewish Museums, Anti-Semitism in America, and Inter-Religious Dialogue in America. Part II-V of each volume will continue the tradition of listing Jewish Federations, national Jewish organizations, Jewish periodicals, and obituaries. But to this list are added lists of Jewish Community Centers, Jewish Camps, Jewish Museums, Holocaust Museums, and Jewish honorees (both those honored through awards by Jewish organizations and by receiving honors, such as Presidential Medals of Freedom and Academy Awards, from the secular world). We expand the Year Book tradition of bringing academic research to the Jewish communal world by adding lists of academic journals, articles in academic journals on Jewish topics, Jewish websites, and books on American and Canadian Jews. Finally, we add a list of major events in the North American Jewish Community.

An inside look at a cable titan and his industry John Malone, hailed as one of the great unsung heroes of our age by some and reviled by others as a ruthless robber baron, is revealed as a bit of both in *Cable Cowboy*. For more than twenty-five years, Malone has dominated the cable television industry, shaping the world of entertainment and communications, first with his cable company TCI and later with Liberty Media. Written with Malone's unprecedented cooperation, the engaging narrative brings this controversial capitalist and businessman to life. *Cable Cowboy* is at once a penetrating portrait of Malone's complex persona, and an captivating history of the cable TV industry. Told in a lively style with exclusive details, the book shows how an unassuming copper strand started as a backwoods antenna service and became the digital nervous system of the U.S., an evolution that gave U.S. consumers the fastest route to the Internet. *Cable Cowboy* reveals the forces that propelled this pioneer to such great heights, and captures the immovable conviction and quicksilver mind that have defined John Malone throughout his career.

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Today's parents are constantly pressured to be perfect. But in striving to do everything right, we risk missing what children really need for lifelong emotional security. Now the simple, powerful "Circle of Security" parenting strategies that Kent Hoffman, Glen Cooper, and Bert Powell have taught thousands of families are available in self-help form for the first time. You will learn: How to balance nurturing and protectiveness with promoting your child's independence. What emotional needs a toddler or older child may be expressing through difficult behavior. How your own upbringing affects your parenting style--and what you can do about it. Filled with vivid stories and unique practical tools, this book puts the keys to healthy attachment within everyone's reach--self-understanding, flexibility, and the willingness to make and learn from mistakes. Self-assessment checklists can be downloaded and printed for ease of use.

The anchorwoman on the top-rated Spanish television magazine reveals details about the life and tragic death of the Latin music superstar, including information about her murderer. Reissue.

Then and Now The Story of Man in Yellowstone Plants and Their Environments Proceedings of the First Biennial Scientific Conference on the Greater Yellowstone Ecosystem : September 16-17, 1991, Mammoth Hot Springs Hotel, Yellowstone National Park, Wyoming Tectonic and Magmatic Evolution of the Snake River Plain Volcanic Province

It may not be out of place to explain how this book came to find its way into print. It was written for my little daughter, in the form of letters at various times, and not intended for publication, but many friends after reading them insisted that they should be published. One said: "You must not wait until you are dead before these letters are given to the world." As my desire is, by the grace of God, to live many years yet, I now present these letters to the reader, supplemented by others from old time friends who braved the perils and dangers of pioneer life; and as they are intended to be a part of the history of this great state, care has been taken to keep strictly to the truth. It is hoped that a line here and there will be appreciated by those who ride in palace cars as well as the old pioneers who came west in prairie schooners.

The Annual Record of the North American Jewish Communities Since 1899 National Academies Press

Across the United States, impacts of climate change are already evident. Heat waves have become more frequent and intense, cold extremes have become less frequent, and patterns of rainfall are likely changing. The proportion of precipitation that falls as rain rather than snow has increased across the western United States and Arctic sea ice has been reduced significantly. Sea level has been rising faster than at any time in recent history, threatening the natural and built environments on the coasts. Even if emissions of greenhouse gases were substantially reduced now, climate change and its resulting impacts would continue for some time to come. To date, decisions related to the management and protection of the nation's people, resources, and infrastructure have been based on records in the recent past, when climate was relatively stable. Adapting to the Impacts of Climate

Change, part of the congressionally requested America's Climate Choices suite of studies, calls for a new paradigm-one that considers a range of possible future climate conditions and impacts that may be well outside the realm of past experience. Adaptation requires actions from many decision makers in federal, state, tribal, and local governments; the private sector; non-governmental organizations; and community groups. However, current efforts are hampered by a lack of solid information about the benefits, costs, and effectiveness of various adaptation options; climate information on regional and local scales; and a lack of coordination. Adapting to the Impacts of Climate Change calls for a national adaptation strategy that provides needed technical and scientific resources, incentives to begin adaptation planning, guidance across jurisdictions, shared lessons learned, and support of scientific research to expand knowledge of impacts and adaptation.

The autobiography of Paramahansa Yogananda (1893 - 1952) details his search for a guru, during which he encountered many spiritual leaders and world-renowned scientists. When it was published in 1946 it was the first introduction of many westerners to yoga and meditation. The famous opera singer Amelita Galli-Curci said about the book: "Amazing, true stories of saints and masters of India, blended with priceless superphysical information--much needed to balance the Western material efficiency with Eastern spiritual efficiency--come from the vigorous pen of Paramhansa Yogananda, whose teachings my husband and myself have had the pleasure of studying for twenty years."
