This new edition of the leading text on business and government focuses on the insights economic reasoning can provide in analyzing regulatory and antitrust issues. Departing from the traditional emphasis on institutions, *Economics of Regulation and Antitrust* asks how economic theory and empirical analyses can illuminate the character of market operation and the role for government action and brings new developments in theory and empirical methodology to bear on these questions. The fourth edition has been substantially revised and updated throughout, with new material added and extended discussion of many topics. Part I, on antitrust, has been given a major revision to reflect advances in economic theory and recent antitrust cases, including the case against Microsoft and the Supreme Court's Kodak decision. Part II, on economic regulation, updates its treatment of the restructuring and deregulation of the telecommunications and electric power industries, and includes an analysis of what went wrong in the California energy market in 2000 and 2001. Part III, on social regulation, now includes increased discussion of risk-risk analysis and extensive changes to its discussion of environmental regulation. The many case studies included provide students not only pertinent insights for today but also the economic tools to analyze the implications of regulations and antitrust policies in the future. The book is suitable for use in a wide range of courses in business, law, and public policy, for undergraduates as well at the graduate level. The structure of the book allows instructors to combine the chapters in various ways according to their needs. Presentation of more advanced material is self-contained. Each chapter concludes with questions and problems.

One of the first books published to deal with the phenomenon of residential schools in Canada, *Resistance and Renewal* is a disturbing collection of Native perspectives on the Kamloops Indian Residential School (KIRS) in the British Columbia interior. Interviews with thirteen Natives, all former residents of KIRS, form the nucleus of the book, a frank depiction of school life, and a telling account of the system's oppressive environment which sought to stifle Native culture.

The steamy first book in The Pleasure Wars series by USA Today Bestselling Historical Romance Author Jess Michaels
Amid all the lies and scandals that fuel Society's gossip mill, one truth has stood out: House Rothcastle and House Windbury have always hated each other. Lady Ava Windbury prays the feud will someday end, to no avail. One dreadful night, her brother accidentally causes the death of Christian Rothcastle's sister, a tragedy that leaves both men maimed. Consumed by grief, Christian makes a grim decision. He will kidnap Lady Ava so that her family will feel the pain of loss as keenly as he feels the loss of his own sister. But once he has Ava in his clutches, desire takes unexpected hold. Even more

surprising, she willingly surrenders to his every sexual whim—after haggling over the terms of giving up her virginity. Too late, he realizes she is using her body for peace, not war. But just as their affair of revenge turns into an affair of the heart, the past rears its ugly head to take matters into its own hands... Length: Full Length Novel Heat Level: Naughty, naughty CW: Violent accident (on page), abuse (described) This book is the first book in The Pleasure Wars series.

This volume gives an excellent survey of our present knowledge of molecular processes in stellar and proto-stellar objects. It reviews molecular physics in stellar environments and is intended to bridge the gap between astrophysicists and chemists. The topics range from the theoretical to the computational and include observational data. Among the topics treated are questions of stellar evolution, the determination of physical properties and structures, and the chemical composition of stellar protospheres. Opacity is studied in the context of various types of stellar and proto-stellar objects.

Manual of Recommended Practice for Railway Engineering and Maintenance of Way Benjamin Cummings
Anita Lahey's second collection, *Spinning Side Kick*, is a hard-knuckled look at the other half. These lively poems mix a girl-

about-town cockiness with an all-too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes in a language that is slangy and quick, punctuated with jabs. She eyes those moments—in a day, in a life—when the normal clues we rely on disappear, shifting the line between domesticity and danger. In *Spinning Side Kick*, a talented poet returns with sharper aim.
