Modern criminal courts are characteristically the domain of lawyers, with trials conducted in an environment of formality and solemnity, where facts are found and legal rules are impartially applied to administer justice. Recent historical scholarship has shown that in England lawyers only began to appear in ordinary criminal trials during the eighteenth century, however, and earlier trials often took place in an atmosphere of noise and disorder, where the behaviour of the crowd - significant body language, meaningful looks, and audible comment - could influence decisively the decisions of jurors and judges. This collection of essays considers this transition from early scenes of popular participation to the much more orderly and professional legal

proceedings typical of the nineteenth century, and links this with another important shift, the mushroom growth of popular news and comment about trials and punishments which occurred from the later seventeenth century. It hypothesizes that the popular participation which had been a feature of courtroom proceedings before the mid-eighteenth century was not stifled by 'lawyerization', but rather partly relocated to the 'public sphere' of the press, partly because of some changes connected with the work of the lawyers. Ranging from the early 1700s to the mid-nineteenth century, and taking account of criminal justice proceedings in Scotland, as well as England, the essays consider whether pamphlets, newspapers, ballads and crime fiction provided material for critical perceptions of criminal justice proceedings, or alternatively helped to convey the official 'majesty' intended to legitimize the law. In so doing the volume opens up fascinating vistas upon the cultural history of Britain's legal system over the 'long eighteenth century'.

Not illustrated. 1903 edition. Excerpt: ...The Sheriff-Substitute should have dealt with the preliminary objections stated for the accused before calling on him to plead. In a criminal action it is not competent to reserve consideration of the relevancy. 3. Incompetent evidence was admitted. The decree for rent bore ex

facie that it was for rent six months past due. MACFARLANE for Respondent.-2. Section 14 of the Summary Procedure (Scotland) Act, 1864, was directory merely, and not peremptory. The course followed by the Sheriff was unusual, but could lead to no injustice. In particular, in the present case no valid objection was in fact stated. At advising--THE LORD JUSTICE-CLERK.---The question is, whether the statutory procedure prescribed in section 14 of the Summary Procedure (Scotland) Act, 1864, is imperative or not. I do not think that this Court should sanction the procedure followed in this case. The provisions in section 14 look like being imperative. They prescribe the order of the proceedings. A regular sequence is laid down. If no objections are stated to the competency or relevancy of the complaint, or having been stated, are repelled, the accused's plea shall then be recorded, and if the plea is not guilty, the prosecutor is to proceed to establish his complaint by evidence. In no criminal court has it ever been recognised that in dealing with a criminal charge a prisoner is to go to trial not knowing whether the judge holds the charge relevant or not. A judgment on the relevancy of the charge is an essential preliminary to going on with the trial by hearing evidence. It would be a most dangerous thing to sanction the view that a judge may at his discretion reserve questions of relevancy and proceed with the trial without dealing with objections stated to...

Published in 1999. Scottish criminal law and procedure are very different from their counterparts elsewhere in the United Kingdom. This book is the first socio-legal account of the Scottish criminal justice process and its constituent institutions. Its aims are: to explain the operation of the various elements which make up the 'system'; to summarise the considerable volume of relevant Scottish research; and to locate this knowledge within

contemporary theorising about criminal justice. To this end, the editors commissioned a team of experts to write chapters on the various stages of institutions of the Scottish criminal justice process. Given Scotland's broad social and cultural similarities to the rest of the United Kingdom, the book also provides a useful comparative perspective which should help to discourage the tendency towards overly ethnocentric theorising south of the border.

This collection of essays honours the work of Sir Gerald Gordon CBE QC LL.D (1929-). In modern times few, if any, individuals can have been as important to a single country's criminal law as Sir Gerald has been to the criminal law of Scotland. His monumental work *The Criminal Law of Scotland* (1967) is the foundation of modern Scottish criminal law and is recognised internationally as a major contribution to academic work on the subject. Elsewhere, he has made significant contributions as an academic, judge and as a member of the Scottish Criminal Cases Review Commission. Reflecting the academic rigour and practical application of Sir Gerald's work, this volume includes essays on criminal law theory, substantive law and evidence and procedure by practitioners and academics within and outside of Scotland, including contributions from England, Ireland and the USA.
