Read 9 reviews from the world's largest community for readers. How to enter established trends at low ... Technical Analysis Using Multiple Timeframes by Brian Shannon Written by Brian Shannon (@alphatrends on Twitter), Technical Analysis Using Multiple Timeframes is somewhat of a tactical handbook for any level of trader, regardless of strategy. Primarily focusing on practical tools, the strategies discussed in the book are able to be used in both shorter and longer term trading. Book Review: Technical Analysis Using Multiple Timeframes Overall, Brain nails the point that technical analysis allows a trader to view the market with some type of clarity (this may differ from one person to another - especially in multiple time frames). He says: "price is the only thing that pays". Very simple but true. Technical Analysis Using Multiple Timeframes This is a fantastic book that should be on any serious trader's shelf, as the topic of using multiple timeframes in technical analysis and trading decisions is kicked about in many other books and websites, but nowhere have I found it discussed in such a no-nonsense, cogent, straightforward, and practical way.
