**For the IB Diploma** OUP Oxford  
George Orwell was a much-respected English novelist, who wrote some of the finest pieces in literary criticism, fiction. Orwell's work is known for its simplicity and wit. He wrote with smartness on subjects such as anti-fascism, democratic socialism etc. His best works include *ANIMAL FARM*. It's an allegorical novella. It got published in August 1945. The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings, sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on *the nature of life on this earth* and *How any animal is now living*. The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book. *A Wise, Compassionate, and Illuminating Fable for our Times* THE NEW YORK TIMES *Orwell's Satire is Amply Broad, Cleverly Conceived, and Delightfully Written* SAN FRANCISCO CHRONICLE *Absolutely First-Rate... Comparable to Voltaire and Swift* THE NEW YORKER

This brand new textbook covers all of the core topics found on Introduction to Management modules, and the author's clear, accessible writing style guides students through the world of

management. The book also goes a step further to encourage students to develop a critical mindset and think about academic debates around the subject. Innovative Skillsets linked to each substantive chapter integrate practical skills with the topics. Skills such as time management, critical analysis, referencing, personal development planning and reviewing literature are included. Clear, step-by-step guidance helps students develop each skill, understand why it is important, and see how the topic is relevant to practical applications in the real world of business. A truly international range of case studies broadens students' horizons and encourages them to look beyond the standard examples from the UK and America. Emerging markets are becoming ever more important in the rapidly changing business environment, a fact reflected by the inclusion of case studies from the Middle East, Latin America and Africa. Key features

Designed to help boost students' academic grades and employability through the provision of integrated Skillsets, which link practical skills with topics in the textbook. These innovative features also clearly demonstrate the relevance of the theoretical material to the real world. A truly international range of case studies broadens students' horizons and encourages them to look beyond the standard set of UK and American examples. Emerging economies are given more attention with detailed analysis of case studies from the Middle East, Latin America and Africa. Case studies analyse service and manufacturing industries, not-for-profit organisations as well as public and private companies. Entrepreneurs, managers and leaders are also covered to provide students with management insights from key practitioners from a range of sectors. Critical reflection boxes encourage students to develop a critical mindset and consider the academic debates behind the theories. A range of online resources to give students more insight into management. Detailed podcast interviews with practitioners expand upon the features in the textbook, and a library of video links offers a variety of contemporary and stimulating material to engage students.

**Economics for the IB Diploma Paper 3 Workbook** OUP Oxford

The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed

easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core

resource invaluable to students and teachers alike. Janet Barrow, IB Economics Teacher, OSC Teacher, IB Examiner, author of IB Business Management and TOK teacher resources 20160615
