My research has revealed
that there are two
separate and opposing

powers in Freemasonry. One, headquartered in London, subscribes to and promotes an idolatrous and pantheistic view of the world. It is monarchist, capitalistic, wealthy, right-wing. The other, in Paris, is atheistic and humanistic in origin and outlook. It is republican, socialist, poor, left-wing. One is Scarlet. The other, the Beast. The breakthrough theory which I have developed with Scripture as my guide makes sense of the massive literature I have collected on Freemasonry

as well as its apparent contradictions. My library includes books written by members of and defectors from both English and French Freemasonry. At the beginning of my research, like many other revisionist authors, I thought revisionist authors were reporting one single plot. I gradually realized that many authors were exposing what in reality were often the machinations of one group of conspirators against the other. The devices of both wings of Masonry were so similar

that without Scripture as a guide, one could easily perceive only a single intrigue. This interesting twist in the historical drama, confirmed again and again by my research, points to the existence of a struggle between the two powers in Freemasonry. Although revisionist authors are supposedly concerned about one plot, I noticed that all exposes pointed to Paris as the center of an intrigue before World War I. After the War, however, evidence points to the shift of intrigue to

London. I will explain this shift in the course of this book.

The Established and the Outsiders Perennial Father Romano Zago, a Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of *Aloe Arborescens* and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells

how it was while administering to the poor in the shantytown of Rio Grande do Sul, Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching

the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why

each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the

300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases.

If the invention of literary modernism is usually attributed to James Joyce, T. S. Eliot, and Ezra Pound, it was Pound alone who provides (in Hugh Kenner's words) the synergetic presence" to convert individual experiment into an international movement. In 1926, Pound carefully sculpted his body of shorter poems into a definitive collection that would best show the concentration of force, the economy of means, and

the habit of analysis that were, to him, the hallmarks of the new style. This collection, where Pound presented himself in a variety of characters or "masks," was called *Personae* . In 1926, *Personae's* publication gave solidity to a movement; today the work stands as one of the classic texts of the twentieth century. Pound scholars Lea Baechler (of Columbia) and A. Walton Litz (Holmes Professor of English Literature at Princeton) have prepared a corrected text and

supplied an informative "Note on the Text" explaining both Pound's original criteria for his selection and the volume's subsequent history. "

The 2014 edition of Social Panorama of Latin America presents ECLAC measurements for the analysis of income poverty, taking, as well, a multidimensional approach to poverty. Applying these two approaches to data for the countries of the region

provides confirmation that despite the progress made over the past decade, structural poverty is still a feature of Latin American society. In order to contribute to a more comprehensive design of public policies aimed at overcoming poverty and socioeconomic inequality, this edition examines recent trends in social spending and sets out a deeper gap analysis focused on three areas: youth and development, gender inequality in the labour market and urban residential segregation.

Regan: I never really knew what misery was until the day I was kidnapped and sold for being in the wrong place at the wrong time. Two months later, I'm at a brothel in Rio when I meet Daniel Hays. He says he's here to save me, but can I trust him? I know it's wrong to fall in love with him, but I can't seem to help myself. Daniel: For the last eighteen months, one goal has dictated

In a hidden brothel in Rio, I find Regan Porter, bruised but not broken, and still sane despite her weeks in captivity. I should leave her behind or send her home, because the last thing either of us needs right now is to get involved.

Hassell Street Press This new edition of this classic text from one of the major figures of world sociology includes an introduction published in

English for the first time. In Norbert Elias's hands, a local community study of tense relations between an established group and outsiders becomes a microcosm that illuminates a wide range of sociological configurations including racial, ethnic, class and gender relations. The Established and the Outsiders examines the mechanisms of stigmatization, taboo and gossip, monopolization of power, collective fantasy and `we' and `they' images which support and

reinforce divisions in society. Developing aspects of Elias's thinking that relate his work to current sociological
