### The Art of Being Human New Internationalist

In THE ART OF BEING HUMAN, Father McNamara has taken a new, vital approach to effective socially oriented Christian living in tune with the needs and demands of our times. He takes for his theme the basic traditional truth: grace builds upon rather than destroys human nature, and develops this theme with extraordinary understanding and eloquence. The first chapter—"Becoming Human"—sets the tone of the book. For Father McNamara the sanctifying process is the humanizing process and the way by which one can cultivate "the art of being human" within oneself. He then probes into the very roots of the conditioning processes which daily shape our lives, and poses for the reader some incisive questions which demand reflection and inner search. Discussions on faith, hope, love, religion, mental prayer, and spiritual growth follow. The final chapters on leisure and leadership are especially provocative since they direct the reader's attention to where the responsibility for the self-accomplishment of this "art" truly lies. Father McNamara has the knack of putting his finger directly on the problems of today's living. THE ART OF BEING HUMAN does not pretend to have all the answers but it goes a long way toward taking the reader in the right direction. "Here is a book to read, to ponder and to act as its message challenges us to do."—Magnificat

William Etty was English painter, one of the few British artists to specialize almost exclusively in the nude. He spent most of his career in London. Etty's paintings are often of mythological or historical subjects, sometimes on an ambitious size, but he also made life studies throughout his career, and these are now probably his most admired works. He was often attacked for the alleged indecency of his work, The Times considering it 'entirely too luscious for the public eye'. However, by the time of his death he was wealthy and respected. He summed up his attitude to his favourite subject thus: 'Finding God's most glorious work to be Woman, that all human beauty had been concentrated in her, I dedicated myself to painting—not the Draper's or Milliner's work—but God's most glorious work, more finely than ever had been done.' His draughtsmanship is often criticized, but it is generally agreed that he attained a glowing voluptuousness in the painting of flesh that few British artists have ever approached.

He Speaks in the Silence is about Diane Comer's search for the kind of intimacy with God every woman longs for. It is a story of trying to be a good girl, of following the rules, of longing for a satisfaction that eludes us. Disappointed with all Diane had been told was supposed to fulfill her, she begged God in desperation to give her more. And He did. But first He took her through a trial so debilitating it almost destroyed what little faith she had. He let her go deaf. Using vivid parallels between her deafness and every woman's struggle to hear God, this book shows women not only how Diane, as a deaf woman, hears in everyday life, but also how she can learn to listen to God in the midst of her own loud life, finding intimacy with God and the deep soul satisfaction she longs for.

We all long for someone to offer us unconditional love and support. But what if that person is us? The practice of mindful self-compassion creates the space we need so that observation, acceptance, and real love can enter, no matter how judgmental or disconnected we may feel. It sounds like a simple idea: to be kind to yourself. But if you pay attention to your thoughts, habits, and self-talk, you may find that it's more difficult than it sounds. The intentional practice of self-compassion, outlined here by Buddhist scholar and teacher Bodhipaksa, can help you find greater overall wellbeing, emotional resilience, physical health, and willpower. Bodhipaksa provides both the why and the how of mindful self-compassion, drawing on contemporary psychology and neuroscience and also on Buddhist psychology, weaving the modern and ancient together into a coherent whole.

Contemporary psychologists are focusing less on self-esteem and more on self-compassion. Bodhipaksa, a practicing meditator of more than thirty years, effortlessly blends ancient techniques dating back to the time of the Buddha with the most recent understanding of psychology and neuroscience. And in the end, as Bodhipaksa writes, it is actually quite simple: "Life is short. Be kind."

An insightful look at alienation in the modern world from the New York Times–bestselling author of *The Art of Loving* and *Escape from Freedom*. Social psychologist Erich Fromm observed the spread of alienation in the 1960s, arguing that humans who were once dynamic, creative beings were reduced to fixating on TV screens, emotionally paralyzed by anxieties over threats like nuclear war. Though we may stare at different devices and worry about other dangers today, his insights are as useful as ever, and allow us to gain perspective on the human condition. A collection of his writings on "New Humanism" and the need to reclaim our happiness and peace of mind, this is a thoughtful, fascinating overview of the past that shaped us, and the philosophies and practices that can ensure a better future, both for ourselves and for the world at large. Included are reflections on thinkers from Karl Marx to medieval Catholic mystic Meister Eckhart, as "Fromm's large, keen mind and attractive, likable voice [strive] for heart as he asks himself the hardest questions of his day" (Kirkus Reviews). This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.

The once acrimonious debate on the existence of African philosophy has come of age, yet the need to cultivate a culture of belonging is more demanding now than ever before in many African societies. The gargantuan indelible energised chicanery waves of neo-colonialism and globalisation and their sweeping effect on Africa demand more concerted action and solutions than cul-de-sac discourses and magical realism. It is in view of this realisation that this book was born. This is a vital text for understanding contextual historical trends in the development of African philosophic ideas on the continent and how Africans could possibly navigate the turbulent catadromous waters, tangled webs and chasms of destruction, and chagrin of struggles that have engrossed Africa since the dawn of slavery and colonial projects on the continent. The book aims to generate more insights and influence national, continental, and global debates in the field of philosophy. It is accessible and handy to a wider range of readers, ranging from educators and students of African philosophy, anthropology, African studies, cultural studies, and all those concerned with the further development of African philosophy and thought systems on the African continent.

This book examines the writings of four ancient Greeks—Homer, Thucydides, Euripides, and Aristophanes. Each of these four individuals represents a different approach toward the human condition, ranging from the heroic and tragic to the comic and absurd. This book focuses on how the human condition can best be understood within the framework of these four perspectives by examining the major contributions of these Greek writers, whether in the form of epic (Homer's *Iliad*), history (Thucydides' *History of the Peloponnesian War*), or drama (the plays of Euripides and Aristophanes). These various perceptions of Greek thought illuminate our understanding of what it means to be fully human. By focusing on the concepts of the heroic, tragic, comic, and absurd, we can see how these ancient Greek authors still provide key insights for us today as they clarify those timeless features that define the human condition.

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for

this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

Learn the rules of life to conquer any challenge, manage unpredictable ups and downs, and become a satisfied and well-adjusted person. We all know the feeling: In the game of life, why am I the only one who doesn't know how to play? But now, help is at hand, because this wonderful little book will teach you the rules so that you can conquer life's challenges and manage its unpredictable ups and downs. For one of her workshops several years ago, Chérie Carter-Scott, a corporate trainer and consultant, composed a list of basic truths about life, which she named "The Ten Rules for Being Human." Right away, the Rules resonated with her clients, who photocopied and passed the list to friends and relatives. Within months, Chérie's Rules were in thousands of homes all over the country, and eventually, they were published in Chicken Soup for the Soul and have also appeared in Ann Landers' column. Although there's no formula to help you win the game of life, Chérie's Rules convey a universal wisdom that, once understood and embraced, can contribute to meaningful relationships with ourselves and others, at work and in the home. In *If Life Is a Game, These Are the Rules*, Chérie shares that there are no mistakes in life, only lessons that are repeated. In thoughtful, inspirational essays illustrated with encouraging personal anecdotes, she includes the lessons that can be learned from each of the Rules and offers insights on self-esteem, respect, acceptance, forgiveness, ethics, compassion, humility, gratitude, and courage. Best of all, Chérie shows that wisdom lies inside each one of us and that by putting the Ten Rules for Being Human into action we can create a more fulfilling life.
