**The Failure of Nonviolence**

Bloomsbury Publishing

Beginning back in the waning days of the Civil Rights movement, through the objection to the war in Vietnam, and on to the current global peace movement, this is a personal and professional account offered for the reader curious

about whether and how nonviolence works. Topics include Gandhian nonviolence, radical disarmament, war poverty and peace prosperity and movement-building.

**Towards a Non-violent Society** Orbis Books

The new millennium finds humanity situated at critical crossroads. While

there are many hopeful signs of cross-cultural engagement and democratic dialogue, it is equally the case that the challenges of warfare and injustice continue to plague nations and communities around the globe. Against this backdrop, there exists a powerful mechanism for transforming crises into opportunities: the philosophy and practice of nonviolence. The expert authors brought together in this volume collectively deploy the essential teachings of nonviolence across a spectrum of contemporary issues. From considering the principles of the French Revolution and encouraging peace through natural resource management to exploring multiculturalism and teaching peace in the elementary classroom, this work is broad in scope yet detailed in its

approach to the fundamental principles of nonviolence.

*The Force of Nonviolence* Harvard University Press

"Most approaches to violence or its opposite in Islam try to establish that the religion of the Prophet is one or the other, and thus get nowhere. Avoiding this trap, Abu-Nimer has given us a wide-ranging and thoroughly researched study that will be of interest to scholars and of use to peace builders."--Michael Nagler, University of California, Berkeley  
Written by a Muslim scholar, lecturer, and trainer in conflict resolution, this book examines the largely unexplored theme of nonviolence and peace building in Islamic religion, tradition, and culture. After comprehensively reviewing the existing studies on this topic, Abu-Nimer

presents solid evidence for the existence of principles and values in the Qur'an, Hadith, and Islamic tradition that support the application of nonviolence and peace building strategies in resolving disputes. He addresses the challenges that face the utilization of peace building and nonviolent strategies in an Islamic context and explores these challenges on both local and global levels. Through a discussion of the structural and cultural obstacles to peace building and nonviolence, the author explains the gap between Islamic values and ideals and their applications in day-to-day reality. To illustrate the actual practice of these values and principles of peace building, the book analyzes three case studies, drawing from the political, sociocultural, and professional arenas. The initial case

study discusses the First Palestinian Intifada; it is analyzed as a nonviolent political movement in which Islamic cultural and religious values and rituals played an important role in mobilizing communities to join the movement. The second case study focuses on the role that such values play in traditional Arab dispute-resolution practices such as Sulha (mediation, arbitration, and reconciliation); it extracts lessons and principles used by Arab traditional elders who peacefully resolve family, interpersonal, and community disputes. The third case study discusses the obstacles and challenges facing professionals who provide peace-building and conflict-resolution training and initiatives within the Islamic world. Combining theory with practical

applications of peace building, conflict resolution, and nonviolent initiatives in Islamic communities, Abu-Nimer provides a framework for further developing and utilizing these principles in an Islamic context. Mohammed Abu-Nimer is associate professor in the International Peace and Conflict Resolution Program at American University, Washington, D.C., where he is also director of the Conflict Resolution Skills Institute.

A mixture of theoretical analysis and case studies from Asia, Africa, Europe, Latin America and the Middle East, this book examines non-violent direct action, political action, economic sanctions and social movements as alternative

remedies in the struggle for justice. The authors thus address the basic questions that underlie current debates in international politics over the use of preventive diplomacy, humanitarian intervention and international enforcement action.

**NONVIOLENCE THEORY AND PRACTICE** Equinox Publishing (UK)

A persuasive account of the philosophy and power of nonviolence organizing, and a resource for building and sustaining effective social movements. Despite the rich history of nonviolent philosophy, many people today are unfamiliar with the basic principles and practices of nonviolence--even as these concepts have guided so many direct-action movements to overturn forms of racial apartheid, military and police

violence, and dictatorships around the world. Revolutionary Nonviolence is a crucial resource on the long history of nonviolent philosophy through the teachings of Rev. James M. Lawson Jr., one of the great practitioners of revolution through deliberate and sustained nonviolence. His ongoing work demonstrates how we can overcome violence and oppression through organized direct action, presenting a powerful roadmap for a new generation of activists. Rev. Lawson's work as a theologian, pastor, and social-change activist has inspired hope and liberation for more than sixty years. To hear and see him speak is to experience the power of the prophetic tradition in the African American and social gospel. In Revolutionary Nonviolence, Michael K.

Honey and Kent Wong reflect on Rev. Lawson's talks and dialogues, from his speeches at the Nashville sit-in movement in 1960 to his lectures in the current UCLA curriculum. This volume provides a comprehensive introduction to Rev. Lawson's teachings on how to center nonviolence in successfully organizing for change.

*Theory and Practice of Gandhian Non-violence* Columbia University Press  
 The use of nonviolent action is on the rise. From the Occupy Movement to the Arab Spring and mass protests on the streets of Brazil, activists across the world are increasingly using unarmed tactics to challenge oppressive, corrupt

and unjust systems. But what exactly do we mean by nonviolence? How is it deployed and to what effect? Do nonviolent campaigns with political motivations differ from those driven by primarily economic concerns? What are the limits and opportunities for activists engaging in nonviolent action today? Is the growing number of nonviolence protests indicative of a new type of twenty-first century struggle or is it simply a passing trend? Understanding Nonviolence: Contours and Contexts is the first book to offer a comprehensive introduction to nonviolence in theory and practice. Combining insightful analysis of key theoretical debates with fresh perspectives on contemporary and historical case studies, it explores the varied approaches, aims, and

trajectories of nonviolent campaigns from Gandhi to the present day. With cutting-edge contributions from leading scholars and practitioners in the field, this accessible and lively book will be essential reading for activists, students and teachers of contentious politics, international security, and peace and conflict studies.

**The Power of Nonviolence** UNM Press Contributions by leading peacemakers such as Lisa Sowle Cahill, Terrence J. Rynne, John Dear and Ken Utican, Rose Marie Berger, and Maria J. The book concludes with Pope

Francis's historic Message for World Peace Day in 2017.

**Understanding Nonviolence** Lynne Rienner Publishers

Nonviolent methods of action have been a powerful tool since the early twentieth century for social protest and revolutionary social and political change, and there is diffuse awareness that nonviolence is an efficient spontaneous choice of movements, individuals and whole nations. Yet from a conceptual standpoint, nonviolence struggles to engage with key contemporary political issues: the role of religion in a post-secular world; the crisis of democracy; and the use of supposedly 'nonviolent techniques' for violent aims. Drawing on

classic thinkers and contemporary authors, in particular the Italian philosopher Aldo Capitini, this book shows that nonviolence is inherently a non-systematic and flexible system with no pure, immaculate thought at its core. Instead, at the core of nonviolence there is praxis, which is impure because while it aims at freedom and plurality it is made of less than perfect actions performed in an imperfect environment by flawed individuals. Offering a more progressive, transformative and at the same time pluralistic concept of nonviolence, this book is an original conceptual analysis of political theory which will appeal to students of international relations, global politics, security studies, peace studies and democratic theory.

One of the ten best religious books of 1968 . . . a fascinating proposal of revolutionary action through non-violence from the Judeo-Christian faith and the experiments in truth of Gandhi. 'New Book Review' 'The Non-Violent Cross' was a crucial text to push me into becoming a pacifist. It remains as relevant today as it was when first published in 1966. Douglass was in

conversation not only with Catholic perspectives but also John Howard Yoder. Indeed he was among the first to show us how the most orthodox Christian claims committed the church to the practice of non-violence. We are in Wipf & Stock's debt for bringing the book back into print. Stanley Hauerwas, Duke University It will be Jim's reflections on nonviolence and just war theory for which he will be remembered best. And it is here that his language stretches, bends, and breaks under the strain of the inexplicable. For he is not just settling arguments. He is trying to convey the meaning of the kingdom of Reality which will be the final victory of Truth in history. If that kingdom is ever to come, it will be people like Jim who blazed the way. this book the most thoroughgoing treatment to date of non-violence...but in its analyses of the current scene it is also a 'tract for the times.' The Christian Century

The Power of Nonviolence, written by Richard Bartlett Gregg in 1934 and revised in 1944 and 1959, is the most important and influential theory of principled or integral nonviolence published in the twentieth century. Drawing on Gandhi's ideas and practice, Gregg explains in detail how the organized power of nonviolence (power-with) exercised against violent opponents can bring about small and large transformative social change and provide an effective substitute for war.

This edition includes a major introduction by political theorist, James Tully, situating the text in its contexts from 1934 to 1959, and showing its great relevance today. The text is the definitive 1959 edition with a foreword by Martin Luther King, Jr. It includes forewords from earlier editions, the chapter on class struggle and nonviolent resistance from 1934, a crucial excerpt from a 1929 preliminary study, a biography and bibliography of Gregg, and a bibliography of recent work on nonviolence.

Nonviolent Lives John Wiley & Sons  
 Cesar Chavez has long been heralded for his personal practice of nonviolent resistance in struggles against social, racial, and labor injustices. However, the works of Gandhi and Martin Luther King Jr. have long overshadowed Chavez's contributions to the theory of nonviolence. José-Antonio Orosco seeks to elevate Chavez as an original thinker, providing an analysis of what Chavez called "the common sense of nonviolence." By engaging Chavez in dialogue with a variety of political theorists and philosophers, Orosco demonstrates how Chavez developed distinct ideas about nonviolent theory that are timely for dealing with today's social and political issues, including racism, sexism, immigration,

globalization, and political violence.  
Theory and Practice of Non-Violence  
 Pace E Bene Press  
 From the Arab Spring to the plaza occupation movement in Spain, the student movement in the UK and Occupy in the US, many new social movements have started peacefully, only to adopt a diversity of tactics as they grew in strength and collective experiences. The last ten years have revealed more clearly than ever the role of nonviolence. Propped up by the media, funded by the government, and managed by NGOs, nonviolent campaigns around the world have helped oppressive regimes change their masks, and have helped police to limit the growth of rebellious social movements ... The Failure of Nonviolence examines most of the major

social upheavals since the end of the Cold War to establish what nonviolence can accomplish, and what a diverse, unruly, non-pacified movement can accomplish. Focusing especially on the Arab Spring, Occupy, and the recent social upheavals in Europe, this book discusses how movements for social change can win ground and open the spaces necessary to plant the seeds of a new world.

Nonviolence in Political Theory EOLSS Publications

"Folksy, eclectic, disarmingly humble, and astonishingly wide-ranging, Hauerwas offers us a provocative reading of Bonhoeffer that, not surprisingly, assimilates him closely to John Howard Yoder. At the same time, Hauerwas replies to recent criticisms of

his work by Jeffrey Stout. Contending that truth depends on performance far more than on theory, Hauerwas steps forward as a pacifist gadfly for a more truly faithful church and a more recognizably democratic society." -- George Hunsinger, Princeton Theological Seminary "This book shows how lively and fecund Hauerwas's thought remains. A dazzling performance, capable of entertaining and instructing professional theologians as much as those who think the world might be a better place without theologians in it." --Paul J. Griffiths, University of Illinois at Chicago "Stan Hauerwas has done it again! He is able skillfully to blend into his book the passion for truth and justice of two of his greatest influences, Dietrich Bonhoeffer and John Howard Yoder. He takes these

heroic advocates for peace into his own present-day struggle for the soul of the American nation. Hauerwas, an admirable Christian pacifist himself, dares Christians to be the 'Jesus people' they claim to be and to follow Jesus into the gospel path of nonviolence." -- Geoffrey B. Kelly, author of *Liberating Faith: Bonhoeffer's Message for Today*

"Never totally predictable. Always a fresh perspective. And yet once again in these essays--on narrative, politics, Bonhoeffer, and the church--we hear the engaging, discerning, and brilliant voice we have come to know as Stanley Hauerwas." --Mark Thiessen, Eastern Mennonite Seminary

"Contending with and learning from the witness of Dietrich Bonhoeffer, whose

life is often thought to provide a Christian alternative to pacifism, Hauerwas deepens the account of Christian nonviolence he has been articulating for decades. His theology is strengthened and clarified by his encounter with the exemplary figure of Bonhoeffer." --Alan Jacobs, Wheaton College

"Without loss of the provocative edge that has made him a vital and distinctive Christian voice, Hauerwas's *Performing the Faith* allows him to cast a retrospective eye on his work. At the same time, in a brilliant essay under the title of the book, he develops a profoundly important description of faithfulness." --Dennis O'Brien, University of Rochester
