the social work picture

Regardless of the level of intervention, social work professionals
 evaluate the impact of their practices and intervention efforts.
 This type of research activity is called outcome evaluation. When
 outcome evaluation is directed to understanding the impact of
 practices on specific clients or client systems, it is called practice
 evaluation.

Module 1 Chapter 3: Practice Evaluation as Evidence ...

Social Work Research and Evaluation applies systematically
 developed research knowledge to social work practice and
 emphasizes the "doing" of social work as a reciprocal avenue for
 generating research evidence and social work knowledge. Using
 the Examined Practice Model, authors Elizabeth G. DePoy and
 Stephen F. Gilson present research as the identification of a
 problem and then proceed to evaluate the efficacy of social work
 practice in its resolution.

Social Work Research and Evaluation - Richard M Grinnell ...

AASW supports the undertaking of research as a key activity to
 build and maintain the mission of the social work profession.
 Research is an essential area of social work practice and is
 included in the AASW Practice Standards for Social Workers,
 (section 4.3), highlighting its importance to social work practice.
 Social workers are expected to "understand the role of research
 and evaluation in obtaining and generating new knowledge for
 practice." (AASW 2013)
