Configuring SAP R/3 FI/CO SAP Press

Because of its complex integration, Product Cost Controlling (CO-PC) has often been regarded as the most challenging module in SAP ERP. In this 2nd edition, the most important concepts, business processes, and configuration settings have been updated to cover SAP S/4HANA, including how Material Ledger has evolved in S/4HANA. There is also a new chapter on sales order costing. By concentrating only on the essentials, this book can be easily used as a supplementary guide for readers who are implementing or supporting SAP CO-PC. Transaction and configuration screenshots have been included to illustrate

processes and concepts covered in this book, and Fiori app names and GUI transaction codes have also been provided. In addition, this guide examines the integration of CO-PC with other modules, and offers helpful tips to consider during implementation. - Introduction to value flows in SAP S/4HANA Controlling - Step-by-step examples - Configuration for make-to-stock and make-to-order costing - Detailed month-end closing processes
