Colon Classification Vikas Publishing House  
This book provides a coherent account of the Theory of Classification. It discusses the contribution made by theoreticians like E.C. Richardson, J.D. Brown, W. Hulum, W.C. Berwick Sayers, H.E. Bliss and S.R. Ranganathan.

However, the theory put forward by S.R. Ranganathan predominates the whole book because his contribution is far more than anybody else's. Five major schemes of Classification, Library of Congress Classification, Colon Classification and Bliss Biblio-Graphic Classification have also been discussed. Colon Classification, 7th Edition Bangalore : Sarada Ranganathan Endowment for Library Science Works of Dr. Shiyali Ramamrita Ranganathan (S.R. Ranganathan) need

no introduction. They are renowned not because they cover certain facet of library and information science, but because they have been written by the father of library science in india, Dr. Ranganathan. These library science classics have been reprinted to make Dr. Ranganathan's work available to the current generation of librarians and for those to come. The ideas contained in this book form the foundation of subject classification and the book is S.R. Ranganathan's magnum

opus in that field. "A most precise, theoretical, practical, and comparative exposition of library classification theory ... intensely original. It is not within my space here to say in what ways it over-rode many of the obstacles to real understanding of the art of analyzing and assembling books; that the student will discover by the rewarding study of the book itself" (In Preface to edition 2 by W.C. Berwick Sayers). In the present digital age, Ranganathan's ideas on subject classification provide guidelines for the organization of knowledge in whatever medium, including digital, audio, video forms and the www, that knowledge may be embodied . "... in homage to Ranganathan, I believe he, more than any other scholar of our discipline, has striven to establish classification upon a scientific foundation." (Dr. Elaine Svenonius, former Professor, UCLA, in *Libri*, v.42, No. 3 (1992); p. 176) Colon Classification Made Easy Ess Ess Publication Study of the 7th edition (yet to be published) of the *Colon Classification* by S.R. Ranganathan, 1892-1972, Indian librarian. Colon Classification New

Delhi : Ess Ess Publications This manual uses illustrations to outline for advanced and beginning students the rules of the CC-6 (1963). Use of technical terms has been kept to the minimum, which otherwise have been lucidly explained with illustrations. The main purpose of the book is to help *Colon Classification* students fully learn the practice of the CC. Continued teaching of the *Colon Classification* has prompted this updated edition. Some new class numbers for current subjects have been added. The endeavour is to keep the book relevant and current, despite the chronic handicaps of the older CC-6 system. **A Descriptive Account of the *Colon Classification*** M.D. Publications Pvt. Ltd. The *Colon Classification*, designed in 1924 by Padamshri S.R. Ranganathan (1892-1972), the National Research Professor in Library Science (1965-1972) is amongst a few living general bibliographic classification systems. *Colon* classified created a new paradigm in library classification. By the midfifties it got

international ecognition and acceptance. Ranganathan and his classification thoughts. It is the largest bibliography ever compiled on any singal classification systems. Each entry provides full bibliographic details. This endeavour has been to create a complete database on India's pride, the *Colon* classification as mark of humble homage to Dr.S.R. Ranganathan and his worldwide birth centenary celebrations.
