Flora of the Voynich Codex Springer
Nature

This book traces the origin of the legend of El Dorado and the various expeditions that set out to locate that mysterious land of untold wealth in South America. Motivated by both fanciful rumors of a golden city ruled by a man who coated himself daily with gold dust, and the more practical allure of a region abundant in cinnamon trees (a spice that was worth its weight in gold to Europeans), many conquistadors convinced themselves that another native empire awaited their conquest. These quests for fortune and glory would lead to an encounter with fierce female warriors who were believed to be the Amazons of ancient Greek lore, and the discovery of the mighty river later named for the legendary Amazon tribe. The first half of this book details the

lesser-known accounts of German interest in locating the wealth of a golden kingdom called Xerira and an elusive passage at Venezuela's Lake Maracaibo which supposedly led to the Pacific Ocean. The second section focuses on the various Spanish efforts to discover El Dorado, each of which was eventually doomed to despair, disappointment, and death.

William Hickling Prescott Viking Press
 In this book, Geryl provides the blueprint for those wishing to survive the 2012 diaster to prepare themselves and prevail. He explains in detail the myriad problems survivors will encounter, and the precautions that need to be taken to overcome them.

[Spiritual Beings in the Heavenly Bodies and in the Kingdoms of Nature](#) Simon

and Schuster

For centuries the strange, exotic civilizations of the Aztecs, Mayas and Incas flowered in total separation from the rest of mankind. Then explorers stumbled on great pyramids and temples hidden in the forests of Guatemala and Yucatan, and fortress cities high up in the Andes, to find 'things that have never been heard or seen before, or even dreamed about' (Bernal Diaz). In *The Ancient Sun Kingdoms of the Americas*, first published in 1960, Victor von Hagen describes the history and cultures of each of these early civilizations, drawing on a lifetime's experience of their sites, archeology and artifacts. His detailed knowledge of their institutions, economic structures and religious practices enables him to

reconstruct the pattern of their daily life, and to explore their distinctive achievements in, for example, engineering, commerce and communications. The account is illustrated throughout with numerous photographs, line-drawings, and reproductions from original prints. 'The Ancient Sun Kingdoms of the Americas vividly fulfils the author's aim "to take these people out of the flow of the purely archaeological and put them back into the human stream of life".'—Daily Telegraph

Advanced Civilizations of Prehistoric America Signet

The Voynich Codex is one the most fascinating and bizarre manuscripts in the world. The manuscript (potentially equivalent to 232 pages), or more

properly a codex, consists of many foldout pages. It has been divided by previous researchers into sections known as Herbal/Botanical/Pharmacology; Balenological/Biological; Cosmology; one page known as The Rosette; and a final Recipe section. All the sections contain text in an unknown writing system, yet to be deciphered. Cryptological analyses by modern computer programs nevertheless have determined that the language is real and not a hoax, as has been suggested by some. Despite the fact that this codex is largely an herbal, the interpreters of this manuscript with two exceptions, have not been botanists. To this end, our recent research suggests that the Voynich is a 16th century codex associated with

indigenous Indians of Nueva España educated in schools established by the Spanish. This is a breakthrough in Voynich studies. We are convinced that the Voynich codex is a document produced by Aztec descendants that has been unfiltered through Spanish editors. The flora of New Spain is vast, and the medicinal and culinary herbs used by the Aztecs were equally as copious. Even though it is our hypothesis that the Voynich Codex was written as a private herbal in 16th century New Spain, many of these herbs have relevance today because they or closely related species have been noted to be medicinal or have culinary value. The Voynich Codex has an estimated 359 illustration of plants (phytomorphs), 131 in the Herbal Section (large images) and 228 in the

Pharmaceutical Section (small images of plant parts). In our book “Unraveling of the Voynich Codex”, to be published by Springer this summer, Tucker and Janick have partially identified species in the Herbal Section. In this proposed work, all of the plants of the Herbal Section will be identified along with those plants of the Pharmacology Section where identification is feasible. Each plant identification will include subdivisions to include descriptors (formal botanical identification), names in English, Spanish, and Mesoamerican names where known, ecology and range, and properties (medicinal and culinary) of these and related species. Photographs of the phytomorphs and contemporary plants will be included. These identifications represent hard evidence

that the Voynich Codex is a 16th Century Mexican manuscript. Exploring the herbs of the Aztecs through the Voynich Codex will be a seminal work for all Voynich researchers and also of interest to a wider audience in medicinal and culinary herbs, artists, and historians. In summary, our new book project Flora of the Voynich Codex will provide a photo-illustrated guide to complete the botanical evidence related to the Voynich Codex, one of the most valuable historic texts of the 16th century.

Rev. James Lamb has provided the Afro centric Spiritual community a tremendous literary historical-theological treatise. The psycho-social issues facing the African American community today

have their roots in the legacy of white supremacy which has dominated Black life in all areas of human activity, including economics, education, entertainment, labor, law, politics, religion, sex and war. BLACK uncovers the historical legacy of this dehumanization process and provides the solution for the African American community to reclaim its African soul by restoring its memory of the Ancient Egyptian genius to address contemporary struggles of Black life in all areas of people activity, including economics, education, entertainment, labor, law, politics, religion, sex and war. Rev. Richard D. Bullard, ThM Senior Pastor of Grace Evangelical Baptist Church Pine Bluff, Arkansas "This book parallels the practice of religion and the

history of African and African American culture. Rev. Lamb takes the reader on his lifelong journey of discovery and realizations of his morality and his responsibility as a man of the cloth. This book offers compelling dialogue that makes the reader reflect and search within for answers we should all seek for ourselves." Garbo Hearne, Independent Bookseller, Pyramid Art, Books & Custom Framing BLACK: A clear straight forward historical and present day look into the complex world of Black people. From genius Empires displayed historically through slavery, Jim Crow, racial tension and Black on Black crimes; BLACK stands as a monument of practical resource information giving revelation of a great history. BLACK should be required reading in all educational institutions.

A former friend has betrayed the Raksura and their groundling companions, and now the survivors must race across the Three Worlds to rescue their kidnapped family members. When Moon and Stone are sent ahead to scout, they quickly encounter an unexpected and potentially deadly ally, and decide to

disobey the queens and continue the search alone. Following in a wind-ship, Jade and Malachite make an unlikely alliance of their own, until word reaches them that the Fell are massing for an attack on the Reaches, and that forces of the powerful Empire of Kish are turning against the Raksura and their groundling comrades. But there may be no time to stage a rescue, as the kidnapped Raksura discover that their captors are heading toward a mysterious destination with a stolen magical artifact that will cause more devastation for the Reaches than anything the lethal Fell can imagine. To stop them, the Raksura will have to take the ultimate risk and follow them into forbidden territory. The Harbors of the Sun, from celebrated fantasy author Martha Wells, is the

thrilling follow-up to *The Edge of Worlds*, and the conclusion of a new Three Worlds duology of strange lands, uncanny beings, dead cities, and ancient danger.

In three years, the Spanish conquistador Hernán Cortés, leading a few hundred Spanish soldiers, overcame a centuries-old empire that could put tens of thousands of warriors on the field. Even after his god-like reputation had been shattered, and his horses and cannons were no longer regarded as supernatural, his ruthless daring took him on to victory. Yet in the end, his prize was not the gold that he had sought, but the destruction of the entire Aztec civilization.

Did the ancients have the technology of flight? In this incredible volume on ancient India, authentic Indian texts such as the Ramayana and the Mahabharata, are used to prove that ancient aircraft were in use more than four thousand years ago. Included in this book is the entire Fourth Century BC manuscript Vimaanika Shastra by the ancient author Maharishi Bharadwaaja, translated into English by the Mysore Sanskrit professor

G.R. Josyer. Also included are chapters on Atlantean technology, the incredible Rama Empire of India and the devastating wars that destroyed it. Also an entire chapter on mercury vortex propulsion and mercury gyros, the power source described in the ancient Indian texts. Not to be missed by those interested in ancient civilizations or the UFO enigma. Tons of illustrations!

Jesus Christ Visited Ancient America By Almon Fackrell ". . . And other sheep I have, which are not of this fold: them also I must bring, and they shall hear my voice . . ." (John 10:14-16) The Bible, being the most revered book of the Christians, along with the collected treasures of Mayan and Aztec

antiquities, testifies: Jesus Christ Visited Ancient America. Being an enthusiast of Bible versions, and after visiting the Aztec and Mayan ruins in Mexico, Almon Fackrell was prompted to have this study and reveal the parallels of Christian belief and Ancient America's religion. With it, Almon Fackrell was able to account for 276 similarities, which prove that Israelites were in Ancient America! Discover for yourself the facts that have been written both in the Bible and the Popol Vuh. About the Author Almon Fackrell was born in Pingree, Idaho and raised in Arimo, Idaho. In 1953, he was drafted into the U.S. Army and was assigned to a Special Weapons Detachment in New Mexico at Sandia Base, Holloman Air Force Base and White Sands Proving Grounds. He

attended the University of New Mexico and graduated at Sandia Corporation Engineering Trade School in Albuquerque. After thirty-seven years of drafting, designing, and engineering in the Aerospace Industry, he retired as a senior support engineer from Parker Hannifin Corporation in Irvine, California. population and food supply McFarland Providing an original overview covering nearly 4,000 years of history, the book includes approximately 350 works reproduced in lush colour illustrations: a large selection of pre-Columbian treasures, masterpieces dating from the colonial era and striking modern paintings and sculptures from the first half of the 20th century, many reproduced here for the first time. The book is divided into three sections: the

mythologies and rituals of ancient Andean civilizations; their perpetuation, concealment, or hybridisation with Catholicism during the 18th and 19th centuries; and the rediscovery of Peruvian popular traditions and faiths in the 20th century, mainly due to the popular Indigenist movement.

Popular Lost Cities author David Hatcher Childress takes to the road again in search of lost cities and ancient mysteries. This time he is off to the American Southwest, traversing the region's deserts, mountains and forests investigating archeological mysteries and the unexplained. Join David as he starts in northern Mexico and searches for the lost mines of the Aztecs. He

continues north to west Texas, delving into the mysteries of Big Bend, including mysterious Phoenician tablets discovered there and the strange lights of Marfa. He continues northward into New Mexico where he stumbles upon a hollow mountain with a billion dollars of gold bars hidden deep inside it! In Arizona he investigates tales of Egyptian catacombs in the Grand Canyon, cruises along the Devil's Highway, and tackles the century-old mystery of the Superstition Mountains and the Lost Dutchman mine. In Nevada and California Childress checks out the rumors of mummified giants and weird tunnels in Death Valley, plus he searches the Mohave Desert for the mysterious remains of ancient dwellers alongside lakes that supposedly dried up tens of

thousands of years ago. It's a full-tilt blast down the back roads of the Southwest in search of the weird and wondrous mysteries of the past!

In this study, author Guy E. Swanson examines the rules of descent as they relate to regime, socialization, and social control. Using data from many different societies, he discusses the relationship of patriliney, matriliney, and bilaterality with economic and social structures.

Buzzards and Bananas U OF M MUSEUM ANTHRO ARCHAEOLOGY

This outstanding study spans four rich civilizations in ancient Mexico, from 1500 B.C. to the Spanish conquest soon after A.D.1500: The "Olmecs," hunters and farmers who worshipped the man-jaguar

and became the first great carvers in stone and jade. The culture of "Teotihuacan," with its sumptuous palaces and gigantic Pyramids of the Sun and the Moon. The "Toltec" dynasty, whose temples, wreathed with carvings of predatory beasts, serpents and warriors, testify to a new militaristic phase in Mexican history. The "Aztecs," fierce empire-builders whose gods demanded complex rituals and the blood of human sacrifice. Writing for students, travellers and non-specialists, Nigel Davies puts these fascinating cultures into historical context. Drawing on the latest research, he discusses their arts, beliefs and customs, and their changing economic and political conditions, to build up a vivid picture of life in the kingdoms of ancient Mexico.

Aromatherapy for the Soul Houghton Mifflin Harcourt
William Hickling Prescott (1796–1859) was one of those rare historians who effectively melded history and literature in an elegant, compelling writing style that appealed to the casual reader, while still meeting the strict criteria of the scholar. Prescott was the first American historian to achieve international recognition with his critically acclaimed *History of the Reign of Ferdinand and Isabella*. Plagued by poor vision and chronic health issues, he was determined to make his mark as a historian. His follow-up work, *The History of the Conquest of Mexico*, is considered his masterpiece. Prescott went on to write *A History of the Conquest of Peru*, *History of the Reign of Philip II* and a

200–page addendum to William Robertson’s *History of the Reign of the Emperor Charles V*. Drawing on correspondence and journal entries, this book traces the life of one of America’s most celebrated historians.

The Ancient Kingdoms of Mexico New Word City

The history play is an extremely popular genre among English playwrights of this century, yet very little research has been done in the field. In particular, the sheer size and complexity of the subject appears to have prevented critics from attempting to arrive at a clear definition of the genre. This book examines the term 'history play' afresh, seeking to define more precisely the scope and the limits of the genre in relation to twentieth-century ideas of and attitudes

to history.

The Latin American novelist Manuel Puig is perhaps best known for his novel *Kiss of the Spider Woman*. *The Necessary Dream* provides an introduction to and interpretation of his seven novels written from 1968 to 1982. While each novel is given a separate chapter, the homogenous thread of attitudes and themes which touch on psychology, feminism, Argentine politics and popular culture, is clearly displayed. Contents: Introduction; 'La Vie est ailleurs': ^R La

traiciÛn de Rita Hayworth (1968); 'The Rules of the Game': Boquitas pintadas (1969); 'The Divided Self': The Buenos Aires Affair (1973); 'The Kiss of Death': El beso de la mujer aran?ia (1976); 'Only Make-Believe': Pubis angelical (1979); 'Les Liaisons dangereuses': MaldiciÛn eterna a quien lea estas p-ginas (1980); 'Life's a Dream': Sangre de amor correspondido (1982); Notes; Bibliography; Index
 Aztec New York : A. A. Knopf
 Kinship, religion, and economy were not "natural" to humans, nor to species of apes that had to survive on the African savanna. Society from its very beginnings involved an uneasy necessity that often stood in conflict with humans' ape ancestry; these tensions only grew along with later, more complex-

eventually colossal-sociocultural systems. The ape in us was not extinguished, nor obviated, by culture; indeed, our ancestry continues to place pressures on individuals and their sociocultural creations. Not just an

exercise in history, this pathbreaking book dispels many myths about the beginning of society to gain new understandings of the many pressures on societies today.
