 Family based treatment (FBT) supervision for eating disorders The FBT training pathway consists of 3 levels with each level being completed prior to moving to the next. Introductory level : 1.5 days face to face group training delivered by The Training Institute for Child and Adolescent Eating Disorders (train2treat4ed). Child and adolescent mental health services (CAMHS) | NHS Ed  
 This therapy typically focuses on families with a child or adolescent with complex emotional or behavioral problems. The child and their parents may attend 8-30 weekly sessions together. Benefits of family counseling

and how it works  
 The family and therapy  
 The term family therapy can be misleading. 'Family' is open to many interpretations, if not attacks, because it is frequently read as implying a two-parent, heterosexual couple with two children, with the woman primarily the 'homemaker' and the man the 'breadwinner', with occasional backup from the grandparents.
