L'Eglise est en continuelle émergence. Parce qu'elle a vocation à naître à nouveau dans chaque nouveau contexte, là où elle se retrouve en situation de postchrétienté, l'Eglise doit relever à frais nouveaux le double défi de la fidélité à l'Évangile et de la pertinence culturelle. Dans un premier temps, cette thèse explore les nouvelles formes d'Eglises qui cherchent à relever ce défi et qui voient le jour depuis quelques années et ont été identifiées sous l'appellation d'Eglises émergentes. Se développant dans les pays occidentaux, au sein ou en marge de tout le spectre des champs confessionnels, ces communautés s'essayaient à pratiquer la voie de Jésus au sein des cultures postmodernes. Elles cherchent donc à être fidèles à leurs lieux et à leur temps. Centrées sur la mission, sur le développement communautaire ou sur l'innovation liturgique, ces Eglises proposent des approches variées mais ont néanmoins des lignes de force communes. Elles ouvrent la voie à une réflexion plus large sur certains enjeux ecclésiologiques contemporains, qui constitue la deuxième partie de cette étude. Faisant notamment dialoguer les auteurs du mouvement des Eglises émergentes avec le théologien missionnaire anglais Leslie Newbiggin, se dessine une Eglise missionnelle, incarnationnelle et expérientielle.

Building Partnerships Between Existing and Emerging Christian Leaders CRC Press

Evangelical Christianity in the United States is currently in a dramatic state of change. Yet amidst this sometimes tumultuous religious environment a rather unique blend of both ancient and contemporary Christian theology has found its way into the hearts and minds of emerging generations of Christians. The Theology of Dallas Willard both describes and conveys the essence of this increasingly popular and perhaps mediating view of the gospel of Jesus Christ. Blending both a prophetic critique with pastoral encouragement, Willard's unique understanding of the reality present within a life lived as a disciple of Jesus in the kingdom of God is attracting both new and traditional Christians to reconsider their faith.

Carolin Anthes investigates how and why the Food and Agriculture Organization of the United Nations (FAO) struggles with systematically integrating a right to food approach in its operations. She analyzes multi-dimensional institutional roadblocks that prevent human rights from being fully mainstreamed. These barriers are shaped by a powerful state of fragmentation and disconnection: a silo culture. The book also offers valuable insights which go beyond the FAO and suggests a fairly unconventional avenue for systemic organizational change in (international) public administrations.

In *Pursuing Pastoral Excellence*, pastoral counselor and educator Paul Hopkins aims to help pastoral leaders make a lasting and positive difference in the lives of the people and communities they serve. The heart of this book is the stories of seven ordinary pastors whose leadership has become extraordinary. Their stories not only highlight important characteristics and practices that nurture fruitful pastoral leadership, but they invite readers to examine their own stories, to think about the value of longevity in ministry, and to enhance the enduring impact of their own pastoral leadership. Hopkins frames these stories with a discussion of the difficult vocational challenges pastors are facing in a rapidly changing church milieu and a survey of recent leadership studies. He concludes by exploring seven patterns of pastoral leadership that characterize leaders who have an enduring impact, as well as four key elements coming to be recognized as imperative for the cultivation of enduring pastoral fruitfulness.

What the "Emergent Church Movement" is all about—and why it matters to the future of Christianity. Following on the questions raised by Brian McLaren in *A New Kind of Christian*, Tony Jones has written an engaging exploration of what this new kind of Christianity looks like. Writing "dispatches" about the thinking and practices of adventurous Emergent Christians across the country, he offers an in-depth view of this new "third way" of faith—its origins, its theology, and its views of truth, scripture and interpretation, and the Emergent movement's hopeful and life-giving sense of community. With the depth of theological expertise and broad perspective he has gained as a pastor, writer, and leader of the movement, Jones initiates readers into the Emergent conversation and offers a new way forward for Christians in a post-Christian world. With journalistic narrative as well as authoritative reflection, he draws upon on-site research to provide fascinating examples and firsthand stories of who is doing what, where, and why it matters.

This book examines how to develop the main traits that are necessary to become an "informed intuitant". Case studies and examples of successful "informed intuitants" are a major component of the book. "Intuitant" is someone who has the intuitive awareness to be successful. "Informed intuitant" indicates that the individual/decision maker not only applies his/her intuition but also verifies it through using data-driven approaches (such as data analytics). Some of this work resulted from research examining how well do executives trust their intuition.

An Exploration of the Emerging-missional Conversation with a Special Focus on 'missional Leadership' and Its Challenges for Theological Education John Wiley & Sons

Jack Mezirow, a leader in education theory, suggests that all transformative learning begins with a 'disorienting dilemma': an idea or experience that challenges or shifts fundamental values and assumptions. Gary Nelson and Peter Dickens, pastors and teachers with vast experience working with congregations and organizations, believe it is time for Christian leaders to be 'disoriented,' for the fundamental values and assumptions of Christian leadership to be reframed and broken down so they can see the leadership task in new ways. Blending current literature from both Christian and secular scholarship with individual and organizational examples, *Leading in Disorienting Times* provides support for the concept of servant leadership that may be initially disorienting, but is ultimately liberating.

Servantship is essentially about following our Lord Jesus Christ, the servant Lord, and his mission—it is a life of discipleship to

him, patterned after his self-emptying, humility, sacrifice, love, values, and mission. Servantship is humbly valuing others more than yourself, and looking out for the interests and wellbeing of others. Servantship is the cultivation of the same attitude of mind Christ Jesus had: making yourself nothing, being a servant, humbling yourself, and submitting yourself to the will and purposes of the triune God. Since servantship is the imitation of Christ, it involves an unreserved participation in the *missio Dei*—the Trinitarian mission of God. In this pioneering work, sixteen servants describe the four movements of radical servantship. Servantship is the movement 1. from leadership to radical servantship; 2. from shallowness to dynamic theological reflection; 3. from theories to courageous practices; and 4. from forgetfulness to transforming memory. Servantship recognizes, in word, thought, and deed, that "whoever wants to become great among you must be your servant, and whoever wants to be first must be your slave—just as the Son of Man did not come to be served, but to serve, and to give his life as a ransom for many."

Leadership is changing. Not only are established leaders passing the baton to up-and-coming leaders, the very nature of leadership is being transformed. Veteran leader and cultural observer Jimmy Long has discerned how leadership positions and roles have changed in light of societal shifts. Authority is no longer derived from positional status but is earned from relational credibility. Leaders focus not only on tasks but on community. And leadership is less about directing followers to a particular destination, and more about empowering others on a shared journey. Existing leaders cannot write off emerging leaders because they work differently. Nor can younger leaders dismiss the contributions of those who have gone before. Here is a book that offers a positive vision for intergenerational partnership and leadership transference rather than competition. The practical tools outlined here will help existing and emerging leaders understand each others' leadership styles and collaborate fruitfully for the sake of the kingdom.

Poverty is one of the great challenges of the 21st century. But poverty is not new. And neither is God's deep concern for the poor—it is a theme deeply woven throughout the Bible. Yet sadly, churches and individual Christians have too often been blind to this emphasis, or they have been paralyzed into inaction by feelings of helplessness. In this urgent, provocative book, Ash Barker offers both challenge and hope. Pulling out and reflecting on significant passages from both testaments, he reveals what the Bible says about both the nature of poverty and about how God calls his people to respond. These studies, ideal for either individual or small group use, are interlaced with personal reflections—first-hand accounts from fifteen years of ministry among the poor.

What does the church look like if we take the ministry of the

baptized the priesthood of all believers seriously? How are congregations transformed when the church supports and affirms the ministry of all the baptized, particularly in small congregations without the means to hire a seminary-trained pastor? And what ecclesial structures and educational models need to emerge in the next decades to assist these small congregations in the recovery of baptismal living and their own vitality? Sheryl Kujawa-Holbrook and Fredrica Harris Thompsett explore these questions as well as the variety of ways people in small congregations many with no more than fifty members are living out their baptism and the impact their actions are having on their congregations, judicatories, and communities, and the institutions that educate clergy. The authors argue that just because a community cannot pay a seminary-trained minister, a growing problem in remote regions, it does not mean that there is no ministry there. It does mean that we need to look at ministry and the church in a more expansive way. The stories of the congregations revealed in this book serve to inspire us about what is possible when we live intentionally as the reconciling presence of the body of Christ in the world. They also educate us about what will be needed in the years to come to lift up still more small congregations for their work in the larger community. John Wiley & Sons

While plenty of books related to the conversations as well as controversies surrounding the emergent church have surfaced in recent years, no comprehensive evangelical assessment of the movement has been published until now. *Evangelicals Engaging Emergent* draws from a broad spectrum of conservative evangelicalism to serve as a clear, informative, fair, and respectful guide for those desiring to know what "emergent" means, why it originated, where the movement is going, what issues concern emergent believers, and where they sometimes go wrong theologically. Among the dozen contributors are Norman Geisler ("A Postmodern View of Scripture"), Darrell Bock ("Emergent/Emerging Christologies"), Ed Stetzer ("The Emergent/Emerging Church: A Missiological Perspective"), and Daniel Akin ("The Emerging Church and Ethical Choices: The Corinthian Matrix").

"A good education will land you a good job," "Be an entrepreneur/Start something in a garage or dorm room" and even "Jesus saves" are narratives that collapsed for the millennial generation (born 1982-2002). These narratives, amongst many similar social and religious ones, have lost their meaning and power as millennials question all authorities and struggle to flourish in a world come of age. With their needs for community and success, a strong spirituality, and believing that their gifts should be recognized and can make a difference, millennials increasingly find meaning and purpose outside the church. As they face economic uncertainty, reduced career prospects, unceasing change, as well as civic, global, and ecological uncertainties, however, a large number of millennials are overwhelmed with feelings of anxiety and depression. Caught between hope and fear, millennials leave the church with their values of personal transformation, purpose, community, spirituality, social transformation and ecological awareness. Ironically the church often holds the same values. *The Millennial Narrative* is written for pastoral leaders who want to welcome millennials, both inside and outside their congregation. The book draws on the wisdom of the prophetic Book of Joel as a narrative worth living into. Drawing on Joel's three chapters, *The Millennial*

Narrative empowers pastoral leaders to: • Facilitate the work of mourning Millennials are facing; • Envision a spiritual community that can welcome millennials; • Introduce a compassionate God that restores and indwells as the Spirit; • Reflect on God's judgment through the lens of accountability; and, • Support and encourage millennials to be a blessing to others. In addition, pastoral leaders will receive a sermon outline and material for adult education.

Adoption is one of the most radically inclusive aspects of God's kingdom. All of us belong to God's family--Jesus as God's son and the rest of us as his adopted children. In *Adopted* Kelley Nikondeha explores how the Christian concept of adoption into God's family can broaden our sense of belonging. Drawing on her own story as both an adopted child and an adoptive mother, Nikondeha invites readers to a rich, biblically grounded understanding of adoption that reframes the way we perceive family, friends, and those in need of rescue. As Nikondeha unpacks the implications of adoption--and especially its potential to cross socioeconomic and ethnic boundaries--she offers new ways to approach conversations about family, adoption, connection, and the mystery of what it means to belong.

Here is the long-awaited volume that provides both the theoretical foundations and practical guidance for developing new monastic and missional communities in contexts that are theologically progressive, racially and economically diverse, and multicultural. This book contains the wisdom and perspectives of people who live and serve in missional, new monastic communities in United Methodist and other mainline traditions, and it describes new forms of theological education that are emerging to resource a new generation of Christian leaders. Heath and Duggins challenge Methodists, Lutherans, Episcopalians, Presbyterians, and other Christians to reach into their own robust, mainline heritage for resources to develop small, intentional communities that practice a rigorous life of prayer, hospitality, and justice.
