MORRIS LIVIA	

American Iconographic University of Chicago Press

The United States is in the midst of a major demographic shift. In the coming decades, people aged 65 and over will make up an increasingly large percentage of the population: The ratio of people aged 65+ to people aged 20-64 will rise by 80%. This shift is happening for two reasons: people are living longer, and many couples are choosing to have fewer children and to have those children somewhat later in life. The resulting demographic shift will present the nation with economic challenges, both to absorb the costs and to leverage the benefits of an aging population. Aging and the Macroeconomy: Long-Term Implications of an Older Population presents the fundamental factors driving the aging of the U.S. population, as well as its societal implications and likely long-term macroeconomic effects in a global context. The report finds that, while population aging does not pose an insurmountable challenge to the nation, it is imperative that sensible policies are implemented soon to allow companies and households to respond. It offers four practical approaches for preparing resources to support the future consumption of households and for adapting to the new economic landscape.

Through the Lens Beacon Press

There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. *How People Learn II: Learners, Contexts, and Cultures* provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. *How People Learn II* will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults.

How People Learn II Reading National GeographicDiscusses the ways that the magazine and its authors and editors have both passively and actively shaped American opinions of other cultures and caused us to reflect on our own culture.Breaking Ranks

For more than 100 years, National Geographic has set the standard for photographic excellence. Celebrating that tradition, this volume collects our most remarkable images in a single extraordinary book that visits every region of the world and even outer space. Some of these photos are world renowned while others have rarely been seen. Some illuminate distant cultures; others reveal the mysteries of nature. Whether you linger over an early pioneering shot or a more recent achievement, you'll find in each photograph a stunning testament to the power that pictures possess to go where words cannot. .

The Future of Nature Gallery Books

Carjacked is an in-depth look at our obsession with cars. While the automobile's contribution to global warming and the effects of volatile gas prices is widely known, the problems we face every day because of our cars are much more widespread and yet much less known -- from the surprising \$14,000 that the average family pays each year for the vehicles it owns, to the increase in rates of obesity and asthma to which cars contribute, to the 40,000 deaths and 2.5 million crash injuries each and every year. Carjacked details the complex impact of the automobile on modern society and shows us how to develop a healthier, cheaper, and greener relationship with cars.

The Role of Protein and Amino Acids in Sustaining and Enhancing Performance Univ of California Press

A history of the National Geographic Society from its 1888 beginnings through its evolution into an iconic American institution examines the institution's photography-based monthly magazine and the explorations it has covered.

How We Got to the Moon Univ of California Press

This book offers a picture of daily life in the Project area during 1991 and 1992. Settlement and residence patterns, subsistence, material culture, and exchange, all show a mixture of old and new. A consideration of the changing meanings that objects and customs have for the local people give a sense of contemporary life not only in the Project area but in rural Papua New Guinea in general.

Homefront HarperCollins

Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs"who account for more than 9 percent of enrollment in grades K-12 in U.S. schools"are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and

in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

Discusses the ways that the magazine and its authors and editors have both passively and actively shaped American opinions of other cultures and caused us to reflect on our own culture.

Off the Grid - Getting Started University of Chicago Press

In an era before affordable travel, National Geographic not only served as the first glimpse of countless other worlds for its readers, but it helped them confront sweeping historical change. There was a time when its cover, with the unmistakable yellow frame, seemed to be on every coffee table, in every waiting room. In *American Iconographic*, Stephanie L. Hawkins traces National Geographic's rise to cultural prominence, from its first publication of nude photographs in 1896 to the 1950s, when the magazine's trademark visual and textual motifs found their way into cartoon caricature, popular novels, and film trading on the "romance" of the magazine's distinctive visual fare. National Geographic transformed local color into global culture through its production and circulation of readily identifiable cultural icons. The adventurer-photographer, the exotic woman of color, and the intrepid explorer were part of the magazine's "institutional aesthetic," a visual and textual repertoire that drew upon popular nineteenth-century literary and cultural traditions. This aesthetic encouraged readers to identify themselves as members not only in an elite society but, paradoxically, as both Americans and global citizens. More than a window on the world, National Geographic presented a window on American cultural attitudes and drew forth a variety of complex responses to social and historical changes brought about by immigration, the Great Depression, and world war. Drawing on the National Geographic Society's archive of readers' letters and its founders' correspondence, Hawkins reveals how the magazine's participation in the "culture industry" was not so straightforward as scholars have assumed. Letters from the magazine's earliest readers offer an important intervention in this narrative of passive spectatorship, revealing how readers resisted and revised National Geographic's authority. Its photographs and articles celebrated American self-reliance and imperialist expansion abroad, but its readers were highly aware of these representational strategies, and alert to inconsistencies between the magazine's editorial vision and its photographs and text. Hawkins also illustrates how the magazine actually encouraged readers to question Western values and identify with those beyond the nation's borders. Chapters devoted to the magazine's practice of photographing its photographers on assignment and to its genre of husband-wife adventurers reveal a more enlightened National Geographic invested in a cosmopolitan vision of a global human family. A fascinating narrative of how a cultural institution can influence and embody public attitudes, this book is the definitive account of an iconic magazine's unique place in the American imagination.

Invisibility Blues HarperPB

From the Stonewall Honor-winning author of *Like a Love Story* comes a revelatory novel about the enclosed world of privilege and silence at an elite boarding school and the unlikely group of friends who dare to challenge the status quo through their writing. Perfect for fans of E. Lockhart, Kathleen Glasgow, and Jandy Nelson, with crossover appeal for readers of Donna Tartt's *The Secret History* and Curtis Sittenfeld's *Prep*. Beth Kramer is a "townie" who returns to her sophomore year after having endured a year of tension with her roommate, Sarah. But Sarah Brunson knows there's more to that story. Amanda Priya "Spence" Spencer is the privileged daughter of NYC elites, who is reeling from the realization that her family name shielded her from the same fate as Sarah. Ramin Golafshar arrives at Chandler as a transfer student to escape the dangers of being gay in Iran, only to suffer brutal hazing under the guise of tradition in the boys' dorms. And Freddy Bello is the senior who's no longer sure of his future but knows he has to stand up to his friends after what happened to Ramin. At Chandler, the elite boarding school, these five teens are brought together in the Circle, a coveted writing group where life-changing friendships are born—and secrets are revealed. Their professor tells them to write their truths. But is the truth enough to change the long-standing culture of abuse at Chandler? And can their friendship survive the fallout?

The Photography History and Theory Reader Penguin Group USA

This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer

space. A classic work in the history of science, and described as “a good book on rocket stuff...that’s a really fun one” by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

“A fascinating and frightening book” (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with bathhouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—“this book will scare the hell out of you” (Kansas City Star).

Reading National Geographic Routledge

The *Photography Reader* is a comprehensive introduction to theories of photography; its production; and its uses and effects. Including articles by photographers from Edward Weston to Jo Spence, as well as key thinkers like Roland Barthes, Victor Burgin and Susan Sontag, the essays trace the development of ideas about photography. Each themed section features an editor's introduction setting ideas and debates in their historical and theoretical context. Sections include: Reflections on Photography; Photographic Seeing; Coding and Rhetoric; Photography and the Postmodern; Photo-digital; Documentary and Photojournalism; The Photographic Gaze; Image and Identity; Institutions and Contexts.

Representing Consumers National Council of Teachers

This book probes the efforts at manipulation individuals face daily in this information age and the tactics of persuaders from many sectors of society using various forms of Orwellian "doublespeak." The book contains the following essays: (1) "Notes toward a Definition of Doublespeak" (William Lutz); (2) "Truisms Are True: Orwell's View of Language" (Walker Gibson); (3) "Mr. Orwell, Mr. Schlesinger, and the Language" (Hugh Rank); (4) "What Do We Know?" (Charles Weingartner); (5) "The Dangers of Singlespeak" (Edward M. White); (6) "The Fallacies of Doublespeak" (Dennis Rohatyn); (7) "Doublespeak and Ethics" (George R. Bramer); (8) "Post-Orwellian Refinements of Doublethink: Will the Real Big Brother Please Stand Up?" (Donald Lazere); (9) "Worldthink" (Richard Ohmann); (10) "Bullets Hurt, Corpses Stink!: George Orwell and the Language of Warfare" (Harry Brent); (11) "Political Language: The Art of Saying Nothing" (Dan F. Hahn); (12) "Fiddle-Faddle, Flapdoodle, and Balderdash: Some Thoughts about Jargon" (Frank

J. D'Angelo); (13) "How to Read an Ad: Learning to Read between the Lies" (D. G. Kehl); (14) "Subliminal Chainings: Metonymical Doublespeak in Advertising" (Don L. F. Nilsen); (15) "Doublespeak and the Polemics of Technology" (Scott Buechler); (16) "Make Money, Not Sense: Keep Academia Green" (Julia Penelope); (17) "Sensationspeak in America" (Roy F. Fox); and (18) "The Pop Grammarians--Good Intentions, Silly Ideas, and Doublespeak" (Charles Suhor). Three appendixes are attached: "The George Orwell Awards," "The Doublespeak Award," and "The Quarterly Review of Doublespeak." (MS)

Engaging Young Readers SAGE

A teacher at a New England prep school ignites a gender war—with deadly consequences—in this dark and provocative novel by the bestselling author of *The Passenger* “Riveting . . . full of imagination and power.”—Caroline Kepnes, author of *You and Providence* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NEW YORK • WINNER OF THE ALA’S ALEX AWARD When Alexandra Witt joins the faculty at Stonebridge Academy, she’s hoping to put a painful past behind her. Then one of her creative writing assignments generates some disturbing responses from students. Before long, Alex is immersed in an investigation of the students atop the school’s social hierarchy—and their connection to something called the Darkroom. She soon inspires the girls who’ve started to question the school’s “boys will be boys” attitude and incites a resistance. But just as the movement is gaining momentum, Alex attracts the attention of an unknown enemy who knows a little too much about her—and what brought her to Stonebridge in the first place. Meanwhile, Gemma, a defiant senior, has been plotting her attack for years, waiting for the right moment. Shy loner Norman hates his role in the Darkroom, but can’t find the courage to fight back until he makes an unlikely alliance. And then there’s Finn Ford, an English teacher with a shady reputation, who keeps one eye on his literary ambitions and one on Ms. Witt. As the school’s secrets begin to trickle out, a boys-versus-girls skirmish turns into an all-out war, with deeply personal—and potentially fatal—consequences for everyone involved. Lisa Lutz’s blistering, timely tale of revenge and disruption shows us what can happen when silence wins out over decency for too long—and why the scariest threat of all might be the idea that sooner or later, girls will be girls. Praise for *The Swallows* “The Swallows is fast-moving, darkly humorous and at times shockingly vicious. The battle of the sexes within its pages couldn’t be more compelling. . . . Lutz delivers a frantic, morbidly funny story.”—BookPage “A decade before the #MeToo movement kicks off in full force, women are coming for the patriarchy in this big ol’ novel, ripe with idiosyncratic characterization and memorable scenes.”—Refinery29

How Culture Works Psychology Press

First published in 1990, Michele Wallace’s *Invisibility Blues* is widely regarded as a landmark in the history of black feminism. Wallace’s considerations of the black experience in America include recollections of her early life in Harlem; a look at the continued underrepresentation of black voices in politics, media, and culture; and the legacy of such figures as Zora Neale Hurston, Toni Cade Bambara, Toni Morrison, and Alice Walker. Wallace addresses the tensions between race, gender, and society, bringing them into the open with a singular mix of literary virtuosity and scholarly rigor. *Invisibility Blues* challenges and informs with the plain-spoken truth that has made it an acknowledged classic.

The Structure of Wages Guilford Press

In this book -- the first in more than fifty years to treat the entire body of Grimm's Tales -- Ruth B. Bottigheimer provides a thorough analysis of the stories' content, focusing in particular on the matter of gender. By combining a sociohistorical examination of the stories with close scrutiny of the language in which they are told, Bottigheimer reveals coherent patterns of motif, plot, and image and brings new insight into the moral and social vision of the collection.
