guide!

Nephron-Sparing Surgery Springer

Nature

Despite the rising popularity of the minimally invasive laparoscopic option, open nephron-sparing surgery is still seen by many experts as the 'gold standard' for open surgery for kidney tumors and should remain the first choice for many patients. This challenges the idea that less-invasive therapies are always more desirable than open surgery. **Whi NCCN Guidelines for Patients® Cervical Cancer** Springer [OFFICIAL CURRENT VERSION - 2019] From the National Comprehensive Cancer Network® (NCCN®), comes this essential guide to

Myeloproliferative Neoplasms. Adapted from clinical treatment guidelines used by physicians and oncology professionals around the world, these NCCN Guidelines for Patients help prepare patients and caregivers to talk with their doctors and make treatment decisions. NCCN Guidelines for Patients® Blood Clots and Cancer

Springer Science & Business Media

This textbook combines essential information on clinical cancer medicine with a guide to the latest advances in molecular oncology and tumor biology. Providing a systematic overview of all types of solid tumors, including

epidemiology and cancer prevention, genetic aspects of hereditary cancers, differential diagnosis, typical signs and symptoms, diagnostic strategies and staging, and treatment modalities, it also discusses new and innovative cancer treatments, particularly targeted therapy and immunotherapy. Expert commentaries at the end of each chapter highlight key points, offer insights, suggest further reading and discuss clinical application using case descriptions. This textbook is an invaluable, practice-oriented tool for medical students just beginning their clinical oncology studies, as well as for medical oncology residents and young professionals.
