Beyond the Time Barrier CreateSpace

Navy fighter pilot Tim Johnson returns home to South Florida from Vietnam in 1973 with a plan. In order to execute it he will need the help of his younger brother Tommy and his less than scrupulous friends but trying to keep things a secret and off the radar of law enforcement may be harder than he thinks. Based on events and accounts, *A Time to Hustle* is a gripping pulse pounding ride into the illegal and dangerous underworld of the narcotics trade in the 1970's. This story is fiction. It is loosely based on actual events that happened a long time ago. All of the names and locations have been altered. Please do not try anything described or depicted in the following pages. Personal injury or death may result. Drug use, organized crime, and

smuggling are illegal and not encouraged by the author. Any similarity to persons living or dead is coincidental and not intended by the author. Reader discretion is definitely advised.

Attack of the Cicadas Steeple Hill

Not until the evidence was uncovered by tomb robbers in the 1870s would we have ever known. Then with the discovery of Tutankhamen's tomb in the 1920s, even more hints beckoned readily at hand. But as with so many things in life, critical clues often go unnoticed until science, accident, and intrigue collide. That collision was initiated by a Polish archaeologist who received permission to collect DNA samples from a group of royal mummies at the Cairo National Museum in 1973. A tragic victim of the Yom Kippur War, his samples sat dormant gathering dust until they were found and processed in 1998. Meanwhile during the early 1970s an international team noticed, while x-raying the same mummy collection, some extremely unexpected physiological details among several of them. As with the

radiological data, the chromosomal evidence proved to be equally disquieting. When taken together, they argued for the introduction of a unique genetic anomaly into the human genome during the Egyptian late Eighteenth Dynasty. The source was extraterrestrial. *Bow Tie* chronicles how an international scientific effort resolved the situation by using a most unusual means for prosecuting a most unscrupulous task - time travel and murder. This is the first manuscript published by the Richards' Trust in accordance with the posthumous wishes of Egyptologist Joseph William Richards, Ph.D.

From #1 New York Times-bestselling author W.E.B. Griffin comes a dramatic thriller in the Clandestine Operations series about the Cold War, the fledgling Central Intelligence Agency—and a new breed of warrior. January, 1946: Two WACs leave an officers' club in Munich, and four Soviet NKGB agents kidnap them at knifepoint in the parking lot and shove them in the back of an ambulance. That is the agents' first mistake, and their last. One of the WACs, a blonde woman improbably named Claudette Colbert, works for the new Directorate of Central Intelligence, and three of the men end up dead and the fourth wounded. The “incident,” however, will send shock waves rippling up and down the line, and have major repercussions not only for Claudette, but for her boss, James Cronley, Chief DCI-Europe, and for everybody involved in their still-evolving enterprise. For, though the Germans may have been defeated, Cronley and his company are on the front lines of an entirely different kind of war now. The enemy has changed, the rules have changed—and the stakes have never been higher.

Final Justice Penguin

Just as with his remarkable military novels, millions of readers have been captured by the rich characters and vivid realism of W. E. B. Griffin's police dramas. "Griffin has the knack," writes *The Philadelphia Inquirer*. He "sets his novel before you in short,

fierce, stop-for-nothing scenes. Before you know it, you've gobbled it up." Now, in *Final Justice*, Detective Matt Payne of the Philadelphia police department—newly promoted to sergeant and assigned to Homicide—finds himself in the middle of three major assignments. The first case, a fatal shooting at a fast-food restaurant, seems simple, but rapidly becomes complicated. The second, a rape that tumbled into murder, begins complicated and only gets more so, as it becomes apparent that the crime may be part of a disturbing, and escalating, pattern. The third is the most bizarre, as Payne becomes involved with a local figure who long ago fled the country, leaving behind the mummified body of his girlfriend in a trunk. Ever since, the murderer has been sending taunting postcards from his safe haven—but all that may be about to change. Weaving in and around this already hectic schedule are the visit to Philadelphia of the self-absorbed star of a series of improbable police movies, who wants Payne to show him “the real stuff,” and the appearance in Payne’s life of two very different women. Either one of them alone would be enough to set his head spinning, but together . . . this might be the most complicating thing of all. Filled with color and detail and plots as real as the headlines, this is a riveting novel of the men and women who put their lives on the line, from the cop on the beat to the commissioner himself. It’s a story of fears, dangers, courage, loyalty, and genuine heroism: storytelling at its best.

Choose This Day Penguin

This book deals with the roots of our mistrust and the ways that we can learn to recover our lost sense of trust. What we normally consider trust is actually a false trust, a childish, fantasy trust. This kind of false trust is dependent on how others and life treats us. Life teaches us through the painful experiences of disappointment and betrayal how to learn a new kind of trust, a real sense of trust which comes from inside and no longer dependent on outside events and experiences. Trust arises first from retrieving self-trust and then trust towards others follows naturally from that re-discovery. In the book, the authors teach

by sharing liberally from their own personal experiences and also with examples from their work as international seminar leaders.
