Res is a journal of anthropology and comparative aesthetics dedicated to the study of the object, in particular cult and belief objects and objects of art. The journal presents contributions by philosophers, art historians, archaeologists, critics, linguists,

architects, artists, and others. Its field of inquiry is open to all cultures, regions, and historical periods. Res also publishes iconographic and textual documents important to the history and theory of the arts. Res appears twice yearly, in the spring and autumn. The journal is edited by Francesco Pellizzi. More information about Res is available at [www.res-journal.org](http://www.res-journal.org).

This book is designed to present, in one convenient source, comments published in periodicals about 325 automobile models manufactured since 1987 on a model-by-model basis. These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models.

### **Autumn 1985**

The Just-in-time (JIT) manufacturing system is an internal system in use by its founder, Toyota Motor Corporation, but it has taken on a new look. *Toyota Production System, Second Edition* systematically describes the changes that have occurred to the most efficient production system in use today. Since the publication of the first edition of this book in 1983, Toyota has integrated JIT with computer integrated manufacturing technology and a strategic information system. The JIT goal of producing the necessary items in the necessary quantity at the necessary time is an internal driver of production and operations

management. The addition of computer integrated technology (including expert systems by artificial intelligence) and information systems technology serve to further reduce costs, increase quality, and improve lead time. The new Toyota production system considers how to adapt production schedules to the demand changes in the marketplace while satisfying the goals of low cost, high quality, and timely delivery. The first edition of this book, *Toyota Production System*, published in 1983, is the basis for this book. It was translated into many languages including Spanish, Russian, Italian, Japanese, etc., and has played a definite role in inspiring production management systems throughout the world.

### *An Integrated Approach to Just-In-Time*
