The two-time Grammy-nominated singer-songwriter behind the groundbreaking album *Exile in Guyville* traces her life and career in a genre-bending memoir in stories about the pivotal moments that haunt her. "Honest, original and absolutely remarkable."—NPR (Best Books of the Year) When Liz Phair shook things up with her musical debut, *Exile in Guyville*—making her as much a cultural figure as a feminist pioneer and rock star—her raw candor, uncompromising authenticity, and deft storytelling inspired a legion of critics, songwriters, musicians, and fans alike. Now, like a Gen X Patti Smith, Liz Phair reflects on the path she has taken in these piercing essays that reveal the indelible memories that have stayed with her. For Phair, horror is in the eye of the beholder—in the often unrecognized universal experiences of daily pain, guilt, and fear that make up our humanity. Illuminating despair with hope and consolation, tempering it all with her signature wit, *Horror Stories* is immersive, taking readers inside the most intimate junctures of Phair's life, from facing her own bad behavior and the repercussions of betraying her fundamental values, to watching her beloved grandmother inevitably fade, to

undergoing the beauty of childbirth while being hit up for an autograph by the anesthesiologist. *Horror Stories* is a literary accomplishment that reads like the confessions of a friend. It gathers up all of our isolated shames and draws them out into the light, uniting us in our shared imperfection, our uncertainty and our cowardice, smashing the stigma of not being in control. But most importantly, the uncompromising precision and candor of *Horror Stories* transforms these deeply personal experiences into tales about each and every one of us.

Imagine if we treated broken hearts with the same respect and concern we have for broken arms? Psychologist Guy

Winch urges us to rethink the way we deal with emotional pain, offering warm, wise, and witty advice for the broken-hearted. Real heartbreak is unmistakable. We think of nothing else. We feel nothing else. We care about nothing else. Yet while we wouldn't expect someone to return to daily activities immediately after suffering a broken limb, heartbroken people are expected to function normally in their lives, despite the emotional pain they feel. Now psychologist Guy Winch imagines how different things would be if we paid more attention to this unique emotion—if only we can understand how heartbreak works, we can begin to fix it. Through compelling research and new scientific studies, Winch reveals how and why heartbreak impacts our brain and our behavior in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve, and to function at our best. In *How to Fix a Broken Heart* he focuses on two types of emotional pain—romantic heartbreak and the heartbreak that results from the loss of a cherished pet. These experiences are both accompanied by severe grief responses, yet they are not deemed as important as, for example, a formal divorce or the loss of a close relative. As a result, we are often deprived of the recognition, support, and compassion afforded to those whose heartbreak is considered more significant. Our heart might be broken, but we do not have to break with it. Winch reveals that recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Winch offers a toolkit on how to handle

and cope with a broken heart and how to, eventually, move on.

NATIONAL BESTSELLER • An up-close portrait of the mind of an addict and a life unraveled by narcotics—a memoir of captivating urgency and surprising humor that puts a human face on the opioid crisis. "Raw, brutal, and shocking. Move over, Orange Is the New Black."—Amy Dresner, author of *My Fair Junkie* When word got out that Tiffany Jenkins was withdrawing from opiates on the floor of a jail cell, people in her town were shocked. Not because of the twenty felonies she'd committed, or the

nature of her crimes, or even that she'd been captain of the high school cheerleading squad just a few years earlier, but because her boyfriend was a Deputy Sheriff, and his friends—their friends—were the ones who'd arrested her. A raw and twisty page-turning memoir that reads like fiction, *High Achiever* spans Tiffany's life as an active opioid addict, her 120 days in a Florida jail where every officer despised what she'd done to their brother in blue, and her eventual recovery. With heart-racing urgency and unflinching honesty, Jenkins takes you inside the grips of addiction and the desperate decisions it breeds. She is a born storyteller who lived an incredible story, from blackmail by an ex-boyfriend to a soul-shattering deal with a drug dealer, and her telling brims with suspense and unexpected wit. But the true surprise is her path to recovery. Tiffany breaks through the stigma and silence to offer hope and inspiration to anyone battling the disease—whether it's a loved one or themselves.

From the chief medical correspondent of ABC News, an eloquent, heartbreaking, yet hopeful memoir of surviving the suicide of a loved one, examining this dangerous epidemic and offering first-hand knowledge and advice to help family and friends find peace. Jennifer Ashton, M.D., has witnessed firsthand the impact of a loved one's suicide. When her ex-husband killed himself soon after their divorce, her world—and that of her children—was shattered. Though she held a very public position with one of the world's largest media companies, she was hesitant to speak about the personal trauma that she and her family experienced following his death. A

woman who addresses the public regularly on intimate health topics, she was uncertain of revealing her devastating loss—the most painful thing she'd ever experienced. But with the high-profile suicides of Kate Spade and Anthony Bourdain, Dr. Ashton recognized the importance of talking about her experience and the power of giving voice to her grief. She shared her story with her Good Morning America family on air—an honest, heartbreaking revelation that provided comfort and solace to others, like her and her family, who have been left behind. In *Life After Suicide*, she opens up completely for the first time, hoping that her experience and words can inspire those faced with the unthinkable to persevere. Part memoir and part comforting guide that incorporates the latest insights from researchers and health professionals, *Life After Suicide* is both a call to arms against this dangerous, devastating epidemic, and an affecting story of personal grief and loss. In addition, Dr. Ashton includes stories from others who have survived the death of a loved one by their own hand, showing how they survived the unthinkable and demonstrating the vital roles that conversation and community play in recovering from the suicide of a loved one. The end result is a raw and revealing exploration of a subject that's been taboo for far too long, providing support, information, and comfort for those attempting to make sense of their loss and find a way to heal.

Erica C. Barnett had her first sip of alcohol when she was thirteen, and quickly developed a taste for drinking to oblivion with her friends. In her late twenties, her addiction became inescapable. By the time she was in her

late thirties, she had run the gauntlet of alcoholism. With brave and vulnerable writing, Barnett expands on her own story to confront the dire state of addiction today, the rise of alcoholism in women, and the lack of rehabilitation options available. *Quitter* is essential reading for our age and an ultimately hopeful story of Barnett's own hard-fought path to sobriety.

Avoid negative relationships. There are people in this life who will build you up and those who will tear you down. Which type of person do you want to spend the rest of your life with? Let me tell you the truth—if that person asking you out doesn't treat you like a queen, they don't deserve to be your king, ever. Leave that negative relationship. When things are falling apart and you don't know what to do, don't be afraid to leave. Don't shut up that voice in the back of your head. Don't let somebody else make you live life the way they think you should. Nobody else can walk the path to your sunshine but you. And sometimes, you have to walk that path alone. In a negative relationship? It's possible to recover. It's not too late. It's not too late for that relationship. It's not too late for love. Love can still be everything you imagined it can be. But recovery takes both of you—both of you all in all the time.

Florence Williams explores the fascinating, cutting-edge science of heartbreak while seeking creative ways to mend her own. When her twenty-five-year marriage unexpectedly falls apart, journalist Florence Williams expects the loss to hurt. What she doesn't expect is that she'll end up in the hospital, examining close-up the way our cells listen to loneliness. She travels to the frontiers of the science of "social pain" to learn why heartbreak hurts so much and why so much of the conventional wisdom about it is wrong. Searching for insight as well as personal strategies to game her way back to health, Williams tests her blood for genetic markers of grief, undergoes electrical shocks in a laboratory while looking at pictures of her ex, and ventures to the wilderness in search of awe as an antidote to loneliness. For readers of *Wild* and *Lab Girl*, *Heartbreak* is a remarkable merging of science and self-discovery that will change the way we think about loneliness, health, and what it means to fall in and out of love.
