The twenty-first-century church is  
increasingly placing recently trained  
seminary or locally trained clergy in  
smaller churches where they must stand  
alone without the training under a senior  
pastor. Since leadership in a church and  
academic preparation in seminary are  
two very different things, the church  
historically developed a history of  
offering "curacies," or training  
assistantships, to help blend the two  
disciplines and merge classroom  
knowledge into practical application.

Today, these formal assistantships are mostly a thing of the past. Curacy Express: A Training Resource for New Clergy reconfigures this training into a current model. New clergy serving in their own church and mentor clergy serving in another church work together over a course of thirty-three self-paced learning modules. In each module, the newly ordained person gains valuable skills, mentor's observations and reflections, new confidence, and leadership formation. The result is clergy trained to be competent and confident in their roles as clergy-in-charge.

Discover the history and theory of Qabalah as well as its practical ritual

uses. Explore the five basic but essential parts of Qabalah: the ten Sephiroth, the twenty-two paths, the Four Worlds, the Three Negative Veils, and the Tree of Life. The Qabalah is the symbolic key to the Western Mystery tradition. Gain invaluable insights into all occult systems including high magic, Tarot, astrology, alchemy, hermetics, and more. In *Magical Qabalah for Beginners*, Frater Barrabbas shows ritual magicians, Pagans, and occult students how to incorporate the Qabalah into practice, using tables of correspondences, numerology, acronyms and formulae, sigils and ciphers, contemplation, and the theurgy of ascension. Now is the time to penetrate the mystical properties of Qabalah and make them work in your life. "Frater Barrabbas has crafted a

comprehensive overview of the Qabalah that is clear and accessible.”—Chic and Tabatha Cicero, Chief Adepts of the Hermetic Order of the Golden Dawn and authors of *The Essential Golden Dawn*

Emerging from the challenge to reconstruct sonic and spatial experiences of the deep past, this multidisciplinary collection of ten essays explores the intersection of liturgy, acoustics, and art in the churches of

Constantinople, Jerusalem, Rome and Armenia, and reflects on the role digital technology can play in re-creating aspects of the sensually rich performance of the divine word.

Engaging the material fabric of the buildings in relationship to the liturgical ritual, the book studies the structure of the rite, revealing the important role chant plays in it, and confronts both the acoustics of the physical spaces and the hermeneutic system of reception of the religious services. By then drawing on audio software modelling tools in order to reproduce some of the visual and aural aspects of these multi-sensory public rituals, it inaugurates a synthetic approach to the study of the premodern sacred space, which bridges humanities with exact sciences. The result is a rich

contribution to the growing discipline of sound studies and an innovative convergence of the medieval and the digital.

Highlighting popular works by P.D. James, Colin Dexter, Ian Pears and Umberto Eco, among others, this is an

intriguing examination of the treatment of religion in the genre of contemporary murder mystery novels. The other central theme examined in this book is that of justice. The narrative of any detective fiction novel depends on the murderer's ability to replace a crime with a convincingly constructed illusion of innocence, and to escape punishment by means of good manners. Erb also looks in detail at the theme of retribution in detective fiction. Can justice ever be anything more than retribution, death without hope? What satisfaction can be made for the loss of a human life? How can a murderer ever fully confess a crime and experience thanksgiving in final release from the consequences? Focusing on representations of a famous ghost and monk from the late eighteenth century to today, Justin Thomas McDaniel builds a case for interpreting modern Thai Buddhist practice through the movements of these transformative figures. He follows embodiments of the ghost and monk in a variety of genres

and media, including biography, drama, ritual, art, liturgy, film, television, and the Internet. Sourcing nuns, monks, laypeople, and royalty, McDaniel shows how relations with these figures have been instrumental in crafting histories and modernities, particularly local conceptions of being "Buddhist," and the formation and transmission of such identities across different venues and technologies.
