How to Pass the School Leaders Licensure Assessment the First Time Using NavaED Strategies, Relevant Test Questions, and Constructed Response Practice Research & Education Assoc.

Pine wilt disease (PWD) is unquestionably a major threat to forest ecosystems worldwide. After seriously affecting Eastern Asian countries, the challenge is now in Europe, following its detection in Portugal in 1999 and its subsequent spread. For foresters, these were really very bad news and, in

order for adequate action to be taken, scientists had to teach politicians about the seriousness of the problem. That is never an easy task, but it was successfully done at that time, mainly by the continued effort of Professor Manuel Mota. The challenge of having political decisions based on good science is fundamental for the success of any program, but especially in difficult situations such as those arising by the introduction of harmful organisms in new ecosystems. The success of the dialogue between science and policy requires intelligent partners from each side, which is not always necessarily the case... Examples of lack of recognition of problems raised by science are unfortunately abundant throughout the history of science. The recent recognition of the efforts of the Intergovernmental Panel on Climate Change (IPCC) and Al Gore with the Nobel Prize, and the continued failure in taking appropriate actions by major political players is a dramatic modern example of the difficulty of this dialogue...

Nutrient Requirements of Ruminants in Developing Countries Routledge

Becoming a culturally proficient leader requires the kind of courage, clarity, and insight that can only come from looking inward first. It's a personal learning journey of will and skill, and if you're up to the challenge, one that will change how you see your school, your students, and yourself as you build your own cultural competence. Consider this second edition of Culturally Proficient Leadership your personal road map for navigating that journey. Each chapter of Culturally Proficient Leadership invites you to put your experiences up front and challenges you to reframe your story based on multiple viewpoints—now, notably, with the addition of new coauthors Delores Lindsey and Eloise Kemp Terrell, who have their own remarkable stories and insight to share. Overall, all four authors will help you answer the critical question “Is what we say what we do?” utilizing the tools of Cultural Proficiency to engage in Reflections and Cultural Interviews to explore what you learn about those who are culturally different from you develop a Cultural Autobiography to provide a picture of the cultural memberships that have influenced who you are as a person use the Cultural Proficiency Continuum to examine your progress as a leader in serving your students and communities prepare an intentional Leadership Plan that summarizes your journey from Cultural Precompetence to Cultural Proficiency The central “inside-out” premise of Cultural Proficiency is that engaging in deep introspection around one's personal beliefs, values, and behaviors in response to human differences is the first step toward systemic educational reform. We invite you to embark on this journey of self-awareness, of moral courage, and of the life-affirming power of human diversity. “I believe deeply that we cannot solve the challenges of our time unless we solve them together—unless we perfect our union by understanding that we may have different stories, but we hold common hopes; that we may not look the same and may not come from the same place, but we all want to move in the same direction: toward a better future for our children and our grandchildren.” —Barack Obama, Los Angeles Times, 2008

SLLA Test Review for the School Leaders Licensure Assessment Rowman & Littlefield Publishers

Developed by the National Policy Board for Educational Administration, this best-selling guide is a proven training tool for principals at all levels of education. The book divides principal tasks, expectations, and responsibilities into 21 principalship domains. The domains correlate with the NCATE Curriculum Guidelines for Educational Leadership and the domain skills and content also match up with the Interstate School Leaders Licensure Consortium (ISLLC) Standards. This basic handbook explains in detail what principals need to know and be able to do for successful school administration: the skill areas that are the cornerstone of standards-based training for school principals.

Passing the Leadership Test: Strategies for Success on the Leadership Licensure Exam is a study guide for the School Leaders Licensure Examination (SLLA.) The book presents a comprehensive, practical guide for preparing for the SLLA. It is divided into two sections: basic principles of test preparation and the ISLLC standards with implications for school leaders and the SLLA examination. This book is a plain English, "how to" presentation for organizing and preparing for this examination (with helpful tips beneficial for any standardized examination.) Taking an informal and practical approach to the content of this book, the authors guide the reader to develop a personal plan for dealing with the SLLA. Bulleted lists of suggestions, guides, and numerous examples that will help the reader formulate a well thorough plan are all provided. The test taking strategies discussed in the Passing the Leadership Test: Strategies for Success on the Leadership Licensure Exam are beneficial for all educators who must take standardized tests, and there are strategies that educators can utilize that are beneficial to sharing with students.

Developed from a first-year graduate course in algebraic topology, this text is an informal introduction to some of the main ideas of contemporary homotopy and cohomology theory. The materials are structured around four core areas: de Rham theory, the Cech-de Rham complex, spectral sequences, and characteristic classes. By using the de Rham theory of differential forms as a prototype of cohomology, the machineries of algebraic topology are made easier to assimilate. With its stress on concreteness, motivation, and readability, this book is equally suitable for self-study and as a one-semester course in topology.
