"Microsoft Office Word 2010: A Professional Approach, Complete, is written to help you master Microsoft Word. The text guides you step by step through the Word features that you are likely to use in both your personal and business life. Learning the features of Word is one component of the text, and applying what you learn is another component. A case study was created to offer the opportunity to learn Word in a realistic business context. The case study is about Campbell's Confections, a fictional business located in Grove City, Pennsylvania. All the documents for this course relate to Campbell's Confections. The text includes seven units, and each unit is divided into lessons. There are twenty-four lessons, each self-contained but building on previously learned

procedures. This building-block approach, together with the case study and other features, enables you to maximize the learning process"--Provided by publisher.
