The Reichstag Skyhorse

Over the course of history, many wars have changed the political and cultural landscape of our world. While these events are defined by their upheaval and violence, they frequently contribute to the formation of the identity of entire generations or groups of people, and thus have significant cultural effects. Despite the physical and emotional destruction that occurs during these turbulent periods, they have inspired prolific artistic creation. In the wake of traumatic events over the centuries, a myriad of artists have produced works that immortalise the most dramatic moments of these wars in order to establish them in history forever. This book presents beautiful images depicting famous battles and war scenes, accompanied by the iconic text of the legendary Chinese military strategist Sun Tzu, as well as texts documenting notable moments of different wars, each written by well-known writers. From Uccello's The Battle of San Romano to Picasso's Guernica, this work offers a captivating look at artworks inspired by war and what they reveal about humanity's history.

A librarian, pornographer and fervent Catholic who came to regard the brothels of Paris as his true 'churches', George Bataille ranks among the boldest and most disturbing of twentieth-century thinkers. Although published at the start of the 'sexual revolution', *Eroticism* (1857) totally rejects

the gospel of 'liberation'. Everywhere, it argues, sex is surrounded by taboos, and everywhere we transgress against them in our desperation to overcome an agonizing sense of separation from other people. In developing this central theme, Bataille offers a dazzling array of insights into incest, prostitution, marriage, murder, sadism, sacrifice and the violence at the heart of religious ritual. The result is one of the strangest and most compelling books ever written about sex.

The #1 New York Times bestselling author of *Bare Bones*, host of the marquee morning program "The Bobby Bones Show," comedian and dedicated philanthropist delivers an inspirational and humorous collection of stories about his biggest misses in life and how he turned them into lessons and wins. Bobby Bones is the youngest inductee ever into the National Radio Hall of Fame alongside legends Dick Clark, Larry King, and Howard Stern. As "the most powerful man in country music" (*Forbes*), he has reached the peak of his profession and achieved his childhood dreams. Each weekday morning, more than five million fans tune in to his radio show. But as Bobby reveals, a lot of what made him able to achieve his goals were mistakes, awkward moments, and embarrassing situations—lemons that he turned into lemonade through hard work and humility. In this eye-opening book, he'll include ideas and motivations for finding success even when seemingly surrounded by impossible odds or tough failures. He also includes anecdotes from some of his famous friends—Andy Roddick, Chris Stapleton, Charlamagne Tha God, Charles Esten, Brooklyn Decker, Walker Hayes and Asa Hutchinson—who open up about their own missteps. Bobby's mantra is Fight. Grind. Repeat. A man who refuses to give up, he sees failure as something to learn from—and the recollections in this funny, smart book, full of Bobby's brand of self-effacing humor, show how he's become such a beloved goofball.

In *Being after Rousseau*, Richard L. Velkley presents Jean-Jacques Rousseau as the founder of a modern European tradition of reflection on the relation of philosophy to culture—a reflection that calls both into question. Tracing this tradition from Rousseau to Immanuel Kant, Friedrich Schelling, and Martin Heidegger, Velkley shows late modern philosophy as a series of ultimately unsuccessful attempts to resolve the dichotomies between nature and society, culture and civilization, and philosophy and society that Rousseau brought to the fore. The Rousseauian tradition begins, for Velkley, with Rousseau's criticism of modern political philosophy. Although the German Idealists

such as Schelling accepted much of Rousseau's critique, they believed, unlike Rousseau, that human wholeness could be attained at the level of society and history. Heidegger and Nietzsche questioned this claim, but followed both Rousseau and the Idealists in their vision of the philosopher-poet striving to recover an original wholeness that the history of reason has distorted.

June 28, 1389: Six hundred years before Serbian leader Slobodan Milosevic called for the repression of the Albanian majority in Kosovo, there took place, on the Field of the Blackbirds, a battle shrouded in legend. A coalition of Serbs, Albanian Catholics, Bosnians, and Romanians confronted and were defeated by the invading Ottoman army of the Sultan Murad. This battle established the Muslim foothold in Europe and became the centerpiece of Serbian nationalist ideology, justifying the campaign of ethnic cleansing of Albanian Kosovars that the world witnessed with horror at the end of the past century. In this eloquent and timely reflection on war, memory, and the destiny of two peoples, Ismail Kadare explores in fiction the legend and the consequences of that defeat. *Elegy for Kosovo* is a heartfelt yet clear-eyed lament for a land riven by hatreds as old as the Homeric epics and as young as the latest news broadcast.

Award-winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al-Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah-i-Kot Valley—and into

the mouth of a buzz saw. They were about to pay a bloody price for strategic, high-level miscalculations that underestimated the enemy's strength and willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning, while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.

In the 1990s Norman Foster transformed Berlin's Reichstag from a historical symbol of Germany's defeat and division to an architectural beacon for twenty-first century democracy, as can be seen in this generously illustrated book. This book introduces readers to one of Europe's iconic buildings and documents its rehabilitation by Foster + Partners through full-color photographs, plans, and sketches, along with informative essays. The new Reichstag's cutting-edge and environmentally sustainable features; the preservation of its historic details; and the cupola's new identity as an urban landmark are all discussed in the book, confirming Foster's innovative vision.

The Mistress Logos-A

As violence and turmoil continue to define the former Yugoslavia, basic questions remain unanswered: What are the forces behind the Serbian expansionist drive that has brought death and destruction to Croatia, Bosnia and Herzegovina, and Kosovo? How did the Serbs rationalize, and rally support for, this genocidal activity? Heavenly Serbia traces Serbia's nationalist and expansionist impulses to the legendary battle of Kosovo in 1389. Anzulovic shows how the myth of "Heavenly Serbia" developed to help the Serbs endure foreign domination, explaining their military defeat and the loss of their medieval state by emphasizing their own moral superiority over military victory.

Heavenly Serbia shows how this myth resulted in an aggressive nationalist ideology which has triumphed in the late twentieth century and marginalized those Serbs who strive for the establishment of a civil society. "Modern Serbian nationalism...and its contradictory connections...have been sources of considerable scholarly interest...Branimir Anzulovic's compendium is a good example of the genre, made all the more useful by Anzulovic's excellent command of the literature." —Ivo Banac, History of Religions Author interview with CNN: http://www.cnn.com/chat/transcripts/branimir_chat.html

Balkan Identities brings together historians, anthropologists, and literary scholars all working under the shared conviction that the only way to overcome history is to intimately understand it. The contributors of *Balkan Identities* focus on historical memory, collective national memory, and the political manipulation of national identities. They refine our understanding of memory and identity in general and explore and assess the significance of particular manifestations of Balkan national identities and national memories in the region. The essays in *Balkan Identities* grapple with three major problems: the construction of historical memory, sites of national memory, and the mobilization of national identities. While most essays focus on a single country (e.g. Croatia, Romania, Turkey, Cyprus, Albania, Serbia, Bulgaria, Greece, Macedonia), they are in dialogue with each other and share an opposition to rigid isolationist identities. Illuminating and challenging, *Balkan Identities* demonstrates the ever-changing nature of a troubled and culturally vibrant region.
