With enhancement package 6, SAP has done some renovation work to a number of CO planning functions as well as master data maintenance. These functions are accessible via the NetWeaver Business Client as well of the Analysis Client which virtually provides a means of uploading plan data from Excel. The following transactions are affected by the renovation:

- Primary cost planning for cost centers and projects
- Overall cost planning- Activity planning
- Master data maintenance for cost centers etc.

The new transactions do not only provide a new look-and-feel; with the integration of BW-IP (Integrated Planning) functionality into SAP ERP, you can also show actual figures as well as historical plan data in your planning sheets. This functionality is brand new and has only been implemented for a

few SAP clients. This book will provide a visual impression of the improved planning and maintenance transactions,with both screenshots and videos.
