Locked church doors and tossed rotten eggs greeted the faithful and patient Charles Simeon in his early years as a pastor. But in humility and simple power he was allowed by God to triumph. He became, as John R.W. Stott notes, "one of the greatest and most persuasive preachers the Church of England has ever known."

Why did he have such an impact? You'll discover the reasons yourself as you read these clearflowing sermons, rich in content and clean in style. Shining through his words are Simeon's simple devotion to pure biblical truth, his concise and orderly presentation, and his pastor's mind and heart. James Houston's editorial preface is an instructive guide to Simeon's sound homiletical principles, while Stott's introduction is an engaging portrait of Simeon as a servant of God. Surveying his long life (1758-1836) and fruitful ministry, Stott is especially impressed by Simeon's refreshing, unaffected humility, and writes, "Our proud, self-confident, self-congratulatory generation urgently needs to recover this biblical perspective." Dr. James M. Houston, editor of the CLASSICS OF FAITH AND DEVOTION SERIES, is a highly acclaimed scholar and pioneer in the field of evangelical

spirituality. He came to North America from England in 1968 to lead Regent College in Vancouver, Canada, an international graduate school of Christian studies.

A provocative essay collection that finds the Nobel laureate taking on the decline of intellectual life. In the past, culture was a kind of vital consciousness that constantly rejuvenated and revived everyday reality. Now it is largely a mechanism of distraction and entertainment. Notes on the Death of Culture is an examination and indictment of this transformation—penned by none other than Mario Vargas Llosa, who is not only one of our finest novelists but one of the keenest social critics at work today. Taking his cues from T. S. Eliot—whose essay "Notes Toward a Definition of Culture" is a touchstone precisely because the culture Eliot aimed to describe has since vanished—Vargas Llosa traces a decline whose ill effects have only just begun to be felt. He mourns, in particular, the figure of the intellectual: for most of the twentieth century, men and women of letters drove political, aesthetic, and moral conversations; today they have all but disappeared from public debate. But Vargas Llosa stubbornly refuses to fade into the background. He is not content to merely sign a petition; he will not bite his tongue. A necessary gadfly, the Nobel laureate Vargas Llosa, here vividly translated by John King, provides a tough but essential critique of our time and culture.

How do children construct, negotiate and organize space? The study of social space in any human group is fraught with limitations, and to these we must add the further limits involved in the study of childhood. Here specialists from archaeology, history, literature, architecture, didactics, museology and anthropology build a body of theoretical and methodological approaches about how space is articulated and organized around

children and how this disposition affects the creation and maintenance of social identities. Children are considered as the main actors in historic dynamics of social change, from prehistory to the present day. Notions on space, childhood and the construction of both the individual and the group identity of children are considered as a prelude to papers that focus on analyzing and identifying the spaces which contribute to the construction of children's identity during their lives: the places they live, learn, socialize and play. A final section deals with these same aspects, but focuses on funerary contexts, in which children may lose their capacity to influence events, as it is adults who establish burial strategies and practices. In each case authors ask questions such as: how do adults construct spaces for children? How do children manage their own spaces? How do people (adults and children) build (invisible and/or physical) boundaries and spaces?

At twelve-year-old Indian American boy believes he is the reincarnation of Krishna and plans to unveil his true identity at the school talent show. Meet Kiran Sharma: lover of music, dance, and all things sensual; son of immigrants, social outcast, spiritual seeker. A boy who doesn't quite understand his lot—until he realizes he's a god . . . As an only son, Kiran has obligations—to excel in his studies, to honor the deities, to find a nice Indian girl, and, above all, to make his mother and father proud—standard stuff for a boy of his background. If only Kiran had anything in common with the other Indian kids besides the color of his skin. They reject him at every turn, and his cretinous public schoolmates are no better. Cincinnati in the early 1990s isn't exactly a hotbed of cultural diversity, and Kiran's not-so-well-kept secrets don't endear him to any group. Playing with dolls, choosing ballet over basketball, taking the annual talent show way too seriously...the very things that make Kiran who he is also make him the star of his own personal freak show . . . Surrounded by examples of upstanding Indian Americans—in his own home, in his temple, at the weekly parties given by his parents' friends—Kiran nevertheless finds it impossible to get the knack of "normalcy." And then one fateful day, a revelation:

perhaps his desires aren't too earthly, but too divine. Perhaps the solution to the mystery of his existence has been before him since birth. For Kiran Sharma, a long, strange trip is about to begin—a journey so sublime, so ridiculous, so painfully beautiful,

that it can only lead to the truth . . . Praise for Blue Boy
