Le dîner au manoir de Randwulf était servi à huit heures, ce qui laissait à Adriana une heure pour se préparer. Après une journée exténuante, elle mourait d'envie de se détendre dans un bain parfumé. En pénétrant dans la salle de bains, elle constata que la baignoire était déjà remplie. Une délicate attention de sa femme de chambre... Une fois dévêtue, elle se glissa dans l'eau divinement chaude, ferma les yeux et s'assoupit. - J'espère que je ne vous dérange pas ? Adriana sursauta : le marquis de Randwulf, à demi nu, se tenait devant la baignoire. Depuis combien de temps était-il là ?

'The Globalization of Addiction' presents a radical rethink about the nature of addiction. Scientific medicine has failed when it comes to addiction. There are no reliable methods to cure it, prevent it, or take the pain out of it. There is no durable

consensus on what addiction is, what causes it, or what should be done about it. Meanwhile, it continues to increase around the world. This book argues that the cause of this failure to control addiction is that the conventional wisdom of the 19th and 20th centuries focused too single-mindedly on the afflicted individual addict. Although addiction obviously manifests itself in individual cases, its prevalence differs dramatically between societies. For example, it can be quite rare in a society for centuries, and then become common when a tribal culture is destroyed or a highly developed civilization collapses. When addiction becomes commonplace in a society, people become addicted not only to alcohol and drugs, but to a thousand other destructive pursuits: money, power, dysfunctional relationships, or video games. A social perspective on addiction does not deny individual differences in vulnerability to addiction, but it removes them from the foreground of attention, because social determinants are more powerful. This book shows that the social circumstances that spread addiction in a conquered tribe or a falling civilisation are also built into today's globalizing free-market society. A free-market society is magnificently productive, but it subjects people to irresistible pressures towards individualism and competition, tearing rich and poor alike from the close social and spiritual ties that normally constitute human life. People adapt to their dislocation by finding the best substitutes for a sustaining social and spiritual life that they can, and addiction serves this function all too well. The book argues that the most effective response to a growing addiction problem is a social and political one, rather than an individual one. Such a solution would not put the doctors, psychologists, social workers, policemen, and priests out of work,

but it would incorporate their practices in a larger social project. The project is to reshape society with enough force and imagination to enable people to find social integration and meaning in everyday life. Then great numbers of them would not need to fill their inner void with addictions.

Reviled by critics but loved by the readers, the bestseller has until recently provoked little serious critical interest. In *The Myth of Superwoman*, originally published in 1990, Resa Dudovitz looks at this international phenomenon, particularly at the origins of the bestseller system in the United States and France. Her cross-cultural study, including interviews with publishers, literary agents, and bestselling authors, gives a lively picture of the contrasting ways in which the bestseller is produced, marketed, and received in two countries. It pays special attention to the 'international bestsellers' of the 1980s, to writers like Judith Krantz, Colleen McCullough, and Barbara Taylor Bradford, all of whose novels are published in the United States, Britain, France, Germany, and Italy. The book presents a general analysis of women's bestsellers, ranging over a wide variety of novels, from popular nineteenth-century texts in France and the United States to the novels of today. Dudovitz shows how women's bestselling fiction has, over the last two hundred years, kept pace with the

social evolution of contemporary women, culminating in the myth of superwoman in women's bestsellers of the 1980s. This fascinating account of an important aspect of popular culture will be of great value to students of women's studies and cultural studies, especially those interested in the myths which structure women's bestselling fiction.

This timely Research Agenda examines the ways in which public-private partnerships (PPPs) in infrastructure continue to excite policy makers, governments, research scholars and critics around the world. It analyzes the PPP research journey to date and articulates the lessons learned as a result of the increasing interest in improving infrastructure governance. Expert international contributors explore how PPP ideas have spread, transferred and transformed, and propose a range of future research directions.

"The Colonial Fortune" highlights the features of a paracolonial aesthetics emanating from a significant body of contemporary Hexagonal and non-metropolitan texts. Authored by writers who are either directly involved in the debate about the colonial past and its remanence (J. M. G. Le Clézio, Paule Constant, Édouard Glissant, Tierno Monémbo, Marie NDiaye, and Leïla Sebbar) or who do not overtly manifest such concerns (Stéphane Audeguy, Marie Darrieussecq, Régis Jauffret, Pierre Michon, and Claude Simon), these works create a shared imaginary space permeated by the symbolic, rhetorical, and conceptual presence colonialism in our postcolonial era. The paracolonial describes the phenomena of revival, resurgence, remanence, and residue - in

other words, the permanence of the colonial in contemporary imagination. It also addresses the re-imagining, revisiting, and recasting of the colonial in current works of literature (fiction, autobiography, and essay). The idea of the colonial fortune emerges as an interface between our era's concerns with issues of fate, economics, legacy, and debt stemming from the understudied persistence of the colonial in today's political and cultural conversation, and literature's ways of making sense of them both sensorially and sensibly.

Were war veterans a key factor in the emergence and expansion of fascism movements and regimes in interwar Europe?

Transcending the long-standing controversies around the notion of 'brutalisation', this book applies a transnational perspective to offer a new and suggestive interpretation of the relationship between war veterans and fascism. Drawing on a wide range of sources written in five different languages, Alcalde analyses the creation and transnational circulation of the 'myth of the fascist veterans', first promoted by Benito Mussolini and the Italian fascist movement, and later embraced by the Stahlhelm, the Nazis, the Faisceau and the Falange among other groups across the European continent. Spanning historical events from Fascist Italy to Francoist Spain, War Veterans and Fascism in Interwar Europe is an illuminating social, cultural and international history

of war veterans between the years of the Great War to the beginning of the Second World War.

How do terrorists become politicians? This book embraces a series of comparative case studies in order to examine important issues regarding the relationship between terrorism and political processes. It identifies the characteristics necessary for the transition from a 'terrorist' organization to a political party and situates this within broader debates about substantive ethical

concerns motivating the distinction between legitimate politics and illegitimate violence. The volume offers a presentation of how some terrorist groups see the world in which they live. It also provides an understanding of how established democracies such as the US react to the phenomenon of the terrorist-politician transition. This is a useful resource for students and scholars of international relations, political ethics and comparative politics.
